THE WEALTH MAKERS ALLIANCE DEPARTMENT.

BY MRS. J. T. KELICOTT, SECY.

Monster Meeting at Round Grove, SHERMAN County, Neb., Aug. 9.

Editor WEALTH MAKERS:

The rally at Round Grove was an entire success. By actual count there were 400 teams went into the grove at 2 o'clock and there were a great many came in after that, and a large number of teams were left outside of the grove, making near 500 teams and all loaded to their full carrying capacity. We had two fine beavers for dinner, but there was at least two thirds of the crowd that had to go without beef for dinner. Splendid speaking in the forenoon by Rev. J. M. Snyder and Judge Holcomb. Mr. Green occupied the afternoon, the business men of Litchfield securing him for the evening, showing that the towns and country are getting nearer together at least in this locality.

The Sherman County Alliance had appointed a committee to draft a petition to Congress to pass the Coxy Good Roads bill and have it become a law immediately. The petition was at the Grove meeting and everybody signed it. It became a monster petition. Bankers signed it, merchants signed it, farmers signed it, Republicans signed it, Democrats signed it and Populists signed it. EVERYBODY SIGNED IT, regardless of politics or business. We would like the same thing done in every county in the state. We ought to keep the voice of the people buzzing in the ears of Congress and the Stuffed Prophet until a large majority of Congress and the Prophet would go and commit suicide.

A grain dealer in our county has ordered a car of corn. It did not arrive and when it should and farmers were going to the elevator every day by the dozen for corn to feed their fattening hogs and not a bushel in the elevator, and the farmers in consequence losing money and stock suffering for feed, the dealer finally wrote about the corn, and the agent sent him a card to the effect that the car was loaded and ready to go but the railroad was running its trains for its own use and the public be damned. I secured the card and Mr. Green read it to the audience. J. E. M. County Secretary.

Resolutions of Respect.

At the regular meeting of Atlantic Alliance No. 971, July 20, the following resolutions were passed in honor of our brother and statesman, Senator W. F. Dale:

Whereas: The name of Senator W. F. Dale has been most unmercifully attacked without any good sufficient reason, the cause being an article written by him and published in THE WEALTH MAKERS of July 19, therefore, be it

Resolved: That we are in sympathy with the article written, and that we further extend our sympathy to Eugene V. Debs and the Railway Union in their demand for a reasonable compensation whereby they may earn a living for their families, therefore, be it further

Resolved: That we commend the action and stand taken by Senator W. F. Dale in the article written, also in his speeches before the public.

Resolved: That these resolutions be spread upon our records at large, to be printed in our state paper, THE WEALTH MAKERS, and in the Holdrege Progress. H. A. PICKERING, JOHN LEIGH, President. Secretary.

Beware of Ointments for Catarrh That Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

INSURANCE DEPARTMENT.

Conducted by J. Y. M. Swigart. Correspondence solicited. Fire, cyclone or hail.

Report of Richardson county meeting: Insurance took effect March 25th, 1888, therefore six and one-half years old. January 1st, 1894, company had \$550,365 insurance; July 31, 1894, \$660,575: a gain of \$110,210. Whole amount of losses for six and one-half years, \$55,257. Total cost per \$1,000 insurance, \$2. Later, this county had an \$800 fire, but they have about \$500 on hand to pay and the rest will be easily raised. I would think that it would afford the members of that county a pleasure to pay an assessment now, since they have had their insurance carried these long years for the stipend of \$2 per \$1,000.

At the stock company rate it would have cost \$4 per year to carry \$1,000. Hence if we consider the average of that county at \$300,000 the total cost would be for six and one-half years \$7,800, while in the Mutual the total cost, including fees, salaries, etc., etc., has been but \$600, a saving of \$7,200.

I hope to hear from every secretary of a local company in the state. If you have a loss please report that, giving amount of same, name and post office, and in fact let us make the insurance department one of interest. I can't do it without help.

The law by which we can incorporate a Mutual Insurance company took effect Aug. 1, 1891. There are now about thirty local companies in the state and last year they wrote over \$4,500.

In a few years no doubt our farmers will find out that it pays to do their own insurance without the intervention of city dudes who only earn a living by holding up a victim for double the amount necessary to carry his insurance in a company owned and controlled by those who insure in the company and pay all that is paid.

In case a loss occurs the member is not bulldozed nor accused of crookedness, but it is adjusted in a gentlemanly way and to his entire satisfaction. But in case the company is a stock company he is usually accused of being at fault and as a rule he is induced to accept a less amount than is his due because he is not inclined to go to law.

There are many cases in which he has to take one-half the amount that is really due him or go into law.

We have in mind a case in which the insured had permission to use kerosene in lamps. He set an incubator on the porch and used a kerosene lamp in it. His house burned but did not catch from the incubator nor its lamp. The company's agent after settling the loss offered him just half of the amount due. The farmer took the 50 per cent rather than wait a year or two and pay a lawyer's fees etc., etc.

Under this rule of old line companies if your neighbor should come over some dark night to see your sick horse and take his lantern into your barn and the barn should burn in the course of a month cause known or unknown, your insurance would be void, but under no circumstances would your note for premium become void.
