# CONTENTS OF THE STOCK POT

# Housekeeper Must Know Tastes of Her Family Before Making Her Final Selection.

What to put into a stock pot has often been discussed by those who are interested in culinary affairs. It all depends upon what the stock is required for; and to determine just ex-actly what to put in must depend upon the requirements of the household. In a kitchen where clear soups are required, discrimination is necessary, and there must be a separate pot kept for meat stock alone. For ordinary households, where clear soups are never used, everything savory and eatable can go in. One or two precautions are necessary. Examine all scraps and see that nothing is tainted, or the whole will be spoiled. When adding fresh bones, remove any marrow, for, although a valuable fat, it gives a strong flavor to soup which is very disagreeable and is difficult to digest. The marrow can be reserved. for marrow toast, marrow balls or marrow pudding, or tried out with other scraps of fat for frying. Break the bones into pieces, not too small, and put them into the pot.

# RECIPE FOR CURRANT BREAD

### Delicious Confection as It Should Be Prepared-A Specialty of Famous Chef.

Scald but do not boil a cup and a half of sweet milk and a cup of water. Add two tablespoonfuls of sugar and a teaspoonful of salt. Cool to lukewarm, then add a compressed yeast cake softened in another half cup lukewarm water and stir in enough whole wheat flour to make a stiff batter. Allow this to rise. If set in the morning early it will be ready by ten o'clock. When light add one beaten egg, a tablespoonful of melted butter and one cupful of well washed and thoroughly dried currants. Beat well. add enough more flour to make a dough stiff enough to knead. Work well, mold in two loaves, place in greased pans, brush with melted butter and let rise until light. Put in a hot oven, but as soon as the bread browns reduce the heat one-half and leave in about half an hour longer. If preferred, white bread may be made in the usual way, adding a liberal quantity of dried currants.—Emma Paddock Telford.

Sweetbreads and Mushrooms Blanch two pairs of sweetbreads and slice them. Cut the stems from 20 mushrooms. Beat the yolks of three eggs. Cook together in the chafing dish blazer a tablespoonful of butter and one of flour. When smooth pour upon them gradually one and a half cups of rich milk or cream into which a pinch of baking soda has been stirred. Stir until smooth, then lay in the sweetbreads, cook for two minutes, add salt and white pepper to taste, and put in the mushrooms. Cook until very hot; pour in gradually the egg yolks and cook just long enough to heat thoroughly, but not long enough to cause the eggs to curdle. Serve immediately. - Harper's Bazar.

Scalloped Apple Pudding. Cut one small stale loaf in halves, remove all soft parts, and crumb by rubbing through a colander. Melt onefourth of a cupful of butter, and add to bread crumbs, stirring lightly with a fork. Cover bottom of buttered pudadd two cupfuls of sliced apples. Sprinkle with one-eighth of a cupful of sugar mixed with one-eighth of a teaspoonful of grated nutmeg, threefourths of a tablespoonful of juice and a few gratings from the rinds of a lemon. Repeat, cover with remaining crumbs, and bake 40 minutes in a moderate oven. Cover at first to prevent crumbs from browning too quickly. Serve with sugar and cream.

# The Real Cause.

The fact that the white slave trade has its basis in economic conditions is known to all students of economics That many women are driven by eco nomic stress into a life of shame is too well known to demand much emphasis. Low wages and long hours with their concomitants, lead the way and willing hands are ever present to assist the unfortunate on her downward path .- Detroit Union Advocate.

# Effects of Non-Unionism.

According to the recent report of the Public Education Society of New Work, the average wage of unskilled labor in that city is nearly two dollars a week less this year than it was in 1906. The record kept of men sent to the employment bureaus to obtain work shows that the average weekly wage received by the applicants was \$10.65 for 1906. By 1908 it had dropped to \$9.96, and in 1909 to \$8.94 .--Worcester Labor News.

### Scones.

Into a quart of flour stir a teaspoonful of salt and two teaspoonfuls of baking powder. Sift three times, then chop into the mixture a heaping tablespoonful of butter, and when well blended add enough chilled milk to make a soft dough. Handle as little as possible and turn out upon a floured board. Roll quickly and lightly into a sheet and cut into rounds with a small biscuit or cake cutter. Lay upon a hot soapstone griddle, and when brown turn and brown; split open-tearing, not cutting the scones -and butter them.-Harper's Bazar.

Oranges with Straws.

In serving refreshments for a juvenile frolic have lemonade or orangeade in the skins of appropriate fruit. Cut a plug from each lemon or orange at the stem end, scoop out the pulp which is to be squeezed for the beverage. Cut two holes in each plug and insert straws. Fill the skins with the wellsweetened drink and replace the plugs.

The children can pass back the novel cups for refilling if the one helping does not quench thirst.

### To Whiten Tea Towel.

Save all the lemon hulls, drop them in the vessel in which you boil the towels, add one or two tablespoonfuls of borax, and it will whiten them wonderfully, and there will be a clean freshness about them that is desirable.

### Furniture Polish.

Old stockings cut into neat pieces and either hemmed or buttonholed coarsely in a bright cotton, make excellent polishers for furniture, brass and woodwork.
