BLAMES TELEGRAPH COMPANIES

Said to Have Violated Charters in Oklahoma During Strike.
 Oklahoma City, Okla., Sept. 23.—Assistant Attorney General Fred Elms is securing evidence here relative to complaints made to the attorney general's office by O. A. Smith, secretary of the local telegraphers'

union, and others, that both the Western Union and Postal Telegraph companies violated their charters during the strike of the telegraphers, by refusing to accept messages for transmission when offered them and for using the mails to send messages. Affidavits supporting the charges made by the local telegraphers' union were prepared and sent the attorney

general's office. If the charges made can be substantiated by evidence strong enough, it will be the attorney general's duty to institute ouster proceedings against both telegraph companies.

"JEST NACHALLY QUIT."

Ministers Not Ousted From La Crosse Central Body.

La Crosse, Wisconsin, Sept. 15.—The several labor papers and other papers that are frequently printing articles with "scare-heads" that the ministers were ousted from the Trades and Labor Council have not the full particulars of the case. Owing to the fact that no delegate was sent to the council meetings for some time the council, in accordance with the constitution and by-laws, instructed the corresponding secretary to notify the clergyman to that effect. Not receiving any answer, whatsoever, it was naturally taken for granted that they lost interest in the meetings, therefore they are no more connected with the trades council.

THE FRATERNAL RELEGATE.

Charley Fear Writes an Endorsement of The Plan of Exchange.

One of the fraternal delegates from the Central Labor Unions, who has been cordially welcomed by the ministers, is Charles W. Fear, editor of the Labor Herald of Kansas City, Missouri.

Mr. Fear is enthusiastic regarding this plan. He recently wrote me concerning it as follows:—
 "With fear and doubt the writer accepted the position of fraternal delegate from the Kansas City Central Labor Organization to the Presbyterian Ministers' League. But the first session of the Ministers' League dispelled all the fear I had entertained

and also removed most of the doubt. I found willing listeners and a ready response to all requests from organized labor. The attitude of the Presbyterian Church and its business agents—(ministers)—is greatly appreciated. As to results obtained;—that cannot be computed or correctly stated by anyone. From my viewpoint it seems that the advantage is all on the side of organized labor. Hundreds of ministers have been given an insight into the real workings of labor organizations and organized labor has won defenders in high places. The fact that Dr. Carter, the fraternal delegate from the Ministers' League, and other representatives of the church were present often kept down angry debates and on more than one occasion the fraternal delegates from the Ministers' League "poured oil" on the troublesome discussions, and settled many vexatious controversies.

From the standpoint of the Presbyterian Church, I am not able to say how it has been benefited. But organized labor has been, and is being, benefitted as a result of the establishing of fraternal relations between the church and the Central Labor bodies. It is to be desired that the relations become closer and stronger as the months and years go by, and that the families of the toilers will reap the benefits from the preliminary work now being performed in this field of labor."—Rev. Charles Stetzle.

DODGING THE CARS.

"Billy" Bustard, who deserted the Mergenthaler to take up with the plow and harrow, came in from Broken Bow last week, and is visiting with friends in Lincoln. The first three days of his visit he collided with five street cars, was run over by two automobiles, bought two gold bricks and gave a man \$5 to make the Richards block turn around. It took him several hours to remember that the lights across O street were not produced from kerosene. He reports an excellent crop of wheat and oats and prospects for an average crop of corn. But he will refuse to dig his potatoes because they are "scabby." He will return to Broken Bow when he has just money left for car fare.

Kansas Land Brought \$26,000.

Hiram DeTombey, one of the largest owners of Saline county land, has just sold a tract of land to Mrs. Mary B. Dearing of Ellsworth county, consisting of 960 acres, for a consideration of \$26,000. A majority of the land is in pasture. This is one of the largest real estate transfers that has been made in Saline county in several years. Mr. DeTombey contemplates a trip to his old home in England when his crops have been gathered and he has given possession to the purchaser.

FALL AND WINTER

Looking for Good Clothes at a moderate price? That's the kind we sell. Neat, dressy, well-fitting and serviceable clothing at prices that appeal to the careful and economical wage earner.

Ten to Eighteen Dollars

You'd pay more for the same goods at other places. But even at this price we make a reasonable profit. The profit we make, however, is not nearly as great as the saving to you. We can demonstrate these facts if you come in.

Union-Made Goods

—Lots of them. Work Clothes, Hats, Shoes, Shirts, Overalls, etc. WE CHALLENGE COMPARISON IN THESE LINES.
