

A Populist Educator on Our University's Needs

AMHERST, Neb., Oct. 30, 1894. Editor WEALTH MAKERS: DEAR SIR:—Your editorial on the present condition and future needs of our State University is timely. It is certainly a most extraordinary state of affairs that exists at that institution today.

There is an impression abroad that the Independents of the state are not in favor of fostering our educational institutions. From a personal acquaintance with many of our leaders, I have no hesitancy in saying that this impression is entirely erroneous.

We need more men and women who live in the pure atmosphere of a higher education. Such people cannot be enslaved and are the world's redeemers and liberators.

Yes, from the flats of Missouri to the canyons and sand-hills of the Niobrara, we are proud of our University. We have reason to be. Her graduates are in demand the country over.

INDIANAPOLIS, Ind., Nov. 5.—The most disastrous fire in this city for several years broke out shortly after 3 o'clock this morning in the building owned and occupied by the Indianapolis natural gas company.

MILWAUKEE Cost of the Strike. SPRINGFIELD, Ill., Nov. 5.—Adjutant-General Orendorff has paid \$12,500 balance due the members of the Illinois National guard for services during the strikes of last summer.

That Lame Back can be cured with Dr. Miles' NERVE PLASTER. Only 25c.

Gustin on the Sale of Manhood

Editor Bee.—In the Chicago papers it is reported that the Republican committee is paying \$75.00 a day for two columns of the World-Herald.

If that be true it strikes me as reckless expenditure of railroad money. \$25 a day would have done it.

Thirty shekels was a big sum for purchasable manhood (?) two thousand years ago. Seventy-five American shekels a day for ten days is a munificent sum to pay for the betrayal of an editor by his newspaper (?) manager.

Mr. Hitchcock is a tidbit to the corruptor of public opinion today, but his political home will soon be the gutter.

Excuse me for ever thinking you had not sized him up right. I am sorry I don't have a chance to see what the editor (?) can have to say in parallel columns to the managers (?) a day.

Rights of Capital Some fifteen years ago I wrote an article for the Chicago Express wherein I took the ground there was no such thing as "rights of capital."

What is capital, where does it come from, who is in possession of it, and who should possess it? are questions to be determined.

HILL'S POLITICAL HISTORY OF THE UNITED STATES. By Thomas E. Hill.

This is a large octavo book of 450 pages, condensed by tabulation into a small book that it may be universally sold and circulated at a low price.

What are Democratic principles? What does a single tax advocate propose? If all tax was placed on land, what would be the tax on the farm?

What would be the conditions if Socialist principles prevailed? If government owned and operated the banks, and banks never failed, and people never hid their money and all money came out and into active circulation, and money was so abundant that interest became low, and all enterprise started up and everybody had employment, what then?

Why nationalize the railroads, the coal mines and various industries? If working certain hours yields certain profit, how could working less hours yield more profit?

How could women be benefited by voting? What started the financial panic of 1893? Who commenced the trade against silver, that resulted in the repeal of the Sherman law?

Who started the stampede on the banks in 1893, by which 714 of them failed in eight months, and four hundred million dollars were drawn out of the banks and hidden within a period of ninety days?

What was the history of the Cozy movement? When did the coal miners' strike begin and what was the extent of that movement?

What are the facts about the Pullman strike, the American Railway Union and the boycott of the Pullman cars?

What are the remedies proposed where by capital and labor may each have justice? See "Hill's Political History of the United States."
