

OLD ERROR UNVEILED.

(Continued from last week.)

would be no necessity whatever for distributing fortunes, as all narrow minded conservatives assert that reformers are in favor of doing.

Remove the injustice of rent and interest, and all wealth would rapidly accumulate in the hands of the toilers, while idlers would be branded with the pauper's stamp.

It is often said nowadays that if the wealth of the world were evenly divided it would again, after a short period, be found in the hands of the same favored few.

But what does all this lead to? Just this: we must recognize the obvious fact that wealth has within it an essential quality of decay, not growth, and we must build our industrial system on this truth if we have it stable.

Interest is but the creature of man-made law, just as were the tithes of priests and tyrants. We must draw from it the sanction of civil law and thus abolish it.

It is a grim fact in the history of the world that unwarlike nations become peopled by races of slaves.

Business failures dissipate fortunes and thus, in a measure, serve the same purpose. It is the wealth which is absolutely secure in the same hands that is most dangerous to the liberties of the people of a country.

And, take notice the currency cannot be kept drawing interest and accumulating gathering in itself and being re-loaned, because of the fact that the money, in whatever hands it may be, retains an inseparable relation to and power over the goods in the market.

crisis. In new countries class making must begin anew, and the spirit of equality which is thus inspired by the reaction of the new upon the older nations, puts off the day of reckoning.

The vast triumphs of man over nature has done much to neutralize the workings of the law and to reconstruct fortunes. Steam and electricity were powerful equalizers while they served the rank and file of the people, but once set working in the interest of the money power, they are carrying us to the plutocratic goal with frightful rapidity.

But it will be said that large fortunes are not made by interest taking but are amassed by speculation. It is exactly the same principle differently applied.

Whereas, The condition of the country and of the laboring class is so appalling, and the dilatory action of Congress in enacting measures looking to the relief of the unusual distress of the people, is so contemptible that thousands of American citizens, embracing among their number representatives of every honorable profession of labor, despairing of relief through the aggravating slowness and exasperating adverseness of usual legislation, have resolved to carry their grievances, and those of their millions of co-laborers, in person to the seat of government, there to ask a hearing and demand redress; Therefore, be it

Resolved, That we condemn the political marriage of Harrison-Cleveland, Foster-Carlisle, Sherman-Voorhees, and we declare that it is inappropriate for them to hold their nominating conventions on American soil, and name for American offices, tools of the Jewish London money power, and we suggest that they hold their next sham national convention at their headquarters in London, and that they publicly recognize their real chairman, Baron De Rothschild.

Resolved, That we condemn the action of Senator Wolcott of Colorado, in his denunciation of the honest laborers of his own state, and we denounce him as a servile tool of English capitalists, and we declare that we believe that his entire action to be but the following of instructions received during his recent sojourn in their capital.

safe to either borrow or lend; and so the money is hoarded, credit collapses, commercial wreckage results, and millions are thrown out of work and suffer. This periodic expansion and contraction of the currency, and liquidation and distress, are a necessary result of giving to money the monopoly function or power to draw interest.

The men who borrow money (or land, or land forces) must pay a regular usury sum which they did not borrow; and this they obtain each year by selling goods in the market, what they need to live on and this sum besides. They cannot buy back out of the market as much as they sell, because the interest money obtained in selling has been taken from them.

WHERE FARMERS STAND.

Resolutions That Speak the Sentiments of all Alliances.

The following preamble and resolutions were adopted by the J. B. Weaver Alliance, No. 2318, of Hitchcock county, Neb., May 4th, 1894.

Resolved, That we, the members of the J. B. Weaver Alliance, No. 2318, 100 strong, believe the Commonweal movement to be peaceful in intent, practical in purpose and constitutional by inalienable right; And, be it

Resolved, That we heartily endorse the spirit and applaud the action of J. S. Coxey, as the leader and inspiring genius of the Commonweal movement.

Resolved, That we think it the duty of all good, patriotic American citizens, regardless of political complexion to support the Commonweal movement, and to stand ready to forward aid (if necessary), of whatever description required.

Resolved, That we cheer and admire the fortitude of J. S. Coxey, and that of his men, for their courage in overcoming almost insurmountable obstacles and in bearing quietly and patiently the vilifying reproaches and vituperative insults of the Associated Press.

Resolved, That we commend the bravery of Gen. Kelly and his men, in their unwavering determination to personally present their grievances to Congress in spite of unconstitutional militia calls and the pusillanimous opposition of servile governors.

Resolved, That we commend the citizens of Omaha, and all others who have kindly extended aid to the encouragement of the Commonweal movement.

