You know these paint "disusually indicate adulteration or substitution in the paint materials. And you know the only remedy is repainting

A little knowledge of paint and painting requirements, and how to made sure of the purity and quality of materials, would prevent all trou-ble, and save the big extra expense of re-painting; just as a proper knowl-edge of simple health-laws, and observance of them, prevents sickness.

A complete painting guide, including a book of color schemes, specifications for all kinds of painting work, and an instrument for detecting adulteration in paint materials, with directions for using it, can be had free by writing National Lead Co., 1902 Trinity Bldg., New York, and asking for Houseowner's Painting Outfit

A very simple guide in the pur-chase of white lead (the only sure and safe paint material) is the famous "Dutch Boy Painter" trademark; that trademark is an absolute guarantee of purity and quality.
