OF INTEREST TO PRINTERS.

Welcome Announcement Another About the Assessment Received.

Last week the welcome announcement came from international headquarters that beginning on Monday, Mach 3, the assessment for the eight-hour day cause would be reduced to 2 per cent. This makes a total reduction of eight per cent since last fall. With the unparallelled label agitation now in progres it is believed that such a demand will be created for good printers that the assessment may soon be abrogated. Since the begining of the struggle for the eighthour day Lincoln Typographica! Union, No. 209, has raised and forwarded to headquarters \$9,000, in addition to which it has financed its local affairs to the extent of about \$1,-203. All this has been done in seventeen months-a mighty good record for a union that averages about vinety in membership. It means practically an average of \$100 per man in the seventeen months.

Monday the union men in the Nebraska Printing Co. shop were pulle'i out, the proprietor of that concern refusing to sign the eight-hour contract. Four men came out. "Levy has robbed the cradle and the grave to keep going," remarked a unionist who looked in at the window and saw the bunch of near-printers who were attempting to act like real mechanics.

At the proper time the local will give this shop the attention due it. The four men who walked out were speedily placed.

Lincoln Typographical Union met in regular session last Sunday afternoon, and the session was full of interest. Three new members were admitted and obligated. The attendance was unusually large.

Detroit Typographical Union, notwithstanding a long strike and a heavy drain on its treasury, has pledged \$1,000 to the new Y. M. C. A. building in that city. It will be the best investment the union ever made, too. What do you think of a bunch of mechanics who have been paying a 10 per cent assessment for nearly two years walking up and promising to donate a thousand dollars to a religious institution? Can you beat a bunch like that?

W. H. Colescot, aged 76, a member of Typographical Union No. 1, died at the soldiers' home at Marion, Indlana, last week.

Shelby Smith, who was sacrificed at Toronto to make a Roman holiday, is doing more for the cause than any half-dozen of the gang that went after his scalp. Through his efforts one of the biggest shops in Philadelphia was organized recently. Then Smith, as editor and publisher of the Trades Union News, proceeded to get busy for fair. He went to the unfair shop that had the contract for printing the Musical Enterprise and asked it to square up. It haughtily refused. Smith turned around and secured the contract for printing the magazine. Now he is after other publications that are now printed in unfair shops. If the shops square up he will not interfere. And this is the man whose "scalp" they had to have to salve their

John W. Wise has sued the Lyric theatre management for \$3,800 damages. He said he had a contract for printing the programs, said contract having been assigned to him by the firm originally holding it. Manager Miller is not worrying. The people who sold Wise a "contract" had none. They paid Miller so much for the privilege of furnishing the program.

Things are looking up in Detroit. Within the last couple of weeks twenty-five men working in unfair shops have voluntarily joined the union or left town. The "rat" printeries are up

against it worse than ever. Typographical Unions all over the country are already making preparations for the proper observance of "Printers' Memorial Day," which is the last Sunday in May. The printers were the first craftsmen to officially adopt such a day and custom.

Some Plain Truths About the Famous Chicago Case.

conviction at the start, and these quickly yielded to the other ten. The prosecution was utterly without merit. It was instigated and maintained both in court and in the trust newspapers, for private business ends. The prosecuting lawyer was hardly more than nominally a member of the prosecuting officer's staff. He was the private attorney of the business interests that instigated the prosecution. And the prosecution itself, while nominally for a blackmalling conspiracy to injure the business of a mercantile firm, was in fact for the criminalization of sympathetic strikes. It failed, first because there was no credible testimony of blackmail, and second because the jury would not place sympathetic strikes under the ban of the criminal law.

A curious thing happened after the trial. Three or four labor leaders who had been accepted as informers. had sworn to transactions calculated to prove that the strike was in furtherance of pecuniary objects, that brutal violence had been resorted to deliberately by the strike leaders, that they themselves had participated in these criminal purposes and acts, that no promise of immunity had been made them, and that having pleaded guilty they expected to be imprisoned. Now, it is true that the jury refused to believe these informers (some of whom were shown to be convicted criminals), in so far as their testimony incriminated the men on trial. But that was no reason for exonerating them upon their own pleas of guilty. Although the men on trial were acquitted, these informers were guilty on their own pleas. If the indictment described a crime, they stood before the court self-convicted of that crime. Yet the prosecuting attorney, falling to convict the innocent men. exonerated these guilty ones. This may be the law, for the prosecuting attorney did it; presumably it must be the law, for the judge allowed it. But what kind of law is it that permits guilty men, men guilty of crime upon their own confession in open court, to go free because a jury would not believe their testimony against other men?-Chicago Public.
