ARRESTING COXEVITES.

### "WEALERS" MORE THAN SATISFIED.

Women Make Much of Them Buttonhole Bouquets for the Army-They Have the Liberty of Topeka and Go and Come When They Please -Deputy Marshals Jeered by the People.

TOPERA, Kan., May 14.- General Saunders and his commonwealers are encamped along the Missouri Pacific tracks in South Topeka in state tents which were furnished by Governor Lewelling at the request of United States Marshal Neely. They seem contented in their present quarters, as they are being well cared for and in addition to having all they want to cat, each member of the army is wearing a buttonhole bouquet furnished by a delegation of women interested in the welfare of the In-

United States Marshal Neely has not yet decided what he will do with the men, as he is waiting the arrival of United States Attorney Perry from Fort Scott.

A committee of citizens held a meeting this morning and organized for the purpose of taking care of the men in case they should be kept in Topeka and should be discharged when their cases come into court. Mayor T. W. Harrison was made chairman of the committee. The committee is anxious that Marshal Neely should take the men to Leavenworth. If they remain in Topeka Sunday the Rev. C. M. Sheldon will conduct the religious services in the camp in the afternoon.

PAlthough the men are prisoners of the United States they have the liberty of the town and go where they please. The deputy marshals who were last night placed as gnards around the camp were guyed by the townspeople so badly that they gave up their jobs and Marshal Neely has een unable to get guards who will

keep the men in camp.
Sanders declared to-day that the army now here numbers 430 men and that nineteen escaped at Scott City. The cases against the prisoners will

come up for preliminary hearing next Tuesday. District Attorney Perry will be here to look after the interests of the government and G. C. to capture them. There were Clements and Frank Herald have or twenty of the horse-thieves. tendered their services as attorneys for the commonwealers.

It is current talk here that Marshal 118,000 fees out of the arrest of the "Coxeyites," the largest item being the allowance of ten cents a mile for each prisoner from the place of arrest to court, while Commissioner Waggener will get over \$1,000 and, if the men should be bound over, his fees will be increased about \$500.

# OUT OF WASHINGTON AGAIN.

The "Commonwealers" March to Hyattsville, Md.—The People Indignant.

WASHINGTON, May 14.-Tents were struck at Camp Tyranny by the Commonwealers to-day and the army was soon on the march for the new camp near Hyattsville, Md. Carl Browne made a parting speech in which he told the men it would be impossible for him and Coxey to accompany them on account of their engagements in the police court and the command was turned over to young Jesse Coxey.

Comparatively few persons watched the departure of the "army" through the side streets with the bass drum pounding and all the banners dis-played. The men were pleased at the prospect of a change and talked hilariously of the country fare they expected to get.

Coxey talks enthusiastically of the support the "army" is receiving from the West and of the carloads of provisions being shipped for it. He has received an invitation to the dinner of the Clover club in Philadelphia' next Thursday and says he will be there unless prevented by the necessity for serving an important engagement with the District authorities.

Hyattsville, where the camps to-day, is a small village. Most of the men are engaged in business or the government departments during the day and there is much un-

Only Four Present at Opening Skirmishing for Absentees.

WASHINGTON, May 14.—Only four senators were in the chamber when the senate met at 11 o'clock this morning and Mr. Harris, who was temporarily in the chair, instructed the clerk to call the roll. The bells brought twenty-e'ght senators into the chamber-fifteen less than a quorum-and steps were immediately taken to secure the attendance of absentees. Search of the corridors and committee rooms of the capitol was made, but it was twenty-five minutes before enough absentees

could be found to make up the quorum. Mr. Dolph made a motion to adjourn but withdrew it upon the suggestion of Mr. Chandler that such a motion violated the agreement entered into just before adjournment last night by which it was decided to take up the tariff bill at 12 o'clock each day.

Some routine business preceded the resumption of the tariff debate.

Shot Dead by a Drunken Printer. STRONG CITY, Kas., May 14.-Karl Kuhl, son of Peter Kuhl, a prominent citizen of this county, was shot and his duties as deputy postmaster at Cottonwood Falls yesterday evening by George Rose, a compositor on the Chase county Courant. Rose fled to the timber followed by the sheriff and Rose fled to scores of men and was soon captured. He had been drinking hard for a week or ten days and when found and ordered to throw up his hands at first refused, saving: "I shot that young refused, saying: "I shot that young man, shoot me." He can at present give no reason for committing the deed.

Engineers' Auxilliary Figures

Sr. PAUL, Minn., May 14.-The biennial convention of the Brotherhood of Locomotive Engineers will not be really at work until next come in. MPROMISE AMENDMENTS. FAVOR

Where They Increase Duties and Change From the Ad Valorem to the specific System Senator Murphy of New York, Voting With His Party -Mills and Allen Against the Amendigents.

WASHINGTON, May 14. - The Republican senators by their votes yes terday, and also in private conversation, indicated the purpose of voting for the amendments proposed by the Democratic compromise committee whenever they increased duties and changes from the ad valorem to the specific system.

It was noticeable the Democrats, with the exception of Senator Mills. stood by the committee recommendation. Senators Hill and Irby, concerning whose position there has been speculation, were absent, but Senator Murphy, whose position has been con-sidered somewhat doubtful, stood

with his party.

This practically solid vote on the Democratic side has given the Republicans no little concern, as they have been hopeful of creating a division among the Democrats. Some of them predict that the cohesion so far displayed will not continue, but the best information obtainable at this time indicates that however unsatisfactory the bill is to a number of the Demo crats it will continue, for the present at least, to receive the voting support of all the Democratic senators, with possibly two exceptions.

On the adoption of the finance committee's compromise amendments yes terday to the chemical schedule Mills of Texas, and Allen of Nebraska, voted against their adoption.

TERRE HAUTE, Ind., May 14.- The board of grand trustees and the grand executive board of Locomotive Firemen yesterday considered the complaints of firemen against Chief Sargent, the latter having refused to sanction a strike on the Chicago and Eastern Illinois after the firemen had voted almost unanimously in favor

A little diversion in the meeting was the reading of the published statements about a \$100,000 shortage in the Brotherhood funds, and another about a big row between chief Eargent and Secretary-Treasurer Arnold when the latter demanded to know what had become of the funds. The officers believe these stories were instigated by disgruntled members of the order who now pretend loyalty to the American railway union. fact is the strike fund never reached instantly killed while attending to but \$69,000, and was in charge of Chairman Hines of the grand trustees. Its disposition has been fully accounted for.

HOLDREGE, Neb., May 5, 1894. Editor WEALTH MAKERS:

The Republican congressional central committee met at the Hampton House parlors last night and fixed the date of holding their convention on August 9th at this place. Our city is the future convention city of the district. It is centrally located, has excellent railroad facilities and ample hotel accommodations for all who may attend.

Several of the prospective candidates for Congress were present, among the more prominent ones were W. E. Andrews and J. L. McPheely.

Two years ago when the hue and cry went up that Mr. Andrews was just the man to tan Mr. McKeighan's jacket Mr. McPheely withdrew from the race for the nomination when he could have easily won by several lengths. Since Mr. Andrews so utterly failed Mr. McPheely thinks that he should be given a chance to prove his prowess as a candidate, and as still as it is to be kept it has leaked out that he is looked upon with favor qui by many of the Republicans of the dis-

Mr. Andrews has been indiscreet and has burned his bridges behind him by unequivocally expressing his views on the issues of the day in opposition to the views held by the great majority of the people of this district. The pros pects for a heavy Independent vote in this county is unusually bright.

By the way, Church Howe was in the city Monday night, professedly to address a G. A.