Resolved, That we condemn the actions of Governor West of Utah, and Governor Jackson of Iowa, as weak and cowardly, and we denounce them as the fawning servants of Plutocracy for the oppression of peaceful unarmed men.

Resolved, That we condemn the political marriage of Harrison-Cleveland, Foster-Carlisle, Sherman-Voorhees, and we declare that it is inappropriate for them to hold their nominating conventions on American soil, and name for American offices, tools of the Jewish London money power, and we suggest that they hold their next sham national convention at their headquarters in London, and that they publicly recognize their real chairman, Baron De Rothschild.

Resolved, That we condemn the action of Senator Wolcott of Colorado, in his denunciation of the honest laborers of his own state, and we denounce him as a servile tool of English capitalists, and we declare that we believe that his entire action to be but the following of instructions received during his recent sojourn in their capital.

Resolved, That we condemn the idea of an international conference for the establishment of the free coinage of silver, but we demand the free coinage of silver at the rate of 16 to 1, without any entangling foreign alliances.

Resolved, That we condemn the recent decisions of Judge Dundy and Judge Jenkins of the U. S. Court, but we heartily approve the actions of Judge Caldwell, trying to bring about the equalization of labor and capital.

Resolved, That we endorse the entire record of our U. S. Senator, W. V. Allen of Nebraska, and as voters in the 5th congressional district of Nebraska endorse the entire action of our worthy representative, Hon. W. A. McKelghan, and we recommend that he be renominated at the coming congressional convention. And be it further

Resolved, That these resolutions be spread on the records of our Alliance, and a copy be furnished the press for publication, and that a copy be sent to W. A. McKelghan.

THE INDUSTRIAL LEGION.

Beginning to Grow Rapidly—Report of the Work.

At the time I took charge of the organization of the Industrial Legion in this state a little over two months ago, there were twenty-nine in existence.

At the present time there are forty-four. The first month was spent in preparing for active work. The second that work was started and fifteen Legions were placed in the field, as follows:

Table Rock, North Platte, Hastings, Holdrege, Clay Center, Fairfield, Albion, Washoo, Lincoln, Seward, York, Stromsburg, Osceola, David City and Ewing. The Legion at Washoo went in with 30 members; Lincoln 25; Osceola 21; Albion 20. The work has barely started and will be pushed right forward.

The object is to put in at least two hundred Legions between now and election day. A state Legion will be organized probably at the time of the state convention.

If we can get every town in Nebraska organized during the coming summer, we can carry the state. We have always been weak in the towns. There is where we must put our heavy work.

Give us a strong organization of the Legions in the towns and of the Alliance in the country and we will be invincible.

Let us put aside personalities and all work for the principles in which we believe. Get rid of local jealousies and push things. Let every one who is interested in the cause, put his shoulders to the wheel.

The world is moving in our direction. Let us take advantage of our opportunities, organize and carry the state.

J. A. EDGERTON, State Recruiting Officer.

John H. Powers' Appointments.

Friends of the Alliance in these counties will please fill out the appointments giving the hour of the day in each case, and notify the state secretary, Mrs. J. T. Kelle, Hartwell, Neb., as soon as possible so she can inform me of the same.

We call our readers attention this week to the new ad. of the Minneapolis Threshing Machine Co. and to all those who are thinking of buying threshers we would say, be sure you write to this company for terms before buying elsewhere.

The only medal that was awarded to any company for "a complete steam threshing outfit" at the World's Fair was awarded to the Minneapolis Threshing Machine Co. Write to W. L. Paul, manager 1001 O street, Lincoln, Neb., tell him where you saw his ad. and he will send you some "highly interesting reading matter" that will tell you all about the Minneapolis Threshing Machine Co. and why you should buy a machine of them when you do buy.

HORSE SENSE IN A FEW WORDS

Stubblefield April 8/94

"Ordinary" mowers & cutters. You have got the harvest mowing mower I ever packed up against.

Stubblefield & Co. 12 years ago I bought it till it worked me out. The draft is the heaviest I ever saw - I'd say you pattern after the McCormick No. 4 Steel Mower & Stubblefield is extremely light & makes it very easy on horse flesh.

Yours truly, A. Horse

THE WORLD'S FAIR. Committee, who tested the McCormick No. 4 Steel Mower in the only regular exposition field trials, in a heavy growth of timothy and clover, said, in their official report: "The efficiency of the machine is thus, under fair conditions, nearly 70 per cent. Ordinary figures for ordinary mowers are at least twenty pounds higher in total draft, with an efficiency of not above 60 per cent., which latter figure good machines should be expected to exceed."

McCormick Binders, Reapers and Mowers are built by the McCormick Harvesting Machine Co., Chicago, and are for sale wherever grain or grass is grown.
