

objects of our organization are to save ourselves and others from the temptations and evils of selfishness, from the compulsory struggling with one another for gain, from the necessity of stealing the heart and hoarding against an uncertain amount of future need and possible loss; that we may love and serve without loss, in safety, and insure ourselves perfectly against all future needs; that we may live in a social atmosphere of love and economize labor and produce the greatest possible surplus to be used in spreading a knowledge of the industrial salvation we have by organization established.

The question has been asked, "Will not selfish men work their way into our Christian corporation and community?" We will answer by asking another, "Will an unselfish way of living attract the selfish? If it will we shall have practically bound and cast out the great tempter and deceiver. But consider another thing. We are not coming together to get rich or to live in luxury and ease so long as poverty and suffering are all about us in the outside world. We shall live frugally because, our love extending to all without our organization, we cannot bear to be selfish as a body. Therefore, we shall devote our surplus first to increasing our capital where we can economize labor, providing ourselves with whatever will increase our strength, skill and effectiveness, and all the balance will be used to teach those outside the Christian industrial way of salvation. There will be labor for all, self-denial for all and the object always before us of saving the world, lifting men out of it into the kingdom of unselfishness. We shall ourselves be only partially saved until all men are saved, and cannot as individuals conscientiously consume more wealth than we need to increase our usefulness.

WE SECOND THE MOTION

We move that at the next national convention the finance plank of the People's party platform be made to read as follows:

We demand a national currency, safe and sound and flexible, consisting of gold and silver, coined at the ratio of 16 to 1, and full legal tender, absolute paper money, issued direct to the people by the people by the general government only, in payment of current appropriations, in volume sufficient to properly transact the business of the country, and distributed and kept in circulation through the medium of government banks of deposit, loan and discount.

Who will second the motion?—The Other Side.

THE WEALTH MAKERS second the motion most heartily. We recognize that we must have something to keep money in circulation, or it will acquire the power of commanding interest. Interest is the tribute we pay to money monopolists. Interest is what puts a drag and periodical stoppage on the circulation of the currency, the exchange of products and the power to keep producing. The mere issue of money will not save it from the grasp of land and capital monopolists, and once drawn into their hands it cannot be put into use again without agreeing to pay back more than was borrowed. With a government banking system the people can borrow all the money they need to use at cost of investigating and caring for securities, probably not to exceed one per cent a year, and all money will be kept in circulation all the time.

THERE was a Democratic avalanche two years ago, caused by discontent, falling prices and increasingly hard work to live. Full power was given the Democrats in Congress and the White House, and conditions changed from bad to worse, with no legislation except closing the mints against silver. Notwithstanding the distressingly low and lowering prices, which do not repay cost of production, gold is still going out of the country, and another \$50,000,000 issue of bonds is reported decided on by the administration. Now what will the Republicans do to satisfy the suffering people? Touch the money question? No, for nine-tenths of them supported the Democratic bill to close the mints against silver. Will they tinker with the tariff? They cannot pass a bill raising the tariff, and if they could it would not raise wages a particle. Their tendency has been downward for twenty years. Therefore the poor dupes who have believed Republican promises and voted them power are doomed to disappointment.

JUDGE STARK did himself the honor of beating his neighbor, Hainer, in his own county. In such a year, with all the tide against the Populists, it was a great personal victory. Beaten in the district by the most unscrupulous and outrageously mean tricks and schemes of his opponent, and even secretly slandered in his own county, he yet commanded enough votes in his and Hainer's home county to carry it. No more effective canvass was made than the six weeks' splendid speaking which Stark put in. But for the tidal wave which swept over the nation, and which carried all before it in Gage and other Republican counties, we should now have Judge Stark to nobly represent the Fourth district of Nebraska.

If our advertisers do not treat you right let us know. We want no "fakes" in THE WEALTH MAKERS. Isn't there something in our "Three Cent Column" that will profit you?

PROF. HERRON is now east on a lecturing tour. He will deliver a series of lectures at Detroit, Michigan, and in New York and New England. Our readers will be pleased to find in this issue a condensation of one of his latest lectures on Sociology. It is reported specially for THE WEALTH MAKERS. His new book, "The Christian State," he writes us, will be published in January.

