

EDUCATION FOR INDIANS.

THEY MUST HEREAFTER ATTEND HOME SCHOOLS.

AN IMPORTANT CHANGE IS MADE.

The House Places a Provision in the Indian Bill Prohibiting Children From Attending Any School More Than Forty Miles Away From the Reservation—Other Washington News.

WASHINGTON, June 18.—A provision of the Indian appropriation bill, which was adopted in committee of the whole, prohibits all Indian children from attending any school more than forty miles from their reservation until they have gone to the school provided for them at home at least four years. This provision of the bill, if it is enacted into a law, will have the effect of reducing the number of Indians sent away to eastern schools and very materially increasing their home education.

There is a growing sentiment in favor of educating the Indians at home as far as possible, and no legislation of recent years has been so pronounced in this direction as that which was incorporated into the Indian bill.

Representative Curtis of Kansas made a hard fight to have the section of the bill approved which secures to the Indians the principal and interest due them from Southern states for the sale of their old reservations. It amounts now to more than \$3,000,000, and the states have shown a disposition to defer payment indefinitely. The proposition was, however, defeated on a point of order.

Delegate Flynn of Oklahoma, will again attempt to have incorporated in the bill his commutation plan for Oklahoma, permitting settlers to prove up their claims in fourteen months. Failing to secure this in the house, an effort will be made to have the senate make the provision.

UNCLE SAM'S FINANCES.

Estimated Results of Treasury Operations for the Year.

WASHINGTON, June 18.—As the end of the fiscal year is only fifteen days distant, treasury officials are able to give a fairly accurate estimate of the net results of the treasury's operations for the year. Up to this time the receipts aggregate \$283,294,721, and the disbursements \$356,197,337, leaving a deficit for the eleven and a half months of \$74,902,616.

It is thought by the officials that the deficit for the year will not be materially greater than it is now, and that \$74,500,000 will probably more than cover it, even should the customs receipts continue to decline, and those from internal revenue remain as during the last fortnight. While the cash balance yesterday reached \$115,025,282, and the gold balance \$67,804,972—the lowest point since the January bond issue—the situation is causing but little uneasiness at the treasury department.

Woman's Suffrage Orators.

TOPEKA, Kan., June 18.—Miss Susan B. Anthony and Rev. Anna Shaw have tendered their services to the Populist state central committee for a month of the campaign which has just opened. The offer has been accepted. Miss Anthony will discuss the suffrage question only, but it is authoritatively stated that Rev. Shaw will stand squarely upon the Populist platform and defend the principles of the party. Mrs. Anna Diggs will also spend the most of the season in Kansas in the interest of the suffrage cause. Mrs. Mary E. Lease has not been heard from lately, but she said a few weeks ago that she would put in at least a month on the Kansas stump on behalf of the amendment.

Found Dead in a Creek.

ATCHEISON, Kan., June 18.—Joseph Jacobs, a jeweler of this place, left home Wednesday morning for the purpose of going hunting, and not returning, a search was instituted for him. His clothing was found on the bank of a creek about four miles south of Atchison late last evening, and the body of the dead man was taken out of the stream a short time afterward.

Editor Brown in a Mother Hubbard.

WICHITA, Kan., June 18.—At Kingman last night when Editor Brown returned from the Populist convention, where he bitterly fought woman's suffrage, was met at the depot, taken from the side of his wife, clothed in a mother Hubbard dress and sun-bonnet and compelled to march through the streets before a brass band. The friends of woman's suffrage did it.

Broker Clark Murdered.

ST. LOUIS, Mo., June 18.—The body of Ben Oliver Clark, the prominent board of trade broker who has been missing from this city since last Sunday, was discovered in the river near Festus, Mo. The coroner's jury which held the inquest found a verdict that Clark came to his death by violence, his skull having been crushed in.

To March to the Pacific Coast.

WASHINGTON, June 18.—Gladwin's army of industrialists which reached this city some time after Coxy's contingent, and have been nearly all the time at Hyattsville, have become weary of waiting for something to turn up, and now contemplate a march from here to the Pacific coast.

Coxy's Bill Introduced.

WASHINGTON, June 18.—The Coxy bill for good roads and non-interest-bearing bonds which Senator Peffer introduced in the senate, has been in-

THE TORCH AT BEVIER.

Italian Strikers Charged With Having Fired Four Kansas & Texas Buildings.

