Mr. Carrig's article will not has every appearance of being worked appear because the other article covers and divide after shipment. by the corporations, and that it is a the same ground and is written by a gigantic land grabbing, serf-making townsman of Meiklejohn's. There is ferred to by the Senator to advance scheme. Those who are familiar with one argument which perhaps may be lawyers and editors and professional the management of the thing, and the given in favor of Robinson which is men generally to positions of leadership way voting delegates are appointed, say that the convention will ask for Congress to turn over irrigable government that Judge Robinson will accept the nous, and the farmers themselves are porations will come along and gobble up such lands and the citizen must buy such lands and mortgage himself eterpeople. And when the people are in

GOVERNMENT control of railroads is in office a farce. The courts will not compel the corporations to produce their books and swear to the actual capital invested, and their expense accounts, rebates, passes, campaign corruption funds, legislative and congressional lobby exformation and people. We still hope for a peaceable solution of social questions. and their expense accounts, rebates, penses, &c., and without these items it tions at the ballot box, but with the inmust remain impossible to legislate intelligently concerning freight and passenger tariffs. But we have had a little experience here in Nebraska which shows that the railroads control the courts, also, and that we must wrest the dented destitute condition of the people government entirely from the railroads before we can effectively deal with by the usurers, have lost their crops, make an uprising seem possibly not far them. Then it will be vastly easier and cheaper to purchase and operate sory. the railroads, saving all wastes and dividends, than to allow them to be run by private parties in their own interest, for profit.

OUR esteemed contemporary, The Looking Glass, corrects, or endeavors to correct, a statement made by us that a borrowed currency cannot be kept circulating if more money is to be paid back than was borrowed. We said cannot advisedly. The usurers desire to accumulate, and we took that fact into consideration. Their desire to accumulate is what gluts the markets, makes lending unsafe every few years and draws the money out of circulation. We oppose interest taking for this reason. If the government takes interest it is another thing. But why should the government compel the borrowing Prohibition friends favor this class oppression and favoritism?

MR. ROSEWATER wrote to the chairman of the national committee of the Republican party, in the letter he has lately given to the public, that the Republican party in Nebraska would need can assure you will do your community \$40,000, or \$400 per county, to conducta and the cause of the people much good. really vigorous campaign. PRODUCERS RESOLVE.

An Extra Session of the Legislature

an Imperative Necessity. At a joint meeting of the Buffalo County Alliance and the Ancient Order of Loyal Americans, held in Kearney, Buffalo county, Nebraska, on June 27, 1894, the following resolutions were adopted:

Whereas: The drouth has for two years in succession destroyed the crops in the entire western portion of the state, and the people are in a state of dire necessity, therefore, we respectfully petition the governor to call the legislature in extra session to take action on the matter.

Resolved; That we respectfully request the legislature to reduce all fees and salaries of public officers to correspond with the compensation received by persons in other callings requiring similar educational ability.

Resolved; That we are in favor of a usury law that makes the taking of more than seven per cent. a misdemeanor punishable by fine and inprisonment.

Whereas; The transportation corporations of this state have in the past years robbed the people of a fair and reasonable profit on their labor, thereby keeping us in poverty, and

Whereas; At the present time, owing to failure of crops, the outlook for the coming winter is exceptionally bad, and if something is not done to relieve the situation, the poor in city and county must suffer from hunger and

Wnereas; The present loss of the corn crop is the consequent loss of the corn cobs, which are largely used as fuel by all the farmers and many others, which loss of fuel will greatly increase the consumption of coal, and at the same time increase the expenses of those in the cities who are out of work. and at the same time increase the burdens of our charitably disposed citizens

Whereas: Nearly three-fourths of coarges, therefore

Resolved: That we demand that the receivers of the U. P. R. R. and our state board of transportation take into ings can be held for \$10 each, and hotel consideration the exigencies of the situation and at once reduce the freight on coal to one dollar per ton.

Resolved; That all supplies for charit-able purposes should be shipped free of

Whereas; The financial condition of many of our citizens of country and town is such that the loss of a crop, or the loss of a situation makes it impossible for them to pay the interest on the mortgages on their homes and personal property, and live the coming winter without the aid of charity, therefore

Resolved; That we appeal to the dges of our courts. the atterneys and others interested in making collections to at once stay all foreclosure and other proceedings, looking toward the collection of debts, until a crop can be raised and the times improved to such an extent that charity is not required.

Resolved; That the several county papers be respestfully requested to publish the foregoing resolutions. C. A. BORDERS, T. A. DONAHOE,

Prosident.

Irrigated Farm Lands

FERTILE SAN LUIS VALLEY, COLORADO

THE SAN LUIS VALLEY, COLORADO, is a stretch of level plain about as large as the State of Connecticut, lying between surrounding ranges of lofty mountains and watered by the Rio Grands River and a score or more of small tributary streams. It was the bottom of a great sea, whose deposits have made a fertile soil on an average more than ten feet deep. The mountains are covered with great deposits of snow, which melt and furnish the irrigating canals with water for the farmers' crops.

The Climate is Unrivaled.

Almost perpetual sunshine, and the elevation of about 7,000 feet dispels all majaria, nor are such pests as chinch bugs, weevil, etc., found there. ing artesian wells are secured at a depth, on an average, of about 100 feet, and at a cost of about \$25.00 each. Such is the flow that they are being utilized for irrigating the yards, garden and vegetable crops. The pressure is sufficient to carry the water, which is pure, all through the farmers' dwell-

Irrigation.

Already several thousand miles of large and small irrigating canals have been built and several hundred thousand acres of lands made available for farming operations. Irrigation is an insurance against failure of crops, bebause success is a question only of the proper application of water to them. The loss of a single corn or wheat crop in Nebraska, for instance, would more than equal the cost of irrigating canals to cover the entire state, so important is the certainty of a full crop return to any agricultural state. The San Luis Valley will grow

Spring wheat oats, barley, peas, hops, beans, potatoes, vegetables and all kinds of small fruits and many of the hardler varieties of apples. pears and all kinds of cherries.

In the yield of all these products it has never been surpassed by any other section on this continent.

Forty Acres Enough Land.

Forty acres is enough land for the farmer of ordinary means and help. Besides the certainty of return, the yield, under the conditions of proper irrigation, will average far more than the 160-acre farms in the Mississippi and Missouri Valleys, and the outlay for machinery, farming stock, purchase money, taxes, etc., are proportionately less. There are a hundred thousand acres of such lands located in the very heart of the San Luis Valley, all within six miles of the Denver & Rio Grande Railroad, convenient markets and shipping stations, for sale at \$15.00 per acre. Most of these lands are fenced and have been under cultivation and in many instances have wells and some buildings,—everything ready to proceed at ence to begin farming. A small cash payment only is required where the purchaser immediately occupies the premises, and long time at seven per cent. interest is granted for the deferred payments.

A Specially Low Homeseekers Rate

will be made you, your family and friends. A large party will leave for the Valley on July 21 and 22. Should you settle on these lands the amount you paid for railroad fare will be credited to you on your payments; and remember the land isperfectly and thoroughly irrigated, and the land and perpetual water rights are sold you for less than other sections ask for simply the water rights without the land. No better lands exists anywhere on earth.

For further particulars, prices of land, railroad fare, and all other information call on or address. formation call on or address.
