

A Tonic For The Whole Family

This splendid tonic will keep every member of your family in good health. Adults suffering from dyspepsia, or indigestion, general exhaustion or breakdown will find in this natural tonic renewed health and strength. Delicate, rapidly growing children will find in this tonic the assistance their digestive organs need to get the proper nourishment and strength from their food.

DR. D. JAYNE'S TONIC VERMIFUGE

acts directly on the stomach and other digestive organs, toning them up and enabling them to do their work properly. In this way it brings about permanent health and strength. On the other hand, ordinary tonics, which give artificial strength by stimulation and by supplying food material, are only effective as long as they are taken.

Sold by All Druggists—3 doses, 50c and 25c. Take Dr. D. Jayne's Expectant if you want to get rid of your Cough or Cold.

WHY, OF COURSE.

"Farmer, which of those cows of yours gives the buttermilk?" "None of 'em. The goat."

Paths in a Fire Report.

In the annual report of the fire marshal of Kentucky the following extract is not without a suggestion of "Little Boy Blue":

"Among the odds and ends of the attic, usually are vanished furniture, rags smeared with grease to take fire themselves, painting oils liable to take fire when the sun beats on the roof, and broken toys of children who are grown and gone away, or who went to sleep long ago."

It is a mother's duty to keep constantly on hand some reliable remedy for use in case of sudden accident or mishap to the children. Hamilton's Wizard Oil can be depended upon for just such emergencies.

It is easy for a woman with false teeth to bite off more molasses candy than she can chew.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

He never has a message who does not know how to listen.

Gifts to God can never make up for thefts from men.

In Labor's Realm

Matters of Especial Interest To and Concerning Those Who Do the Work of the World

Springfield, Ill.—Officials of the United Mine Workers look forward to a steady increase in output of the mines and consequently a resumption of work on part of members of the union in Illinois. Of the 70,000 miners in the state, but 30,000 are now actively engaged and they are working but half the time. Only the mines controlled by the railroad systems, including those operated by the Chicago & Northwestern at Girard and those of the Illinois Central in the southern part of the state are now employing their regular force of men. Officials of the state body are of the opinion that general improved trade conditions will result in active employment of at least 50 per cent. of the men now out of work. This condition is expected to ensue by the first of August. Various mines throughout the state have been increasing their output and force in the past few weeks. Where the plants were working but two days out of the week in June, they are now operated three days in many cases. Allowing for the regular increase of business in August it is expected improved trade conditions will result in a large increase of work for the miners.

Milwaukee.—After agitating the matter for more than three years three machinists' lodges in the city have voted to consolidate and will hold the first meeting on Aug. 6. A committee of eight is perfecting the plans for the consolidation, and the meeting probably will be held at 226 Grand avenue. Lodges that have voted to merge are 300, 301 and 248. By affiliating, it is thought, the strength of the unions can be concentrated and the work in this district facilitated. The lodges that will join are composed of shopmen, and it will leave two lodges in the city, the other consisting of railroad men.

New York.—Necessity for old-age pensions becomes more and more imperative every day as it is seen that young men are being insisted on by those employing labor. A report of the special employment bureau of New York, conducted for the purpose of securing employment for men more than 50 years of age, conducted by charity organizations, says that in a year it has been able to find work for only 75 men out of 193 who were more than 50 years old, and in each case of refusal of the applicant's age was the only objection.

Port Huron, Mich.—That the Marine engineers who are now out on strike are still on a solid footing is shown by letters received by members of M. E. B. A. in Port Huron. One well-known engineer has been offered \$2,000 for the season if he will leave the ranks of the strikers and take a berth, and it is stipulated in the letter that the money will be paid in advance. Another has been offered \$2,300 for the remainder of the season. Both of the engineers, however, have positively refused to accept their offers.

Milwaukee.—The sweeping reduction of 50 per cent. in the price lists on all grades of ware sought by the glass bottle manufacturers will be opposed by the Glass Bottle Blowers' association, in accordance with action taken at the convention in session in Pabst Theater building. While no definite action was taken on the reduction sought by the employers, it was the general opinion that the association should strenuously oppose a sweeping reduction in wages.

Indianapolis, Ind.—Hundreds of thousands of workmen are interested in the dedication of the new International unions' headquarters building in this city on July 22. The International Brotherhood of Teamsters and the Barbers' International union are to have their offices in the carpenters' organization home. The Typographical union and the Mine Workers of America have national headquarters here, but they are to continue in their present offices.

Pittsburg, Kan.—It was officially announced at the district headquarters of the United Mine Workers of America here that an agreement to restore the check-off in the Kansas coal fields had been reached as a result of the conference of the miners' national board and the Southwest Coal Operators' association. A general strike of 32,000 coal miners is averted.

San Francisco.—The Union Labor party leaders have nominated P. H. McCarthy, president of the Building Trades' council, for mayor; Thomas Finn for sheriff, and H. L. Mulvey for county clerk. These are the three principal offices to be filled at the coming municipal election in that city.

Indianapolis.—The Udell works announced that the plant will resume work with a full force of workmen. The plant has been closed for some time making repairs. About 200 men will be put to work soon.

Pittsburg.—James Ashford was ordered reinstated and allowed 20 days' pay for the time he was off duty in the decision of the arbitrators appointed to adjust the single issue of the recent street car strike.

Helena, Mont.—Montana laboring men have 16 card men in the house of representatives and two men carrying union cards in the senate.