BEVIER, Mo., June 18.—This morning at 1 o'clock the mule stable and slaughter house of the Kansas and Texas Coal company was set on fire and a team of mules was lost. A dressed beef was stolen.

While this fire was in progress, a dwelling house close to mine 43 was set on fire. The guards on duty there fired about twenty shots at the shadows of the firefighters whom they could see stealing away.

No sooner had this building burned than another building in another part of the ground was set on fire and destroyed.

These fires caused great excitement here. All the English-speaking miners denounce the crimes in the strongest terms. It is believed that the attacks are being made by a well organized gang of Italian strikers and the miners in general have nothing to do with them.

OUTSIDERS NOT WANTED.

The Pullman Company Will Treat Only With Its Old Employees.

CHICAGO, June 18.—A committee of twelve American Railway union delegates visited the offices of the Pullman company, but were told by Vice President Wicker that the company had nothing to arbitrate with the union but would treat with the old employees.

The matter was referred to the Pullman delegation with instructions to appoint a committee of strikers to confer with the officials and report to the union as soon as possible.

A proposition was made to establish a labor trust company in every state in the union with a general body at Washington and a large capital stock to create a perpetual fund to carry on strikes, etc. It is thought the plan will be adopted with some modifications.

A PRIZE FIGHT FOR SCIENCE.

Two Brooklyn Pugilists Battle in Thomas A. Edison's Laboratory.

NEW YORK, June 18.—In the laboratory of Thomas A. Edison, the inventor, near Orange, N. J., last night, Mike Leonard and Jack Cushing, both of Brooklyn fought in the interest of science before Edison and a party of six intimate friends. Six rounds were fought and then Leonard put his man out with a clever right hand punch.

The preliminaries were all arranged several days ago by Mr. Edison's representatives and a purse of \$300 subscribed, all of which was to go to the winner. The fighters weighed in at 130 pounds when they entered the twelve foot ring, which had been pitched within the focus of Mr. Edison's latest invention, the kinetograph, which was to catch and preserve every movement of the pugilists for the purpose of reproducing them later on.

FREE TRADERS RIOTOUS.

Members of a Newfoundland Party Attempt to Take Goods Without Duties.

ST. JOHN'S, N. F., June 18.—A crowd of men, headed by Speaker Emerson and other members of the Whitway party, tried to take goods from the wharves yesterday without paying duty. The whole city police force was summoned and for two hours had their hands full in keeping the crowd in check. There were between 2,000 and 3,000 persons collected in the vicinity, and in the struggles with the police many were hurt.

Murray, another Whitway member of the assembly, has been disqualified, making the tenth. Seven more are to be tried.

PREMIER CRISPI FIRED AT.

An Assassin Makes a Desperate Effort to Kill the Italian Statesman.

ROME, June 18.—Premier Crispi was driving from his residence to the Chamber of Deputies in a closed carriage to-day, when a man loitering on the sidewalk put his hand into his breast, drew a revolver and dashed into the street to the carriage. He then lifted his revolver, took quick aim at the premier and fired.

Signor Crispi was uninjured, and sprang out of his carriage with the intention of seizing the would-be assassin. The latter, however, was almost immediately seized by a number of people attracted by the report of the revolver.

GENERAL BENNETT MISSING.

The Commonwealth Leader Disappears With \$103 Army Funds.

KANSAS CITY, Mo., June 18.—General Bennett, who left the camp of his commonwealth army in the east bottoms Thursday night with \$103 collected at the convention of Kansas Populists, saying that he was going to purchase boats to transport his men down the Missouri river, has not been seen since.

San Francisco, June 18.—The following supreme officers of the A. O. U. W. were elected: Master workman, Louis L. Troy, Illinois; foreman, Joseph E. Riggs, Kansas; overseer, J. G. Tate, Nebraska; recorder, M. W. Sanecki; receiver, John J. Acker; medical examiner, Dr. W. C. Richardson; guide, John Milne, Ontario; watchman, B. F. Geiger, Michigan; trustees, G. B. Katzenstein, California; H. C. Sessions, Dakota; A. H. Vermilye, New Jersey.

Madeline Pollard on the Lakes.

SAULT STE. MARIE, Mich., June 18.—Madeline Pollard arrived here to-day on the steamer Peerless with a party of friends. Her name did not appear on the passenger list, but she was recognized by one of the passengers. After spending the day in the city sight seeing she will leave on the City of Duluth for Chicago.

Arnold Acquitted.