MUSIC FOR THE MASSES.

Our song book, Armageddon, is what our great industrial political movement has been long in need of. Its value is recognized and its songs will be the songs of the workers everywhere, in their homes and the social and political meetings. They alone furnish a very thorough education in social questions, an education for both heart and head. We believe no book of any sort placed upon the market has more than a fraction of its power to do good at the present time; no book has in it so much power to stir the hearts of the people and kindle determination and enthusiasm; no presentation of truth can be made to reach and effect so many as the truth that is set to fine music and sung to the people.

The Commander-in-chief of the Industrial Legion of America writes under date October 4th, as follows:

"Your song book is the very best, and fills a long-felt want in the party. It is a song book; it is not machine rot, but genuine high grade words and music. I shall issue a circular in a few days and recommend it to the Industrial Legion. I congratulate you on your great work. The whole country will sing this music if you can reach the people."

From the New York Voice we clip the following notes:
Armageddon, The Songs of the World's Workers Who Go Forth to Battle with the Kings and Captains and Mighty Men. By George Howard Gibson. Manila 130 pp., 35 cents, \$3.60 a dozen. Lincoln, Neb.: The Wealth Makers Publishing Company.

This is a collection of songs for the times, with bright, catchy words and good, stirring music. Among these are: "Get Off the Earth," "We Have the Tariff Yet," "The Taxpayers Settle the Bills," "Battle Hymn of the Workers," "God Save the People," "That Honest Dollar," "Hayseed in His Hair," "If I were a Voice," "A Politician Here You See," "It Stuck in His Crop," "Sunrise on the Hills," "The Road to Freedom," "A Drowning Cry," "Armageddon," "The Rallying Cry," "The Pauper's Last Smoke," "Only a Penny a Loaf," "Our Line of Defense," "Plenty of Room," "Old Error's Mists are Sweeping By," "American National Hymn," "Jeans Pants a-Comin'," "The Money Power Arraigned," "Timothy Hayseed," and many more.

TO OUR FRIENDS!

If you are in arrears on subscription to THE WEALTH MAKERS, you will receive a letter soon, telling you how much you owe, and earnestly requesting you to pay up and send in a dollar for your renewal for another year. The love you have for the principles of the Populist party may be measured by the response you make to this appeal. We do not wish to be compelled to discontinue the paper to a single subscriber, but shall have to do so if you don't pay for it.

If you are a Populist you ought not to wait till we ask you for money which you should have sent us a year ago.

We know it is hard to get, but in many cases the persons who are in most need of it are more prompt in renewing their subscription than others who can well afford to pay. It has been a wonder to us that many of our subscribers who are holding good positions, county offices in some instances, have paid no attention to our notices of expiration, while many others who could ill afford the money have paid a year in advance and given us kind and helpful words of appreciation. We have done the best we could, and have placed THE WEALTH MAKERS on a sound financial foundation; but to you who are owing us on back subscription, we must say that, in justice to ourselves, we can no longer send the paper to you. If you have not already, you soon will receive a statement of the amount you owe us, and if we do not hear from you immediately your name will be stricken from our list. To those of our friends who have stood by us through sunshine and shadow we express our hearty thanks, and assure them that we shall spare no time and expense to give them the best paper possible.

Be Your Own Carpenter!

THE SQUARE ROOT DELINEATOR IN THE ART OF FRAMING

A Chart 18x28 inches in size mounted on wooden rollers, carrying a diagram showing the Carpenters' Square, full size. 58 pitches for braces, common rafters and their corresponding hips and valleys, together with their lengths; also that of their jacks, runs, rises, contents of board measure and degrees of pitch, with all their cuts and levels. Much other information such as intersection of different pitches, curved roofs, hopper cuts, etc. In short, it is a key to the wonderful mathematical problems solvable with the steel square.

The publishers of this paper have made arrangements for their sale, and will send them postpaid to any address upon receipt of \$3.00. No farmer or carpenter can afford to be without one. Address: Wealth Makers Publishing Co., Lincoln, Neb.
