Let us see how that bond business is worked. The bankers gave Carlisle their gold and received their bonds. Now they are giving Carlisle treasury notes and greenbacks and getting back their gold at the rate of about \$4,000,000 a day. They will next deposit their \$50,000,000 of bonds in the sub-treasuries and receive \$45,000,000 in national bank notes, so that In a few weeks hence they will have their gold, their bonds drawing interest, and \$45,000,000 in new bank notes. A nice little financial transaction-for the bankers.-Arbor State.

Editor WEALTH MAKERS: At a citizens meeting of the people of Oak and West Lincoln precincts, Lan. caster county, Nebraska, the following resolutions were presented by the com-

Whereas. We view with just alarm the excited condition of our people over the Commonweal Army now marching

tration.—The Calliope.

The Democratic party seems to be vanishing into thin air. Gradually it is fading from view. Many jealous friends are making frantic attempts to clutch it before it shall forever disappears.

The Commonweal Army now marching on Washington; and, whereas, we recognize the absolute right and duty of these men at this time to go to Washington, the national capitol of our common country, the Congress of the United States being now in session and there present a living country want and evidence of their suffering, sorrow, want and poverty, in a country. sorrow, want and poverty, in a country burdened with wealth and broad acres groaning beneath the load of God's bounties; and we recognize that they are there in pursuit of their lawful and natural rights of petition, of life, liberty and the pursuit of happiness.

Resolved. That we pledge to them the support of our lives, our fortunes

and our sacred honor. Resolved, That while we desire peace and an honorable adjustment of the and an honorable adjustment of the differences that now so widely separate capitol and labor, yet, believing the demands of labor to be just, we will not recede one atom from their demand; and we desire to warn all citizens of the United States to guard themselves from denouncing these American citizens as thugs, anarchists and bums. To do so is to make the misery of the poor, which

thugs, anarchists and bums. To do so is to make the misery of the poor, which is a sin against God and a crime against the human race, which ought not and will not long be endured.

Resolved. That copies of these resotions be torwarded to the lower House through our Representative W. J. Bryan, and to the Senate through W. V. Allen. Kespectfully. Respectfully, I. N. LEONARD, V. Allen.

#### Mutual Insurance.

At the annual meeting at Grand Powers among other committees apits report the committee gave in detail the progress made in mutual insurance since the mutual law had taken effect, and then recommended the following resolutions which were adopted without a dissenting voice:

recommend this association to all desiring hall insurance.

Resolved, That we urge the farmers in every county to organize mutual fire and lightning companies under the new approve of them and want more I will ST. LOUIS, mutual law, and thus combine to insure send you some more. In looking your their farm property in this fraternal

Resolved, That we recommend the Nebraska Mutual Cyclone Company to all farmers who desire storm insurance

HISTORY.

In 1891-2 hundreds of farmers asked surance company. But, as there was no law by which a hail company could be incorporated, we many times declined:

That if we should receive promises per acre, we would send out blank contracts and thus organize a mutual aid

The result was that in a short time we sent out several thousand blank contracts. Over fourteen hundred were

returned carrying 114,063 acres.

The following December, at the State
Alliance in Grand Island. The delegates present organized the Nebraska Alliance Mutual Hail Association and elected officers as follows:

President, Clark Olds, Hemingford; vice-president, J. A. Smith, Cedar Rapids: secretary, J. Y. M. Swigart, Liscoln: treasurer, G. W. Severns of

Mr. Severns resigned soon after and P. C. Funk of Holdrege was appointed by the board to fill the vacancy.

EXPLANATION.

The Alliance thought best to have ocal companies do the fire business aud recommended that all farmers who desired storm insurance to patronize the Nebraska Cyclone Company. The above resolutions are the only resolutions that

have ever specifically endorsed any in-surance company by State Alliance.

At the last meeting of the State
Alliance it bid godspeed to all mutual
insurance companies. I am sorry to
say that that includes at least one com-

pany that is organized for revenue to officers and agents

The resolutions above referred to do The resolutions above referred to do not hold the State Alliance as co-partners in any way, shape, or form, and I do not think any one thinks that the secretary of an Alliance is called upon to collect money or work for the county is any way because he is the secretary of an Alliance.

From so many parts of the state farm-ers write us that they cannot organize a local fire company but would like to have the cyclone company attach a fire department for the benefit of just such isolated cases as theire.

Hence the Cyclone Company at its last meeting adopted this plan: First, it made a department for fire and lightning entirely separate from the cyclops even to the keeping of funds Each department is to defray its own

cond. when any county has fifty or more members in the fire department who desire to organize a local fre com-pany. They may withdraw without fee. Thus we hope to aid to the recom-mendation of the State Alliance.

We do not court any contention with any one and especially with those con-nected with honest mutual insurance companies. But the report in the Alliance department May 3, called out an explanation from us. Mutually.

TWINE. We have a still better offer by which our members can get twine on time. Keorganize. I will soon send prices to all county secretaries.

Lancaster Co. Our local Alliance has recently appointed a selling agent and he is in correspondence with a wholesale house in Chicago. We are arranging to ship all butter and eggs to this house. Our first consignment will be shipped this week. We are proposing to sell our produce for cash, and then do our buying at our own store.

