

BENWAY'S

THE BASE BURNER THAT HEATS THE WHOLE HOUSE

Moore's Controller Damper

Regulates Oven Temperature and Saves 1-3 of your Fuel

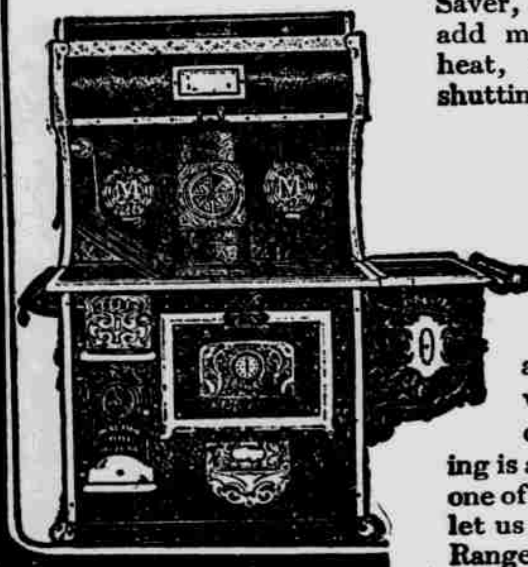

What the throttle is to the locomotive, **Moore's Controller Damper** is to the Oven of a Moore's Range. **Moore's**

Controller Damper is a combination check and pipe damper, and you can regulate the amount of heat needed for baking to any temperature desired, thus it is unnecessary to watch the baking every minute after being placed in the oven. **Moore's Controller Damper** is also a Fuel

Saver, for instead of having to add more fuel to obtain greater heat, simply close the damper, shutting off the cold air.

MOORE'S RANGES

Are the most reliable bakers to be found on account of the many features which place you in absolute command of your oven. Baking is a positive pleasure when using one of Moore's Ranges. Come in and let us show you why one of Moore's Ranges should be in your kitchen.

BENWAY'S

1112-1114 O STREET

LINCOLN'S LEADING HOMEFURNISHERS

could scrutinize the work of this department it would meet with your approval.

The bond department, which is one of the departments of this office, has had before it many complex questions and at times we have been compelled on account of error to have entire issues re-voted. I firmly believe that every issue that has passed through this department will stand the scrutiny of the best courts in the land.

The county treasurer examiners who comprise one department have brought to my desk complicated conditions and we have our examinations well within the legal limit and, if re-elected, I mean to bring the examinations down to a yearly period.

The printing board, of which I am secretary, has let the contracts of the state printing to the lowest responsible bidder, as the records of this department will show. The bills have been audited with care and the interests of the state safe-guarded.

The state or expert accountant under my direction has audited the several state institutions and, in my bi-ennial report, recommendations for improvement will be suggested without fear or favor.

As a member of the board of equalization, whose duty it is to assess the corporations, my vote has been dictated solely by my judgment and I rest on the written record which is open to inspection.

As insurance commissioner I have, through my examiners, examined closely into the conditions of our insurance companies and where evil and wrong were found, used corrective measures without giving the matter publicity, believing that a man who accomplishes these beneficial results without tearing down institutions and men, or creating distrust in the minds of the people, has done more for his constituency and his state than the one who, to upbuild himself, wrecks men and institutions.

I have freely exercised the right of the department to decline to admit companies whose standing was unsatisfactory and to revoke the license of unscrupulous insurance agents. Quite a few names adorn the "black list" in my office and as long as I am Auditor of State I shall enforce this right, believing that a certificate from this department should be a certificate of honesty as well as a right to do business.

We feel in this department that we have accomplished much for the insuring public and the insurance agents and companies and firmly believe that our work has met with the approval of the great majority who are honest men and honest institutions.

Most of the insurance laws have been placed on our statute to give companies the right of organization and as a consequence we shall recommend laws that will make our code consistent and make it illegal to defraud the public in the sale of insurance.

Every warrant paid out goes through my auditing department; we scrutinize each voucher and satisfy ourselves as to their legality and validity before drawing the warrant.

I know you will agree with me that this is a most important department of state; I have done my best and ask your support on my past record.

Thanking you for the honor conferred in entrusting me with this important position, I am Most respectfully,

SILAS J. BARTON.

In the meantime do not forget that the "Ad Club Carnival" will be held at the Auditorium October 28, 29 and 30. It will be a hummer with horns and a seven times winner. Old Time Fiddlers' Contest, Amateur Vaudeville—with a big man wielding the hook—Minstrel Stunts, Poster Exhibit, and dancing every evening as an incidental attraction. Everybody should take in the carnival because it will be worth more than the small admission charged. In addition, the net revenues will be devoted to sending a big delegation to the Boston convention, where Lincoln will be given the kind of good advertising that money can not buy. Don't forget the dates.

Attorney Maggi's brief statement concerning the Italian citizenship of Lincoln was clearly a revelation to many people. Never a beggar, never a pauper among the number. Never a convicted felon nor an inmate of a public institution. That is a record of which the Italian citizenship of Lincoln may well be proud, and which Lincoln should be proud to acknowledge.

Coroner Jack Matthews, who officiated as drum major on the "Trade Boosters'" excursion, was quite anxious to have the papers give the Hebron bandmen a big puff. When the time comes a lot of Lancaster county men will be inclined to let Coroner Matthews seek in Thayer county the vote he needs if he is re-elected coroner of Lancaster county.
