A CAPITALIST SPEAKS.

James Brisben Walker, a wealthy and influential New Yorker, writes in the Cosmopolitan Magazine: "If one would study the justice of a system of political economy, let him surrender his vested rights of property and take his place among those whom the system crushes, whose labor it devours and whose reward for labor is a bare, joyless existence. We who have the money can reason speciously regarding the justice of our laws, the excellence of our system of government. The laboring man can only groan in spirit. He has not kitherto had the power of his vote, notwithstanding our housted representative government, because his brothers in the agony which povorty brings, in their effort to relieve he hand to mouth miseries of their exsterce, have sold at each election this irthright for the merest taste of pot-

ARMAGEDDON.

Prospectus of the New Song Book for the People.

The editor of THE WEALTH MAKERS has devoted his spare time during the GET your neighbor to subscribe for THE last two years to the preparation of a book of songs such as is needed to educate, unite, arouse and inspire the wealth makers of the world in their im pending conflict with the wealth takers. The battle before us is the battle of the ages, the Armsgeddon of prophecy, the last great conflict between greed and goodness. It is the organized brotherhood of right, against the legalized despotism of might. Truth has been spreading, love has been growing, fraternal organization has been extending; fand the ingreasing oppression of monopoly power is in these closing years of the 19th century precipitating the final struggle. That it may be a peaceful political conflict agitate and pray; but whether peaceful or otherwise it cannot be averted. cannot be longer delayed.

The new song book is to be called "ARMAGEDDON." The book will contain about 70 songs for the times, over half of them now, and half of the rees are nearly new and famous, and the remainder are most carefully selected. Fifteen of the numbers are a series of songs sent out by the writer two years ago in sheet music form, under the general title of "Songs of the People."

The titles of the songs which Armageddon will contain are in part as fel-

THE HOPE OF THE AGES. THE MARCH OF THE WORKERS. BATTLE HYMN OF THE WRONGE MOLLY AND THE BABY. ON TO WASHINGTON.

The above named songs have most of them been set to new music for the author and compiler by a half dozen very excellent composers in Lincoln and Chicago. But a dozen or so of the songs have been written by the editor of THE WEALTH MAKERS to be joined to world celebrated tunes - French, German Austrian, English and Scotch-such tunes as The Marsellaise, Die Wacht Ac Rhein, Austrian National Air, German Fatherland, Robin Adair, &c.

The above songs are solos and quartettes with plano preludes and accompanyments, also many for mixed voices. The music of most of the songs is easy, and the more difficult can be handled by good voices with thrilling, wonderful effect. Gen. C. H. Howard of Chicago, editor of the Farm, Field and Fireside, expressed himself in the following words of praise and appreciation in reviewing

the fifteen songs which have formed the nucleus of Armageddon; 'It has been left to Mr. George Howard Gibson to introduce a new tone inte the songs of the party, and to write a series of patriotic songs which are bardly surpassed by any in our literature for loftiness of motive and real merit from a literary point of view, while at the same time they are not at all lacking in the musical quality which must necessarily be present before any song touches the chord of popularity. They are remarkable for their fervid patriotism and broad humanity. In fact, if the People's party rises to the patriotic level of these songs, we have little doubt of its ultimate success as a party. The songs strike the whole octave of human sympathy. Sparkling humor, keen wit and biting sarcasm, as well as the loftler patriotic themes, are touched in turn by the talented suthor.

No higher praise could be given the 15 songs, and certainly as much can be said regarding the 70 songs of Armageddon, which include the 15 and furnish s much wider range and fuller treatment of the question of human needs and rights. They are full of pathos, patriotism and power, and are not lacking in numor, wit and sarcasm. The book will be ready in a few weeks and will be sold by the
