### TO STOP THE STICKERS.

Mail Order House Seeks Protection of United States Courts.

Word was received in Chicago that the attorney general of the United States would be appealed to by a New York mail order house to stop the use of the "little stickers" of the International Typographical Union on the ground that they are a secondary boycott and in restraint of trade between the states. The "stickers" are placed on printed matter received by union men that does not bear the union label. Recently a New York company sent out 20,000 catalogues to all parts of the United States. Many were returned bearing the "stickers" upon which is printed: "Returned because of absence of the union label."

### "MADE IN LINCOLN" EXPOSITION.

It will be held at the Auditorium next week, and it will be a "cracker-jack." It will also be an eye-opener to thousands of Lincoln people who are ignorant of Lincoln's real position as a manufacturing center. This is considerably more than a "university town" or a "religious center." Lincoln is really a manufacturing center. We make everything from cigars to coffins and cement blocks; from candy to collars; from mattresses to motors; from shirts to shoes; from mica to machinery; from isinglass to incubators; from soap to soda water; from books to bedsprings. We manufacture upwards to sixty separate and distinct articles of commerce, some of which are shipped all over the world. Go to the Auditorium next week and get wise to what Lincoln really has in the manufacturing line.

### FOUR THOUSAND FOR ONE JOB.

Nearly 4,000 applications have been filed in New York city with the municipal civil service commission for the position of third grade clerk, with no vacancies at all at present. The salary paid for clerks of this grade is between \$1,200 and \$1,800. This is the largest number of applicants that the municipal commission has ever had for a single position.

### FALSE—HAD 71 CENTS!

The Western Laborer speaks of a visit paid him by Will M. Maupin, deputy labor commissioner of Nebraska. Among other things he noticed that Maupin had 65 cents—heard it jingle. Isn't it strange how sensitive labor editors are to the jingle of "coin?"—Council Bluffs Times.

### CIGARMAKERS' LABEL STATISTICS.

The records of the head office of the Cigarmakers' International Union show that during the year 1908 there were shipped to local unions, less amounts returned, 27,172,156 blue labels, as compared with 31,596,094 for the year 1907. Which is some indication of the effect of the depression, showing as it does a falling off of 4,413,938 in labels used during the dull times of 1908.

### MUST BE IN EARNEST.

San Antonio, Tex., printers must be an earnest bunch. Recently they remained in session for two hours while a negro baptizing was being held a block or two away, with so much singing and shouting that a part of the time the printers couldn't hear themselves talk.

### WANT CARPENTERS ENJOINED.

The Commercial Sash and Door company, Chicago, has asked the superior court to enjoin the United Brotherhood of Carpenters of the union from discriminating against the products of the company. The trouble is declared to be on account of a jurisdictional fight between the carpenters and the woodworkers.

### GOLFERS ARE WORRIED OVER AMATEUR RULE

New Definition Adopted by Western Golf Association is Not Popular.

Who is an amateur in golf? Since the adoption of amendments defining an amateur by the Western Golf Association there is general consternation in golfing circles among players who have participated in various forms of sports and games for money considerations. This affects not only men who have officiated as college coaches and referees, but those who have participated in bowling contests, trap shooting events, tennis and other forms of athletic diversions. Even bridge whist and other forms of card games, it is understood, come under the ban of the latest rule adopted by the W. G. A.

While in some respects the rule is generally conceded to be a move in the right direction, considerable criticism has been aroused over the adoption of that particular part of the amendment which reads "or who has been a professional in any other branch of athletics."

This, it is claimed, will work a hardship in many cases, as definitions of an amateur vary to such an extent in different branches of sport. A man may be a professional under the strict interpretation of the rule, and a simon-pure amateur to all intents and purposes under another. It is said that the words "has been a professional" will prove particularly offensive to many, as they will bar many golfers who, so far as golf is concerned, are as truly amateur as players could possibly be. Therefore, it is argued, it hardly seems fair or just that the line should be drawn so hard and fast as to carry out the principle of "once a professional always a professional."

It is not likely that this radical rule will be adopted by the United States Golf Association. In the event that it is adopted, however, it will eliminate a number of leading golfers of the east from amateur play. One of the most prominent golfers who would be affected by this rule is John M. Ward, who was formerly a professional baseball player. Mr. Ward now plays golf for recreation and the pure love of the sport.

If this new law is enforced to the letter the field for championship golf tournaments in the west will be sadly depleted. The rule regarding an amateur must of necessity be stricter in one branch of sport than in another, and each sport should be governed according to its needs to keep it clean and pure.

The matter of adopting the amendment regarding amateurs will most likely be brought up at the next meeting of the executive committee of the U. S. G. A. And so much criticism has been aroused over the action of the W. G. A. it is likely that the amendment will be placed on the table to be decided at the annual meeting of the association next year.

The White Sox have signed Southpaw Lange, who pitched in the Wisconsin league last year.

Manager Joe Cantillon has decided not to grant the demands of any of his hold-out Washington players.

Kansas City will have outlaw ball. The Interstate league will place a team there. Jack Sweeney, former Boston National catcher, is president of the league.

Catcher Ritter of Brooklyn will probably land with the Highlanders. He has been turned over to Newark by Brooklyn and it is understood Manager Stallings will swap an infielder for him.

Ernest Courtney, former Highlander and with the Phillies since 1904, has been released to Jersey City.

Noted veterans who have gone back to the minor league this year are Seybold, Schreck, McGinnity, Taylor, Collins, Barry, Coughlin, McGann, Pickering, Needham and Courtney.

Roy Thomas, outfielder of the Pittsburgh National league club, has been engaged to coach the baseball candidates at the University of Pennsylvania.

Jimmy Austin, the new infielder of the New York Americans, led the whole country in base stealing last season with 97 steals.

"Noodles" Hahn, the old major league pitcher, is not to retire from baseball altogether. The veteran has signed a contract with the Hamilton (O.) team of the Kentucky-Indiana-Ohio league, and will be in the box for that aggregation.

Should the bill introduced in Trenton by Assemblyman Olwell, permitting Sunday baseball and other sports, become a law, it is said that the Philadelphia and Athletics will have grounds in Jersey convenient to Philadelphia and play Sunday games there. Tommy Connolly and Bob Emslie will probably umpire the series between the Athletics and the Phillies.

Second Baseman Knabe of the Phillies is an expert basketball player, first-class wrestler, clever billiard and pool player and quite handy with the gloves.

The veteran Mike Kahoe thinks that Charley Street is the greatest catcher in the business to-day. "He can't hit much," says Mike, "but he can field and throw. He can also stand the strain, and catches three-fourths of the games in a schedule."

Your Cigars Should Bear This Label!

It is insurance against sweat shop and tenement goods, and against disease. . . .
