HOW TO CURL A BANG.

he have and Attend to the Tiny Center

Lock. Bangs should be thoroughly washed twice a week in a solution of one part alcohol and three parts soft water and dried. This keeps the fringe free of the oily matter that hinders the staying in curl. All hairdressers moisten the fringe with diluted bay rum and divide the bang in three parts-two side parts and the center (which should again be divided in three)-and curl it backward, holding it firmly for fully 60 seconds. The next part also curl backward. Allow a tiny piece in the center of the front for a "Lillian Russell" curl. Curl the center part downward; then curl the side pieces back toward the coil.

Carefully attempt the tiny curl now that you have left until the last in the middle of the brow. Take the hair (well moistened) upon a hot iron, curling it toward the left, and slowly loosen it, pressing it while hot into the interrogation point closely against the forehead. A little practice will result in success,

The alcohol semiweekly bath, the hot iron, the direction either backward or otherwise, as given above, will keep the bang shaped fluffy and curled, with "the little curl right in the middle of the forehead."

How to Brush Velvet.

It is ruinous to velvet to brush it with anything save the softest surface. Some careful women make their own whisks, which they employ for nothing else, and which are constructed of a very tight roll of any soft threaded cloth frayed out for two or three inches. A perfectly new hare's foot, such as is sold for the application of face powder, ought to serve the same purpose, as it is very stont and still very soft in touch.

### How to Preserve the Natural Color of Flowers.

Take very fine sand, wash it perfectly clean, and when dry sift it through a fine sieve into a pan. When the sand is deep enough to hold the flowers in an upright position, take some more sifted sand and carefully cover them. A spoon is a good thing to take for this, as it fills in every chink and cranny without breaking or bending the leaves. When the pan is filled solidly, leave the flowers to dry for Several days. It is a good plan to warm the sand in the oven before using it, as he flowers will then dry more thoroughly. In taking the sand off great care must be taken not to break the leaves, as they are now dry and brittle. Pansies preserved in this way will keep their shape and brilliancy of color all winter. and many other flowers can be equally successfully treated—anything, in fact, where the full pressure of the sand comes on both sides of the leaves; otherwise they will shrivel. To fill in flowers with cuplike shapes, it is better to lay them on the sand and with a small spoon fill in and around each flower. Ferns, when preserved in this way, have a more natural look than when pressed, and the maidenhair fern looks almost as well as

when it is freshly gathered.

Japanese age is counted in a manner very peculiar to our ideas. At whatever period of the year a child is born, whether in January, the middle of the year, or December, it is said to be I year old on the 1st of the January following. Then each succeeding year of 12 months is, as with us, another year.

## How to Make German Crullers.

A cup of thick, sour cream, a cup of sugar, 3 cups of sifted flour, 2 eggs, a half teaspoonful of salt, a heaping teaspoonful of baking powder, a teaspoonful of vanilla. Beat the eggs until light, then add the sugar; beat again, add the sour cream, mix; add the vanilla and salt, Put the baking powder into the sifted flour and sift again. Now add this to the other ingredients, mix, roll out on a board, cut with a large round cutter; then with a small cutter take out the centers. Drop them quickly into boiling fat; brown on one side, turn and brown on the other. When done, drain and dust with powdered sugar. To have these a perfect success the dough must be as soft as you can possibly handle it.

## How to Clean Glass Carafes.

A very simple thing to do is to tear a newspaper into small bits and nearly or quite fill the carafe. Then pour in warm soapsuds, with a little ammonia added, and shake well. The paper will soon scour the bottle thoroughly clean, and it paly remains to rinse it out well before ving it again.

How to Boot Roses and Shrubs. Some varieties of roses will not grow from cuttings. To root them pass the branch selected through a 4 inch flower pot. Let the end of the stem extend an inch or so beyond the rim; then fill the pot with sand and dry earth. Keep it warm by watering two or three times a week, and when the leaves begin to grow cut the stem at the bottom of the jar about half off. The whole may be kept upright by tying the pot to the main stalk with a string. In a short time you will find small fibrous roots and can cut it off entirely, and when enough it can be removed careful "the small pot and transplanted,

OUR NATIONAL PLATFORM. The People's Party Platform Adopted

at Omaha July 4, 1892.

Assembled upon the 116th anniversary of the Declaration of Independence, the People's party of America, in their first national convention, invoking upon their action the blessings of Almighty God, puts forth in the name and on behalf of the people of this country the following preamble and declaration of principles:

PREAMBLE.

