

TRIED REMEDY FOR THE GRIP.

PE-RU-NA FOR COUGHS AND COLDS

VERY LIKELY.

DOCTOR'S BEST FORMULA

For Remarkably Quick Action on Colds and Coughs.

This prescription will frequently cure the worst cold in a day's time and it is a sure cure for any cough that can be cured. "Two ounces Glycerine; half ounce Concentrated Pine; Put these into half a pint of good whiskey and use in doses of teaspoonful to a table-spoonful every four hours. Shake bottle well each time." Any druggist has these ingredients in stock or will quickly get them from his wholesale house. The Concentrated Pine is a special pine product and comes only in half ounce vials each enclosed in an air tight case; But be sure it is labeled "Concentrated." This formula cured hundreds here last winter.

Fog-Eye's Plaintive Protest.

Fog-Eye Smith of northwest Wyoming bore an appalling facade. His style of beauty was a blight. Depending upon his horrid exterior, he was in the habit of trying to awe newcomers. On one occasion, affecting some displeasure at the manner in which a pallid stranger watered his liquor, Mr. Smith announced, frowning, that unless he detected immediate amendment he would send the neophyte home in a market basket. "Which I'll sure tear you up a whole lot," said Fog-Eye. Half an hour later Mr. Smith was found groping about on the floor under the poker table, hunting for his glass eye, and muttering to himself. The stranger asked with some evidence of impatience what new line of sentiments Mr. Smith was now harping. That injured resident, glaring malevolently from beneath the furniture, replied: "Which I sure do hate a man with no sense of humor."

Women Swimmers.

"The Korean women are the best swimmers in the world," said a life guard. "The Korean pearl diving is in their hands. They swim—they don't boat—they swim out to the pearl fisheries at Quelport lugging baskets with them. After this swim of half an hour they dive down 50 feet and fetch up queer one-shelled pearl oysters as big as babies. They dive till their baskets are full—the baskets are corked to keep them afloat—and after three or four hours' work they swim back home with their catch. The big one-shelled oysters are valuable as pearl mines and as food, too. A half dozen Koreans will sit down to an oyster as gayly as you or I sit down to a boiled lobster. Sometimes when the great shellfish is eaten raw it quivers and moans slightly as the knife is plunged into it."

ENTERPRISE IS NOT LACKING

Many Projects of Much Importance Are Going Forward in Latin America.

Somebody has said that Chile will go on making money out of her nitrate fields till some near-sighted German several thousand miles away discovers how to make nitrate out of air.

A syndicate of certain members of that always painstaking and ingenious race is approaching this discovery by preparing to make commercial fertilizer out of the locusts of the Argentine Republic. It is said that locusts contain about 14 per cent. of nitrogen, and there are no end of them in the Argentine.

Echoes of business come up from most of the South American cities, according to Collier's. Buenos Ayres is building another fine new avenue, to be known as the Avenida Centenario, in honor of the City's one hundredth anniversary.

The Bonaerenses are also to have 15 more hospital ambulances, so pleased were they with those recently sent down from the United States. Valparaiso, struggling to repair the destruction of the earthquake three years ago, has placed a loan of \$5,000,000 to carry on the work.

Pernambuco, which has always been without a harbor, has begun the construction of a new port works to cost over \$16,000,000. Lima reports that the Chinese, who have been flocking there of late as they used to flock to California, have gone into the shoe-making business and set up more than 20 cobbler shops near the central market.

Missionaries, Babies, Babel.

Many interesting features were advertised in connection with a convention of foreign missionaries home on a vacation. "But the most interesting of all was a sidelight on the regular convention," said a woman who attended the meetings.