KANSAS CITY, Mo., June 18.—Oscar Arnold was acquitted of the murder of George H. Parker by a jury in the circuit court at Liberty. The murder took place two months ago after a hard

A SENSATIONAL SUICIDE.

EX-CONGRESSMAN TOM BAYNE TAKES HIS OWN LIFE.

A NOTED PENNSYLVANIA POLITICIAN.

A Bullet Through His Head Follows an Unusually Violent Hemorrhage—Compelled by Consumption to Retire From Congress After Seven Terms—A Popular Man in Washington.

WASHINGTON, June 18.—In a fit of despondency resulting from long and incurable illness and depressed by a sudden and violent attack of dangerous symptoms, Thomas M. Bayne, for seven terms representative of the Allegheny district in congress, at 10:15 o'clock this morning forestalled his end by sending a bullet through his head and killed himself instantly. At the time he was alone with the servants in his handsome and luxurious home at 1629 Massachusetts avenue, in the most ultra-fashionable part of the city, his wife being temporarily absent in Philadelphia.

He had been ill for a long time and indeed it was his ill health which caused him to resign his labors in congress where he had earned a reputation as a clever, vigorous debater and an expert on the complexities of the metal schedule of tariff bills. About eighteen months ago he was induced to take a voyage around the world and when he returned last July it appeared that he had improved very much. This gain was but temporary, however, and he suffered greatly from fits of depression consequent upon the mutations of his disease which was consumption. Recently he had failed so that it became necessary to have a trained nurse constantly with him.

About 6 o'clock this morning Mr. Bayne called the nurse and said he was suffering, having just had a hemorrhage which had covered his breast with blood. The nurse did everything in her power to make him comfortable, but at 10:15 o'clock when she was absent from the sick room for a moment a shot rang out. She rushed back to find him lying unconscious with a revolver beside him and a ghastly hole in his right temple.

Medical help was speedily summoned and Dr. Sowers responded but when he reached the bedside, Mr. Bayne had breathed his last. Coroner Woodward, who had also been called, soon appeared and decided that the facts were so evident inquest was unnecessary. He therefore gave the necessary certificate of death self-inflicted.

The news of the sad event spread rapidly and the Pennsylvania delegation in congress being notified, W. A. Stone, Mr. Bayne's successor in congress, came to the house and took charge of affairs, summoning an undertaker and addressing a telegram to Mrs. Bayne in Philadelphia.

Mr. Bayne was one of the best known Republican politicians in Pennsylvania and was on the ways and means committee in the last congress. He declined to run again for congress on account of ill health, and had since been out of active politics. He belonged to the branch of the party of which Senator Quay is the head.

A SILVER PLATFORM.

House Democrats Formulate One for the Endorsement of Conventions.

WASHINGTON, June 18.—A platform has been unofficially agreed upon by a number of Democratic silver members of the house of representatives as expressive of their views and as likely to commend itself to congressional conventions as, concisely stating the silver, tariff and other issues. The purpose is to have conventions adopt uniform planks on these subjects. The platform is as follows:

"We are in favor of tariff for revenue only, and indorse the Wilson bill as it passed the house as the nearest approach to such a tariff attainable at this time.

"We are in favor of the income tax as a permanent part of our fiscal system, and welcome it as a step toward the restoration of equality in taxation.

"We are in favor of the immediate restoration of the free and unlimited coinage of silver at the present ratio, without waiting for the aid or consent of any other nation on earth.

"We believe that all paper money should be issued by the general government, and should be made a full legal tender for all debts, public and private, and that hereafter no contracts for a particular kind of money should be permitted.

"We are in favor of the election of United States senators by a direct vote of the people."

EIGHT THOUSAND MUST GO.

Intruders Ordered to Leave the Choctaw Nation Before Thursday.

HARTSHORNE, I. T., June 18.—The indications are that there will be a general exodus of intruders from the Choctaw nation into the neighboring states, which will keep the United States troops occupied for some time to come. A circuit judge has stated that ejection of the striking miners was but the beginning of what was to follow; that every intruder, irrespective of occupation or position, would be removed, now that the ball had been put in motion. This will result in the ejection of about 8,000 whites, if fully carried out. Many intruders are still hiding. Colonel Andrews has served notice on the families of such that they must remove from the territory before next Thursday or be removed by him.

A Dalton Gang Member Confessed.

FERRY, Ok., June 18.—J. E. Sanford, alias "Bitter Creek," on trial here for horse stealing, has confessed that he is a member of the noted Dalton gang. He was arrested near this place two months ago after a hard

KILLED THE LITTLE LION.