The conditions which surround us best justify our co-operation. We meet in the midst of a nation brought to the verge of moral, political and material rain. Corruption dominates the ballot box, the legislatures, the congress, and touches even the ermine of the bench. The people are demoralized; most of the states have been compelled to isolate the voters at the polling places to pre ventuniversal intimidation or bribery. The newspapers are largely subsidized or muzzled, public opinion allenced; business prostrated; our homes covered with mortgages; labor impoverished and the land concentrating in the hands of capitalists. The urban workmen are denied the right of organization for self protection; imported pauperized labor beats down their wages, a hireling standing army, unrecognized by our laws, is established to shoot them down; and they are rapidly deboldly stolen to build up colossal fortunes for a few, unprecedented in the hostory of mankind; and the possessors of these, in turn, despise the republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes-tramps and millionaires. The national power to create money is appropriated to enrich bondholders. A vast public debt, payable in legal tender currency, has been funded into gold-bearing bonds, thereby adding millions to the burdens of the people.

Silver, which has been accepted as demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise and enslave industries. A vast conspiracy against mankind has been organized on two continents and it is rapidly taking possession of the world. If not met and overthrown at once, it forebodes terrible social convulsions, the destruction of civilization or the establishment of an absolute despotism.

marter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted legal ratio of 16 to 1. upon a suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop, without serious efforts to prevent er restrain them. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming campaign, every issue but one. They propose to drown the outeries of a plundered people with the uproar of a sham battle over the tariff. so that capitalists, corporations, national banks, rings, trusts, watered stock, the demonstization of silver and the eppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of mammon; to destroy the multitude in order to secure corruption funds from the millionaires.

Assembled on the anniversary of the birthday of the nation and filled with the spirit of the grand generation which established our independence, we seek to restore the government of the republic to the hands of "the plain people," with whom it originated.

We sesert our purposes to be identical with the purposes of the national constitution: "To form a more pertect union, establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity."

We declare that this republic can only endure as a free government while built upon the love of the whole people for each other and for the nation; that it OSt. cannot be pinned together by bayonets; that the civil war is over and that every passion and resentment which grew out of it must die with it, and that we must be in fact as we are in name, the united brotherhood of free

Our country finds itself confronted by conditions for which there is no precedent in the history of the world; our annual agricultural productions amount O street Lincoln, Neb. to billions of dollars in value, which must within a few weeks or months be exchanged for blillons of dollars of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the results are falling prices, the formation of combines and rings and the impoverlahment of the producing class. We pledge ourselves that if given power, we will labor to correct these evils by wise and reasonable legis ation in accordance with the terms of our platform. We believe that the powers of government in other words, of the people should be expanded (as in the poots) be expanded (as in the poots). The poots of the po

service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty shall eventually cease in the land.

While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions, important as they are, as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity, but the very existence of free institutions depend; and we ask all men to first help us to determine whether we are to have a republic to administer, before we differ as to the conditions upon which it is to be administered. Believing that the forces of reform this day organized will never cease to move forward until every wrong is remedied, and equal rights and equal privileges securely established for all men and somen of the country, therefore:

### WE DECLARE

arst-That the union of the labor forces of the United States, this day consummated, shall be permanent and perpetual. May its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

Second-Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robgenerating into European conditions, bery. "If any will not work, neither The fruits of the toil of millions are shall he cat." The interests of rural and civic labor are the same; their enemies identical.

Third-We believe that the time has come when the railroad corporations will either own the people or the people mus, own the railroads, and should the government enter upon the work of owning and managing any or all railroads, we should favor an amendment to the constitution by which all persons engaged in the government service shall be placed under a civil service regulation of the most rigid character; so as to prevent the increase of the power of the national administration by cein since the dawn of history has been the use of such additional government

We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

We demand a graduated income tax. We believe that the moneys of the country should be kept as much as possible in the hands of the people, and hence we demand that all state and national revenues shall be limited to the necessary expenses of the government, economically and honestly administered.

We demand that postal savings banks be established by the government, for the safe deposit of the earnings of the people, and to facilitate exchange.

Transportation being a means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people.

The telegraph and telephone, like the postoffice system being a necessity for transmission of news, should be owned and operated by the government in the interest of the people.

The land, including all the natural resources of wealth, is the heritage of all the people, and should not be mono polized for speculative purposes, and allen ownership of land should be prohibited. All lands now held by railroads and other corporations in excess of their actual needs, and all lands now owned by allens, should be reclaimed by the government and held for actual settlers only.
