Looking for Good Clothes at a moderate price? That's the kind we sell. Neat, dressy, well-fitting and serviceable clothing at prices that appeal to the careful and economical wage earner.

**Ten to Eighteen Dollars**

You'd pay more for the same goods at other places. But even at this price we make a reasonable profit. The profit we make, however, is not nearly as great as the saving to you. We can demonstrate these facts if you come in.

**Union-Made Goods**

—Lots of them. Work Clothes, Hats, Shoes, Shirts, Overalls, etc. WE CHALLENGE COMPARISON IN THESE LINES.

# INVEST YOUR MONEY IN THE NEW BREWING AND ICE PLANT— LINCOLN BREWING & ICE CO.

The shares are \$50 each, payable in 10 months at \$5.00 per month on each share purchased. It is confidently expected that this stock will increase in value rapidly and also pay large dividends. The most conservative business men of Lincoln are buying this stock, and we want YOU to have at least one share, as it is intended to secure the co-operation of many hundreds of stockholders with small investments, rather than a few with large investments.

Every dollar subscribed will be put into the company's property; no cash is paid out for promotion. EVERY DOLLAR OF COST WILL BE UNION MATERIAL AND LABOR.

It seems unnecessary to argue the profit in the business. Ice, alone, will pay good dividends. The most conservative estimate would be at least ten per cent annually. Many other concerns pay four or five times this.

Write to any address below and say how many shares you want. No money will be asked for until enough is subscribed to make it safe to call the money. It will be thirty or sixty days before any money will be asked for, and then you will be notified where to pay the first payment.

### DON'T GO NEAR SEATTLE.

That City's Central Labor Union Has Issued Warning.

In view of the fact that the press of the country has been publishing articles stating that there is a shortage of skilled mechanics on the Pacific coast, and that the government is fearful it cannot get enough men to repair the battleships which are coming to that section to be overhauled and put in order, the Central Labor Union of Seattle, at a recent meeting, formally declared that all such articles were misleading and were disseminated for the purpose of cheapening labor by flooding that section with skilled mechanics, thereby making a glut in the market, inasmuch as there are now many mechanics registered at the navy yard who cannot get employment. The Central Labor Union, therefore, warns all union workmen not to be deceived by such reports, and to make careful inquiry as to the conditions before starting for Seattle. The bakers there also report a large number of idle men, and some other crafts show the same state of affairs.—St. Paul Union Advocate.

### THE MAN BEHIND.

Here's the One Who Prevented a Disastrous Business Panic.

During the money flurry that recently threw a scare into the country, Secretary of the Treasury George B. Cortelyou said: "One of the most gratifying incidents of our recent trouble was the prompt and patriotic response of many great labor organizations to the appeal of employers for their co-operation. This co-operation should be availed of everywhere and generously recognized as a distinct step toward a better understanding between employer and employee." There was not a single instance where the union officials got cold feet and demanded their money. The union men of the country could have demanded cash for their work and caused untold trouble and failures of banks and employers, but they did the square thing. Right here in Omaha at the very moment when the unions and union men were helping to hold the country in the prosperity column, one of our national bankers called one of his depositors to his desk and said: "If you are employing union men we cannot give you any of our business." That is the way this banker "generously recognized" the co-operation of the unions.—Western Laborer.

### THE LEATHERWORKERS.

Business Slack, But the Men Adopt Heroic Work Rules.

Business is reported awfully dull among the leatherworkers. In order to distribute the work up and keep as many families as possible provided for, the local union has adopted an eight hour rule with a \$10 a week limit. The man who works eight hours a day and as soon as his weekly wage reaches \$10 he lays off and lets another man take his place. In this way the money is distributed and none are feeling the pinch of poverty. Of course among "free and independents" this rule would not obtain. The "hogs" would work as long as they could, regardless of the privations of their less fortunate fellows. But being the "slaves of a tyrannical trades union" the leatherworkers haven't got any more sense than to actually take steps to make it as easy as possible for all.

### CAPITAL AUXILIARY.

### WILL ASK ADVANCE.

The United Postal Clerks have decided that during the coming session of congress they will fight for an eight-hour law, thirty days' vacation and fifteen days' sick leave annually, also for promotions above \$1,000 a year, the limit now set.

### LABOR'S MEMORIAL DAY.

After much discussion at the A. F. convention, it was finally decided to observe the second Sunday in the month as designated and observed by members of organized labor in the country as "Labor's

### MAY BE NEWS TO SOME.

A great many staunch unionists may not be aware of the fact that the Youth's Companion is a "rat" publication. It is, and it is on the "we don't patronize list." Too bad. Such an exponent of "good" ought to practice what it preaches.

### A BIG PLANT.

The Righter Linotype Composition Co. is the largest linotype job plant in the state. The new machine was installed the first of this week. It is a new model, No. 5, individual motor and everything that goes to make the linotype-IT.

### Women Lack Dignity.

An English periodical writer, that is, a writer for periodicals, says that women do not know how to walk, and get along like mechanical toys. "The deplorable lack of dignity in women," he says, "is one cause of the bad walking." Our forbears were dignified and the oriental of to-day has inherited the trait, but the modern woman has it not.

### Drunkenness in 1600.

An English traveler, writing in the year 1600, said that there were more saloons in Dublin than in any other city in the world. The Irish, he said, always got drunk at wakes, weddings and fairs. The English were not far behind them, and over on the continent alcohol was also making great headway. Here in America, too, drinking was becoming a popular sport.

### Cheaper Rate Than the Doctor's.

A few years ago on Sutter street in San Francisco an ambitious young Japanese had a little store stocked with goods imported from his native land. In his show window was a stack of decorated mush bowls and leaning against their front was a cardboard sign bearing in stencilled letters this announcement, "Fine Bowls, 50 cents a set."—Lippincott's.

### Pantomimic Golf.

To play behind a foursome composed of Frenchmen one must resign all attempt to play golf, and in place of it you must feel that you are compensated by watching the pantomime of the quartet preceding you. Trust me, you will be amply repaid. That is, if nature has endowed you with a sense of humor.—Golf Illustrated.

### Black Potatoes.

A late novelty in the way of a black potato has just reached the vegetable markets. The potato was sent from the Congo, and is said to have an excellent flavor. It is to be used for ornamental cookery.—What-to-Eat.

### Better Collateral.

The diamond reef in Pike county, Ark., may be the "real thing," but the tomato crop in little Delaware looks like better collateral. Three million dollars in tomatoes makes a brave show.—New York Sun.

Germany's colonies are five times as big as herself, those of France 18 times and Britain's 97 times bigger than herself.