He Was Not Four Months Old and His Brain Was Diseased.

An African Lion in Central park, having been adjudged insane, was shot through the brain the other day. It was a baby lion in its fourth month, and its brief existence is supposed to have been full of pain.

The lion—he had never been christened—belonged to Baranum & Bailey's show. He came to the park menagerie two months ago, with the elephant, the boa constrictor and the antelope.

The circus often sends such animals to the park for the winter. The elephant and the boa constrictor thrived and grew fat; the antelope languished; the lion pined away. His eyes were dull and sad, and the keepers saw he was suffering, but he did not roar or cry.

About two weeks ago he began to stagger up and down his cage, as if his legs were too weak for his body. Then instead of walking on the under part of his toes, he doubled them and walked on his talons. When Felix McDonald, the superintendent of the circus menagerie, called at the park, attention was called to the lion's condition. He decided that the lion's brain was affected, and that he must be killed.

Chloroform was chosen at first, but after more deliberation it was decided to shoot him. At 2 o'clock one afternoon the execution took place. The keeper's gathered in front of the cages and stood there with grave faces. The lion had stretched himself out to his full length, four feet from nose to tail tip, and his eyes were turned full upon the men. He was as motionless as a bronze figure. One of the keepers raised a rifle and held the muzzle within a few feet of the lion's ear. There was a flash and a loud report. The lion's head fell and remained motionless. The shot had pierced his brain, and had killed him.

The skull was opened, and it was found that the lion's brain was thick with blood clots.

ON THE YUKON.

Alaska's Mighty River Is to Be Used for Commerce.

The Yukon river is now to be made the line of commerce, and will soon be navigated by regular side-wheel steamers. The idea is to run regular boats up and down the Yukon river for the purpose of trade and connecting at St. Michael's island with the Sound steamers. The new steamer, which is to be called the P. B. Wear, had her frame laid out and fitted at Seattle. She will be put together on St. Michael's island, will be 175 feet in length, twenty-eight feet beam and four feet deep.

The Wear will run up the Yukon river, the mouth of which is about twenty-five miles from the island, and for a distance of 2,290 miles will establish trading posts along the river. The trade will be of all kinds of merchandise, and the returns will be in gold dust and furs. There will be also a complete assaying outfit on the steamer, and everything that a miner can use in testing and taking out valuable mineral from the ore.

A sawmill will be taken along for the purpose of cutting timber for trading stations. The Yukon river is only navigable during July, August and September, and, for the present, only three or four trips may be made during the year.

Worthy of Witch-Burning Days.

A Kentucky Baptist minister says that some years ago a Baptist church in that state tried a man for kissing his wife. The formulated charge was entered: "Unbecoming levity." The gentleman accused had been from home several weeks on business, and on his return met his wife at the meeting house, and in the presence of the congregation embraced her with a sounding smack on the lips. Some of the staid old deacons were so shocked at such levity in the house of God that the gentleman was arraigned on the above charge, and escaped dismissal from the church by agreeing to do his kissing at home in the future.

Charging a 110-Ton Gun.

There are nine 110-ton guns in the British navy at the present time. The projectile fired from these guns when attacking ships or forts weighs exactly 1,800 pounds and leaves the muzzle with a velocity of 2,105 feet per second, and has a destructive energy equal to 53,305 foot tons. When the monster engines of death are to be turned upon an army of men or a flotilla of ships they are loaded with cylinders of steel, and each of which is filled with 2,300 four-ounce bullets. The amount of powder used behind such projectiles is something enormous—900 pounds to each charge.

Sagacity of a Dog.

Morris Thompson, East Cain, Pa., was sitting reading his paper one evening, when a dog came to his door and began scratching. He went out and the dog ran toward the orchard. Mr. Thompson returned again to his reading and once more the dog came to the door and began scratching. This time Mr. Thompson followed the dog into the orchard, and there up a tree the dog had scared two coons. Glad he was when Mr. Thompson came to his assistance, and with the aid of the dog both coons were captured.

Wanted to Learn Monkey Language.

A remarkable request was received recently at the office of the Providence park commissioners of St. Louis. The city has established an animal department at the Roger Williams park and among other attractions is a cage of monkeys. J. B. Thorgat, of the city, writes that he is a philologist and would like to have permission to enter the monkeys' cage and to study the cries of these animals. He believes they have a language of their own.
