LIBERTY FLOUR

No better flour sold on the Lincoln market. Every sack warranted. We want the trade of Union men and women, and we aim to deserve it. If your grocer does not handle Liberty Flour, phone us and we will attend to it. Ask your neighbor how she likes Liberty Flour. We rely on the recommendation of those who use it.

LABOR DAY IN OMAHA.

Will Be Big Enough to Lap Over for a Couple of Days.

Labor Day in Omaha will be such a big affair that it will be necessary to take three days in which to properly celebrate it. The Omaha unions decided by an overwhelming vote not to parade this year, but to confine their efforts to making it an educational as well as a social affair. Labor Day will be celebrated by a big picnic at Cortland Beach, and there will be speakers of national prominence. Tuesday evening there will be another social gathering at the Beach, and Miss Mary E. McDowell of Chicago will be one of the speakers. Wednesday evening still another big social time will be enjoyed, and the speakers will be Judge Lee Estelle and Deputy Labor Commissioner Maupin.

The committee in charge of Omaha's celebration is working overtime to make the three-day affair a huge success, and the indications are now that it will be one of the biggest and best ever pulled off in this section of the industrial vineyard.

THE BUREAU OF LABOR.

National Establishment That Is a Joke On Laborers.

One of our subscribers, who is an old government employe, seems much disturbed because of the rumor that the labor bureau is threatened with extinction.

Our good friend is fearful that the alleged influence of the Civic Federation will wipe out the Labor Bureau and turn it into a "bureau for the study of child life."

"With all due respect for the feelings and sentiments of our good friend, we will say right here that he need not worry about the labor bureau. It is a waste of time for him or anybody else to tell us what the bureau was created for or what it has done since it was established. We have been pretty well in touch with all important labor events during the past twenty-five years and among other things, the work of the labor bureau has come under our personal observation on numerous occasions. The labor bureau was created through the efforts of organized labor, but on all important matters its reports have been seemingly framed up to meet the desires of the party in power, and it is believed by many that the bureau has never yet reported all the facts gathered by its agents. To do so would probably cause trouble "for the party."

When the late Carroll D. Wright was succeeded by the present chief, Dr. Charles P. Neill, we were told that we were to have a square deal; that the great problems having a direct bearing upon the welfare of the working people would be investigated and the facts laid bare so that organized labor and its friends might take such steps as may be necessary to effect a remedy for the abuses which are known to exist.

The record shows that Dr. Neill has been chief of the bureau nearly five years and he has not yet made a report of any consequence. The fact of the matter is, Dr. Neill is nothing more nor less than a fine type of those sociological college high-brows who have wormed their way into active participation in real labor matters, and, like most of them, he is unable to comprehend what he is up against.

We do not say that Dr. Neill is not a "good fellow." Not by any means. If you want a "jolly" he is there with the goods every time. But when it comes to real labor matters, I think Dr. Neill lacks the ability to get at the core of things. His knowledge comes from the books. He has not been up against every-day conditions that the average workingman has to contend with, and, therefore, he can not understand them.

Dr. Neill is a theorist, pure and simple. He is unable to grasp the things that have a close relation to the worldly affairs of workingmen and women, and hence our desire to see him transferred to a position where he can "study" to his heart's content and exploit his knowledge of things embryotic.—Washington Trades Unionist.

THE CIGARMAKERS.

Business Duller Than Usual, but Indications Brighten.

Business has been dull enough in the cigarmaking line for many months, but it has been duller than ever for the last month. Two of the large firms have laid off men for the purpose of reducing stock, and as a result several members of the local union have been forced to seek employment elsewhere.

Cinberg is preparing to move to hands me and well lighted new quarters in the Wilkinson block, Sixteenth and O streets. In order to avoid moving more than absolutely necessary he has laid off several men. He

expects, however, to open up with an increased force about September 1. A lot of men who are trying to make easterners believe that there is a scarcity of labor in Lincoln continue to smoke tenement made cigars shipped in from the east, while Lincoln cigarmakers are walking the streets, waiting for a demand for their services. Wouldn't that jar you?

IN BUTTE, NOT LINCOLN.

Butte, Mont., is said to be the only city in the country which has at the same time a free park for the children and a street railway that provides free transportation to the park for them. Now, for goodness sake don't mention this in the hearing of the management of the Lincoln Traction Co. We don't want to see a lot of eminent gentlemen throwing fits right at the intersection of Tenth and O streets.

LABOR DAY AT WYMORE.

The union men of Wymore, including the railway brotherhoods, are going to celebrate Labor Day in the good old way. They will have a big picnic and a speaker of more than local fame, and in addition will have a fine program of music and sports. The union spirit is growing down in that section of the state.

FAIRBURY WILL CELEBRATE.

There is a big and lively bunch of unionists in Fairbury, and they are going to properly observe Labor Day. They will have a picnic, a couple of good speakers, a fine musical program and a list of sporting events that will be worth going many miles to see. The editor of this little labor paper knows a lot of the union men in Fairbury, and he knows that when they undertake a thing it is always pulled off with big success.

CONVENTIONS OF 1909.

Hot Weather Comforts

Mr. Inside Man, you have an electric fan. How about your good wife? Has she an electric fan? Is she still broiling herself and the steaks over a red-hot coal range? Why not pause and consider her comfort and convenience a little bit? If not both electric fan and gas range—

Get a Gas Range

It will make the kitchen comfortable; it will save hours and health, and make home happy. Cheaper than coal—and so clean, convenient and comfortable. We sell the ranges (cash or payments) and furnish the gas. You furnish the match. And then the housewife is equipped with labor-saving machinery. Once used, never abandoned. Ask 5,000 Lincoln women who cook with gas.
