The Keystone Dehorning Clipper.

the most humane, rapid and durable knife on the market for dehorning purposes, and is madeofor the use of the farmer and dairyman. It has been far more of a success than the inventor even hoped for when first made. This new machine was thoroughly tried on stock, by numerous persons, the past season, and proved itself so far in advance of anything on the market, that today it practically stands without competition.

With it, one man can cut off the largest horn instantly, with a smooth, clean cut, without having the animal thrown, or in a chute, and without having to twist the machine around the horn as is recommended by the circulars of some inferior machines. The Keystone challenges any other machine on the market to do this.

SOLICITING COMPARED,

In mutual companies agents are usually paid a stipulated amount per ap plication. Hence the agent is not interested in over insurance. While is a stock company the agent is paid a percentage on the amount of cash or note he succeeds in inducing the appli rally here in Davey, an audience of over cant to give. And right here a low me 200 ladies and gentlemen, out of which to add that that percentage has usually we secured the signatures of 116 voters been one-fourth the amount of note or to a People's party membership roll cash plus the whole of any policy fee that he could extract from his victim Jones, Shepherd and myself did the (I think victim a proper word in this connection) The stock agent is therefore induced to secure as large an amount of insurance from the victim as possible, hence when a loss occurs the adjuster makes trouble with the victimized victim and will offer to settle with only one-half or perhaps twovention held at this place on the 6th. thirds the amount the policy calls for; H. T. Ankey, a farmer living a few and almost every man will accept that miles from town, was selected as the amount rather than go into law. Therestandard bearer. A better choice could fore the victim pays for insurance that hardly be made. He was one of the he can not get. I am sorry to know, first to leave the g. o. p. to help form however, that a few mutual companies the Populist party. He is a man who pay their agents on the same plan as is honest, honorable and has a record the stock companies. Hence I predict that needs no defender or apolgoy. I have written insurance for men in our mutual company and gave them ample insurance at two-thirds the amount formerly carried in stock companies. I have no doubt that my experience in this line can be verified by the secretaries of every mutual company in the state.

Many men, in fact almost all men, who are insured in a stock company are paying for more insurance than wishing to emigrate to a good healthy they are at all liable to get in case of

The cause can be laid down emphatic, that nine out of ten times the cause is with the agant, who receives the pay lands, will do well to take a trip to for his work, from a standpoint that will induce an unscrupulous man to overinsure his victim, because he will get for a continued risk 50c. for each \$100 insurance.

It has often seemed to us strange that stock companies would pay their men in a manner that would give them a premium to work against the interest of the comyany.

Even if the system is wrong the representatives should not be paid to work

In time to come when the state does all the insurance and all losses are adjusted by the valuation placed on the property by the assessor, there will be several changes for the better, in amount of cost for insurance, in manner of adjustment in amount of money dates is so great that they are already usually wasted to pay high salaries and

PROMPT ADJUSTMENT.

On August 18th, Louisa Marmet of Middleburg, Richardson county, had a barn and contents burned. Her loss was adjusted at \$800 by the officers of the Richardson County Mutual Fire Company. She has been insured since October, 1889, and has paid all told \$8 10 on \$2,650. The following letter from the secretary is self-explanatory: FALLS CITY, Neb., Sept. 12, 1894.

Mr. Swigart, Lincoln, Neb DEAR SIR:—I want to say in "the insurance department," that there is no trouble in assessing and collecting from mortgage debt of the whole country members of the Richardson County amounts to \$11,000,000,000 seems almost Mutual Fire and Lightning Company. We have been doing business over seven years, and our luck was such that we never had to make an assessment until this summer. In the mean time, agents of old line companies kept telling farmers we never could collect and pay losses. They declared our first assess ment would break up our company. It did not prove that way. I mailed near 500 assessment noticess to our members The Keystone Dehorning Clipper is August 8, 1894. and in five days I had sufficient money on hand to pay our \$800 loss. I paid the loss more than a week prior to the time when payment was requested by the losers. I have undertaken many collections, but never saw anything paid so promptly and so cheerfully as this. Drouth and hard times had no power to keep our Mutual people from loing as they agreed. Nearly all the old line agents here have quit and gone into other business. know only three in the county that