I. N. L. Saunders Co. Our Alliance was reorganized last night by the state organizer, Mr. Wright. We enrolled 23 members, 18 males and 5 females. I think that our membership will reach 50 inside of two months. All we want A. Conser, Clark, S. D. is some good live issues for them to discuss to work up an interest. F. W. P.

Discuss and answer the Manual study for this quarter, until you can give a unanimous answer. Also strive to benefit all immediately by co-operation. On our binding twine offer you can save enough to keep up your organization a long time.

Furnas Co. We are progressing finely in our sub-Alliance, but we desire to have a library, which seems to be impossible at prerent. We are all stirred up with the report of the treatment and arrest of Coxey and his commanders; the brutal treatment of men, women and children by the hireling police: innocent spectators knocked down and trampled under foot by their horses. They are organizing a Labor Exchange at Bartley, Nebraska, now, and others will no doubt soon follow. letter over I notice you rather ask the question, "How can farmers do better by the Labor Exchange?" To tell the 100 ways at least would take more time than I can now devote. But I want you to study a little. Don't the speculator beat them when the wheat or any in? We have nothing in common with cleaning the consumer who does not produce wealth, therefore they are all burdens. We cannot make the entire change at once, but we can commence now and gradually improve as we learn the importance and the plan. When all the wheat in your county would be handled by one firm of producers (the farmers themselves) lin the Labor Exchange. and send it direct to the best market, they can do better and make their own profit instead of letting a speculator make it. Now they are scarce of money to make exchange, but by putting the wheat in the Labor Exchange and each taking out his share in checks-they would have the wheat and the medium of exchange without any cost of interest. This saves the interest on all money for local business at least, and soon others will take them. The wheat can be sent to market and other things sent back, these things can be drawn profits of both transactions remain in the L. E., and belong to every depositor GAS AND CASOLINE ENGINE CO. in proportion to the portion of his products put in. Wheat and products deposited in the exchange is a better deposit than gold or silver to draw checks. The Victory Separator can draw checks for that amount. Now suppose you put \$50 worth of wheat in the L. E. why can't you draw \$50 worth of wheat or some other product some one has placed there for exchange until your credit is out? And why can't you

### ARMAGEDDON.

### Prospectus of the New Song Book for the People.

The editor of THE WEALTH MAKERS has devoted his spare time during the ast two years to the preparation of a book of songs such as is needed to educate, unite, arouse and inspire the wealth makers of the world in their im ending conflict with the wealth takers. The battle before us is the battle of the ages The Armageddon of prophecy, the last great conflict between greed and goodness. It is the organized brotherhood of right, against the legalized despotism of might. Truth has been spreading, love has been MISSOURI growing, fraternal organization has been extending; and the increasing oppoly power is in these closing years of the 19th centur cipitating the final struggle. That it may be a peaceful political conflict we agitate and pray; but whether peaceful or otherwise it cannot be averted, it

cannot be longer delayed. The new song book is to be called "ARMAGEDDON." The book will contain about 70 songs for the times, over half of them new, and half of the rest are nearly new and famous, and the remainder are most carefully selected. Fifteen of the numbers are a series of songs sent out by the writer two years ago in sheet music form, under the general title of "Songs of the People."

The titles of the songs which Armageddon will contain are in part as fol-LOSSES AND LIES.

MOLLY AND THE BABY.

THE KINGDOM OF THE BEAST. ON TO WASHINGTON. The above named songs have most of them been set to new music for the author and compiler by a half dozen very excellent composers in Lincoln and Chicago. But a dozen or so of the songs have been written by the editor of THE WEALTH MAKERS to be joined to world celebrated tunes-French, German Austrian, English and Scotch-such tunes as The Marsellaise, Die Wacht Am Rhein, Austrian National Air, German Fatherland, Robin Adair, &c.

The above songs are soles and quartettes with piano preludes and accompanyments, also many for mixed voices. The music of most of the songs is easy, and the more difficult can be handled by good voices with thrilling, wonderful effect. Gen. C. H. Howard of Chicago, editor of the Farm, Field and Fireside, expressed himself in the following words of praise and appreciation in reviewing

the fifteen songs which have formed the nucleus of Armageddon: It has been left to Mr. George Howard Gibson to introduce a new tone into It has been left to Mr. George Howard Gibson to introduce a new tone into the songs of the party, and to write a series of patriotic songs which are hardly surpassed by any in our literature for loftiness of motive and real merit from a literary point of view, while at the same time they are not at all tacking in the musical quality which must necessarily be present before any song touches the chord of popularity. They are remarkable for their fervid patriotism and broad humanity. In fact, if the People's party rises to the patriotic level of these songs, we have little doubt of its ultimate success as a party. The songs atrike the whole octave of human sympathy. Sparkling humor, seen wit and biting sarcasm, as well as the laftler patriotic themes, are touched in turn by the talented author.

No higher praise could be given the la songs, and certainly as much can be said regarding the 10 songs of Armagedden, which include the 15 and furnish a much wider range and fuller treatment of the question of human needs and rights. They are full of pathos, patriotism and power, and are not lacking in humor, wit and sarcasm. The book will be ready in a few weeks and will be sold by the
