Justice Outraged Again in State That Gave Lincoln

Last week Judge Tuthill of the cir-jenough to say of the hideous confes

ual contracts and work as many hours farming and the 'white slave' traffic as they please. In rendering his deci- seem tolerable by comparison? sion he said: "To deny this injunction would put woman back one hun- and expert and faithful at their work dred years. The law as it now stands are not paid enough wages to live virtually relegates woman back to de- upon for ten hours' work a day, there pendence. It deprives her of the is something rotten in the industrial power to exercise the right of contract, which is _ n her by the constitution."

the employes, and the utter disregard to work ten hours a day for less than of common sense, if not of judicial a bare living. When this is so, there procedure on the part of Judge Tuthill, is a higher duty for judges-if they is so much better explained by Louis wish to be regarded as intelligent, or F. Post in the Chicago Public than humane, or even as 'learned in the The Wageworker could hope to do it, law'-than driveling about 'free conthat Mr. Post's words are here quoted tract.' and granting injunctions in their entirety:

women, the legislature of Illinois last turers confess to paying to women winter enacted a law limiting the employment of women in factories to ten petently, less than a living for a tenhours a day. As the law met opposition from the Illinois Manufactuerrs' associations to do something better Association, it was with great diffi- than whine about the despotism of ten culty that its enactment was secured; hour laws. If there are any decent and in order to secure it the working men in the Illinois Manufacturers' Aswomen were obliged to modify the sociation, they should be glad to eslimitations they desired, from eight cape the odium of this wretchedly tuurers' Association is now checking they do not pay better wages. And the opeartion of this law as unconsti- if it is because they cannot, then by tuutional. It has applied for an in- trying honestly and fairly and with inction to restrain the criminal courts as much energy as they now expend from enforcing the penal provisions of in invoking 'government by injunction' the law against the employers. This against workers in duress, why it is would have been to laugh a few years that they can not? Is it because they ago-the bringing of a suit in chanc- are sordid and greedy? or is it beery to restrain public prosecutuors and cause they also, as well as their hired grand juries and criminal courts from people, are plundered? There are enforcing a criminal statute! But since open minds for explanations from the judicial innovation known as 'gov- them. But they deserve the severest ernment by injunction,' such a proceed- censure for giving countenance to the ing is no great novelty, and one of the gross inhumanity which their own judges has granted the injunction. His expressed reasons are that the law hideous confession in this ten-hour prevents a weman from exercising her right of free contract.

"A stupid reason that, for any really intelligent judge to give. The law in question is essentially in the interest of free contract; its nullification is in the interest of economic coercion. Mrs. Raymond Robins, president of the Women's Trade Union League, drives this point home when she says: 'Everybody who knows what is the day on which the union labels going on in the world (except judges were to be restored to the hats. Sevand lawyers) knows that freedom of eral of the firms complied with the contract can exist only between par- terms of the agreement at once, and ties on an economic equality.' It is it is thought that the label will be plies, that working women and their employers do not contract as economic equals. The employers can wait; the workers wait at peril of starvation. The employers command working opportunities; the workers are cut off by privilege-fostering laws. And inasmuch as this economic inequality is intensified by long hours and modified by short hours, laws limiting hours are in the direction of freedom of labor contracts, while injunctions against the enforcement of such laws are aid of actual industrial despotism.

cuit court of Cook county, Ill., granted slon of the Illinois Manufacturers' Asan injunction restraining the state fac- sociation in this case? Neither the is called at this time to the Teams- Leader tory inspector, Edgar T. Davis, from Association nor its members could get enforcing the recently enacted law into court technically without going prohibiting the employment of women through the form of appearing to more than ten hours in any one day. make the court believe that its law-The last legislature of the state suit is in behalf of working women. passed an act limiting the hours of What it wants is an injunction that employment for women in factories will give its members the power to and other industries to ten a day, and exact long hours of their workers. prescribed severe penalties for viola- But what it had to show, technically, tions of the law. More Daylight

It Affects **Every Person** in United States

By THURDE RAYLE BRUCE

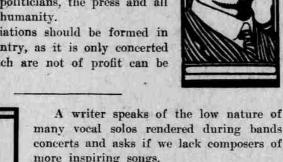

N MY TRAVELS I have read with great interest the many articles appearing in the different newspapers and other publications on the use of more daylight, and have been pleased to see that the press has not only been liberal in the space devoted to this subject but that the vast majority of the publications are favorable. However, quite a few fall into the common error of thinking that the same thing could be accomplished without complications by changing the hour of work and that the advocates of securing more daylight by changing the clocks during the summer time fool themselves.

They overlook the fact that suburban trains are run to-day in accordance with the present schedule of hours in the commercial world. Mail trains are regulated to a large extent along the same lines and the office force as a rule time their arrival with the first mail. Therefore if the hours of beginning the day's work were advanced an hour everything would be out of line. If it became an established custom to advance the hands of the clock May 1 one hour, allowing them to remain until October 1, when they would be changed back to the present standard of time, it would not be necessary for the railroads to change their time tables and all schedules would be kept by the clock, the same as to-day, and the change would be forgotten almost immediately. In the summer at least those sections of the country that were robbed of a good portion of an hour by the establishing of standard time would have this time restored and every one given an additional hour during the summer time to devote to rest or recreation, as they may elect.

It must not be overlooked that as this proposed reform contains no politics or religion and is not of profit it is everybody's business and therefore nobody's business. Yet it is unique, inasmuch as it injures no one and does not call for the expenditure of Uncle Sam's money. So every one should do what he can to aid it. It affects every man, woman and child in the United States and it is a subject worthy of strenuous activity on the part of politicians, the press and all who act for the good of humanity.

· More-daylight associations should be formed in every section of the country, as it is only concerted action that changes which are not of profit can be

many vocal solos rendered during bands concerts and asks if we lack composers of

It is not so much the lack of composers as it is of the people who appreciate higher class songs. The modern public desires melodies of this nature; in fact, the majority would not understand any other. If the songs that were popular two score or more years ago were produced to-day they would, no doubt, be jeered at and ridiculed. Surely the admirers of most of the modern songs could not comprehend

the beauty and uplifting character of such as "Drink to Me Only with Thine Eyes," "Silver Threads Among the Gold" and "Mary of Argyle." In order to cater to the degraded tastes of the majority of the people of to-day the maudlin songs are composed.

Nevertheless, those who have charge of these concerts should give to the public a series of numbers that have nothing of the debasing character in them, but which will have an elevating influence on the minds of those who appreciate them, regardless of the likes and dislikes of the

What Is Use of Getting Married

Modern

Desires

Popular

Melodies

By EDWIN L. ARKINS

Public

By SIDNEY BELL

What is the use of getting married?" asks a correspondent. I'll tell you. It is to have a happy, comfortable home. That statement looks selfish, too, doesn't it? But look farther. To have that kind of a home there must be love, and that takes unselfish regard for each other. To make a home comfortable it must be comfortable for your husband or wife. That takes more unselfishness on your part. Children are the greatest blessings that can ome into a home. They take still more un selfishness. You must care for them, love them, watch over them, seek to make

them happy, and teach them to lare the home. They won't love home unless home is made attractive for trem. Neither husband nor wife alone can make home happy and comfortable.

If you will try to make your home as happy and comfortable for the other inmates of it you will do a great deal toward making it happy and comfortable for yourself. Then if the others will do the same-and you must get them to-you will no longer ask "What is, the use of getting

Church and Labor Have Work in Common