Pittsburg.—The United States Steel corporation here offered the rate of \$12 per day and guaranteed steady employment to strike-breakers wanted to work in the tin mills throughout the district. This is at least double the wages earned by the workmen before the strike. About 25 men were engaged. The strikers are jubilant over the outlook, claiming the tin mills have not yet secured an expert tin worker. The strikers also claim that the corporation is trying to starve them into submission, that the grocers and other shopkeepers have been warned not to extend further credit to the strikers. Some alarm is felt over the announcement from the steel corporation that it proposes to establish a tin plate center at Gary.

Milwaukee.—The glass bottle blowers have a plan of their own for keeping peace with the employers and yet maintaining fair labor conditions. It consists of a conference system, by which both sides come together and give and take, as the logic of conditions requires. President Dennis A. Hayes, in his report to the convention, quoted from the statement of the National Association of Glass Bottle and Vial Manufacturers the following: "We believe nothing which has become a part of the industry has done so much for the development of all engaged as the conference system for the settlement of wages." Because of this system, the organization has not had a strike in eighteen years.

Milwaukee.—Harmony between employer and employe as the foundation of the best results was the scheme of a talk by John Mitchell, former president of the United Mine-workers of America, before the Glass Bottle Blowers' association of the United States and Canada. Mr. Mitchell reviewed labor conditions generally. He said the glass blowers should gain control of the machines employed in their trade, the same as crafts in other lines had reached the point whereby they governed machinery which lessened the number of employes.

Milwaukee.—The proposition of erecting and maintaining a sanitarium for afflicted members will be considered at the convention of organized barbers, which will be held in Milwaukee in October. The matter is being agitated among members and a well defined movement for its erection has been started. It is proposed to maintain a sanitarium similar to that conducted by the organized printers, who are the pioneers in this line as far as organized labor is concerned.

Pittsburg.—The resident manager of the H. C. Frick Company received orders to obtain at least 6,000 men for the company's coke ovens throughout western Pennsylvania, New York, Chicago, Philadelphia and Boston contract employment concerns have been instructed to ship all men obtainable to Pittsburg at once, to be sent out from here. The Frick Company will advance their coke production from 65 to 90 per cent. capacity and the increase calls for the immediate need of the additional men.

New Haven, Conn.—Beginning at once the men in the mechanical department of the New York, New Haven & Hartford railroad will be given six days' work weekly instead of four days, the time to which they were reduced when the business depression was at its worst.

Milwaukee.—A \$3,000 damage suit is one of the side issues of the marine firemen's strike, the sequel of a recent street fight in which Joseph Smith, a nonunion man, was beaten, it is alleged, by Robert Clark, business agent of the union, and Thomas Cunningham. In a criminal action Judge Neelen fined Cunningham \$25 and Clark \$20. Smith has instituted suit against them for \$3,000 damages.

Galveston, Texas.—By 41 votes the International Longshoremen's Association of America refused to seat as a delegate its former president, Daniel J. Keefe, federal commissioner of immigration and naturalization. The opposition to Keefe as a delegate was alleged to be solely because he is not actively engaged as a dock worker.

Sharon, Pa.—With the exception of three stacks, every blast furnace in the Shenango valley is in operation. The pig iron production from this locality has increased 50 per cent. during the past four months. It was officially announced that five of the 20 hot mills of the local plant of the American Sheet and Tin Plate Company will be in operation by Friday of this week.

Denver, Col.—At the convention of the International Machinists union in this city next September, a general movement will be started to secure the eight-hour day throughout the country. There will be nothing hasty or rash in the demand, and a year may elapse after the request before the unions take steps to enforce it.

COMFORTING.

Man in the Water—Help! Help! I'm drowning! Droll Gent—What! you don't need help to drown, man.

Neatly Put.

Two Quakers were having an argument and one considered the other was speaking falsely. This is how he reproved him: "Friend Thomas, I will not call thee by any bad name, but if the mayor were to ask me who was the greatest liar in the town I would hasten to thee and say: 'Thomas, I think the mayor greatly desireth to speak with thee.'"

A Natural Selection.

"What do you suppose would be an aeronaut's garden choice?" "I don't know, but I would suggest an air plant."

NSB Nebraska School of Business (Formerly Brown's Business College) LINCOLN. Every requirement of a good school is here met—strong faculty, practical courses, modern equipment. Ideal location—no saloons in Lincoln. Write for our beautiful illustrated catalogue. Address W. M. BRYANT, Pres., No. 11 Hall Bldg., Lincoln, Nebraska.

He Bit. The city man was jogging on toward the summer boarding-house in a rickety old wagon. The driver was glum and far from entertaining, and the city man felt rather lonely. "Fine field over there," he ventured, after a long silence. "Fine," grunted the driver. "Who owns it?" "Old man Bitt." "Old man Bitt, eh? Who are those children stacking up hay?" "Old man Bitt's boys." "And what is his idea in having them out there in the field such a hot day?" "Wal, I reckon he thinks every little Bitt helps, stranger. Anything else you want to know? Get up here, hosses." In the Editorial Sanctum. Editor—I like the last verse of your poem the best. Poet—And why? Editor—Well, principally because it is the last.—Judge. PERRY DAVIS PAINKILLER for all sorts of cuts, bruises, burns and strains. Taken internally it cures diarrhea and dysentery. Avoid substitutes. 25c, 50c and \$1.00. Good luck never hangs around a man long enough to become tiresome. Duty has a stern face only when looked at askance.