"The married members of that missionary band brought their small children to the hall and left them in the rear room in charge of a kindergarten teacher. Those youngsters had been born in heathen lands and had spent the three or four years of their little lives there. They had picked up the language of the natives, and when their shyness wore off and their tongues limbered up a miniature babel seemed to have sprung up in that back room. Greenland's icy mountains and India's coral strands and a score of uncivilized places in between were represented with a vengeance. The little people had been accustomed to the aboriginal languages and they spoke them in preference to English. Gradually it dawned upon them, however, that they possessed a common tongue and finally all warmed up to English, but previous to that their attempts at conversation were a queer study in primitive languages."

Knew His Men.

The little army of ragged and starved patriots refused to cross the ice-bound Delaware.

"Come on, my braves!" shouted the colonial officers. "Remember we strike for our homes and liberty! Remember our cruel wrongs! Remember what a victory would mean to those home!"

But still the ragged army moved not.

"Tell them to remember that this is Christmas night, and that yonder the enemy are feasting and carousing before tables groaning with viands and good liquors!" whispered the commander-in-chief, "and that unless they embark at once and make all haste, those guzzling Hessians and British gastronomical monstrosities will consume everything!"

The announcement of this caused a wild scramble for the boats, and in less than three hours Trenton was captured. This demonstrates the marked executive ability of George as a commander.

UNCOOKED MEAT VERY DANGEROUS

FEARFUL SUFFERING CAUSED BY EGGS OF PARASITE WHICH IT MAY CONTAIN—STATEMENT BY A PRIEST.

Omaha, Neb., Feb. 2.—Probably the most unusual feature of the excitement that has been created by L. T. Cooper's visit to this city is the removal of parasites or tape worms by his preparations.

During the early part of Cooper's stay in Omaha individuals who were taking "New Discovery," as it is called, brought either to himself or to physicians throughout the city immense parasites that had left the system after using the medicine.

Many of these people were frightened, and cases of this sort became so numerous that Cooper finally made the following statement for publication:

He said: "In every city I visit these things are brought to me within a few days after my medicine is sold in the city. They are what is known as the tape-worm, and grow to an enormous size.

"Few, indeed, realize how prevalent these creatures are. I think I have been the first to demonstrate what a large factor they are in the poor health of this generation. I believe that fully one-half of the chronic stomach trouble now so universal is caused by these parasites.

"Individuals may have them for years and not be aware of the reason for their continued ill-health, but attribute it to many different diseases, when in reality one of these creatures is robbing them of their vitality.

"These parasites are taken into the system in uncooked food or raw meat, in the form of an egg, which hatches almost immediately. People suffering from them experience a feeling of lassitude and are extremely nervous. The action of Cooper's 'New Discovery' seems to be fatal to these great worms, and in most cases a few doses of the medicine drives the creatures from the system. I will have hundreds of them brought to me before I leave the city."

This gruesome prophecy has been amply verified, for not only hundreds but thousands of Omaha people have been relieved of some of these fearful parasites since taking Cooper's preparation, and the entire city has been aroused by the fact.

Some of these parasites are of such enormous size as to startle the imagination. The statement of Father John Baptist Arnolis, one of the best known and best beloved priests in this section of the country verifies this. His statement, among others given to a reporter, was as follows:

"For years I suffered from what I thought was a general run-down condition of the system caused by stomach trouble. I felt extremely tired all the time, and it was a great effort to attend to my duties. I would wake up in the morning feeling as worn out as when I went to bed. If I stood for any length of time I would have pain in the lower part of my back, and would have to sit down.

"I was very nervous and depressed in spirits, and was troubled with dizzy spells. I would see spots before my eyes when I stooped over and raised up quickly. I had a very irregular appetite, and would have palpitation of the heart after ascending the stairs.

"The talk about Cooper's preparations was so universal that I decided to try some, although I do not take patent medicines as a rule. I took four doses of the 'New Discovery' as it is called, and a tape-worm about six feet in length left my system.

"I am very thankful for this great relief, and now I know what has been the cause of all my suffering."

The story of Father Arnolis is a fair sample of the experience of an astonishing number of Omaha people, and Cooper's preparations are selling here in immense quantities. It is now estimated that he has sold one hundred thousand bottles to date in this city alone, and the sale is still increasing.

Certainly Not Present.

It was in one of the colored schools of Baltimore, and the teacher was an inexperienced one. There was talking among the little negroes before her.

"I want absolute silence," she said severely.

Still the talking continued.

"I want absolute silence," she repeated again.

At the third demand one very small girl spoke up boldly.

"Assalute Silence sin't hyar," she said. "She's got de toofache."—Lippincott's Magazine.

Renowned Doctor's Prescription for Rheumatism and Backache.

"One ounce Syrup Sarsaparilla compound; one ounce Toris compound; Add these to a half pint of good whiskey; Take a tablespoonful before each meal and at bed time; Shake the bottle before using each time." Any druggist has these ingredients in stock or will quickly get them from his wholesale house. This was published previously and hundreds here have been cured by it. Good results show after the first few doses. This also acts as a system builder, eventually restoring strength and vitality.

EIGHTEEN YEARS AGO HE HAD LESS THAN 3 DOLLARS

HE IS NOW ONE OF THE RICHEST FARMERS IN SASKATCHEWAN, CENTRAL CANADA.

Arriving in Canada in 1891, just eighteen years ago, E. A. Guillomin could speak but his native language. He is a Frenchman. He had but a little over two dollars in his pocket, thus being short over seven dollars of the ten dollars required to secure entry for a homestead of one hundred and sixty acres. He eventually borrowed the money and near Forget, Saskatchewan, he started life in Canada on the homestead in which to-day he is the fortunate possessor of fifty quarter sections of land, or 8,000 acres.

Now Mr. Guillomin did not acquire all these acres as a result altogether of his farming operations, which were extensive. He looked with satisfaction upon what he was doing on his limited area, he was saving, careful, and had foresight. Surrounding land could be had for about \$3.00 per acre, and he continued buying as his savings would permit, until now he has fifty quarter sections, some of which he can sell at \$25.00 per acre.

Threshed Fifty Thousand Bushels.

This year he was engaged in threshing on his place for 54½ days. He threshed out 50,000 bushels of wheat, of which he sold 34,000 bushels, one train load, at a price varying from 84 to 87 cents per bushel. He has on hand still 16,000 bushels. In addition to wheat he raised 30,000 bushels of oats, 7,000 bushels of barley and 500 bushels of flax. He owns 104 horses and a number of cattle, but since the construction of the railway he has been engaged chiefly in raising wheat.

This year he bought his first threshing machine, paying for it the sum of \$2,100. He estimates that the machine earned for him this fall \$3,000, thus paying for itself in one season and leaving \$900 to the good. The weather was very propitious for farm threshing, not a single day being lost in the two months which were spent in this work. The wheat averaged 23 bushels to the acre and graded No. 1 and No. 2 Northern. In the past nine years seven good crops have been harvested on this farm. For six successive years the returns were excellent, that is in the years 1901, 1902, 1903, 1904, 1905 and 1906. In the two following years there was a partial failure. As the years have passed the quality of the buildings on the farm have been steadily improved, and are now as good as can be found in the district. About \$10,000 has been invested in this way by Mr. Guillomin. The farm consists of 6,880 acres, of which about 6,000 acres were under crop this season.

Nil Desperandum.

Percy Parkington rose and brushed the dust from his knees. Then, drawing himself up to his full height, he gazed resentfully upon the form of Miss Muriel Muggins, who nonchalantly fanned herself the while.

"Very well, Miss Muggins," came in bitter tones from Percy. "Oh, very well! You have spurned me, it is true! Indeed, you have spurned me twice! But, though despair eats my heart, I shall not die! I mean to go into the busy world. I will fight! I will win! My name shall become known, and my riches shall become envied."

"Pardon me for interrupting you, Mr. Parkington," interjected Miss Muggins, "but when you shall have accomplished all that, you may try me again."—Lippincott's.
