

A Letter from Brother Crane

STEELE CITY, NOV. 13, 1894.

EDITOR WEALTH MAKERS:

I wish to reply to answer Bro. Doty's question concerning Christian co-operation.

Many erroneously suppose that when Christ's Millennium Kingdom is inaugurated every one will be pleased with its ruling. But not so. Its regulations will be far more exacting than those of any previous government, and the liberties of the people will be restricted to a degree that will be galling to many now clamoring for an increase of liberty.

I feel today that Brother Gibson named it when he asks if it is true that this world today belongs to the strong and cunning and unscrupulous (or devilish). Our New England forefathers were educated by suffering. The history of the Christian church is a history of suffering and self-denial.

Sound Currency Justly Issued

EDITOR WEALTH MAKERS:

The production and interchange of wealth between nations and individuals is all that is required for the physical well being of the race.

All that intervenes in the exchange is the consent of the parties who possess it, but under the barter system proved cumbersome from very evident reasons.

Hence the invention of money, a representative of wealth, and a more expeditious medium of exchange.

Consent being the simple requisite of exchange between individuals, a simple instrument by the consent of a collective body composing government is all that is required for the medium.

Question a man's sanity who, should object to a five dollar bill on the ground that it contained no more paper than a one dollar bill, and this simple illustration proves the fallacy of the material, intrinsic value of all money; its value consists in the fiat of government, its exchange value stamped upon its face.

Not to enter into details but very briefly, permit me to make the following suggestions for their careful consideration.

A currency that can be "cornered" is not safe. Gold and silver can be cornered. An issue of money with interest subtracted is not just and bankrupt any nation. The issue will only satisfy the principal indebtedness, the interest will eat up the substance and the independence of the masses, and ultimately enslave them.

Paper currency meets all the requirements desirable in money. Cheap in material, created by the will of the people, its volume capable of scientific regulation subject to the demand. Issued by the government in payment of current expenses, it would abolish national taxes, destroy the power of interest to oppress, and furnish an annual increase in volume to meet the wants of increasing population and business.

Fraternally yours, C. H. KING.

Housemaids in England receive an average of seventy-five cents a week and "found."

Belgium imports more wheat from the United States than from any other country.

Western New York farmers state that Poles "beat the world" as workers in the field.

A View of the Battle Field

EDITOR WEALTH MAKERS:

In this county the Independents nominated a county attorney and two representatives, all formerly Republicans.

Convention day the nominee for county attorney announced that he was a middle of the road Populist.

As the campaign progressed the Democratic organ of the county claimed a "Satisfactory arrangement had been made, and that a vote for the Independent nominees for representatives was a vote for Bryan for United States senator." But the Democratic organ and presumably all the leading Democrats of the county never forgave the nominee for county attorney for proclaiming that he was a middle of the road Populist and advised all Democrats to vote the Republican ticket for county attorney.

In this action of the Democrats the Populists have an object lesson as to the true position of the Democratic party. It will vote the Populist ticket just so far as it can use the Populists as a cat's paw to take official chestnuts from the Republican fire.

This position of the Democratic party is further illustrated by the action of the World-Herald during the last days of the campaign just closed, in allowing the Republicans to use its columns to conduct a mud-slinging campaign against some of the nominees on the Populist state ticket. In the face of this Democratic opposition to the best men in this county and state ever had an opportunity to vote for, these same Democratic organs claimed to expect the solid support of a Populist legislature for Mr. Bryan for United States Senator.

The Democratic leaders seem to have the idea in their addled brains that they could sling mud on the Populist party and get it in and then have these same Populists come up to the scratch smiling and vote to lengthen the life of a dying Democratic party. During the campaign the Republicans did not make any open attack on the fusion scheme claimed by the Democrats and as stoutly denied by the Populists. Yet we know this county and we presume every precinct in the state, was worked over, on the quiet, by the Republicans, and that fusion was shown up in its true light and made the most of, and was the strongest and effective argument issued against the Populists.

As a result we have a Republican legislature. Thus the mud-slinging fusion Democrat for office knocked the wind out of his own bay window and dragged down to their own level a lot of conscious but short-sighted Populists.

The Populist leaders are to blame in so far as they remained passive and did not deny the claim set up by the Bryan faction that fusion was an accomplished fact.

Had the Populist state convention put forward Mr. Holcomb for United States senator and nominated Mr. Gaffin for governor the legislature would not now be so strongly Republican.

Mr. Holcomb's middle of the road attitude and personal popularity would have added thousands of votes to our legislative ticket, at the same time Mr. Gaffin would have had the support of Mr. Rosewater, and Populists should not forget that Mr. R. elected Mr. Holcomb in spite of fusion.

Mr. Kem, whom the bankers so thoroughly hate for presaging in his banking bill to make the depositors safe and interest low, was really elected by the bankers themselves. So anxious were they for Mr. K.'s defeat that on the eve of election they fused Mr. Dougherty with the Democrats.

Between Mr. Kem and Dougherty the fusion game was declared a draw, and this kept the populists well in line and enabled them to fight fusion with fusion (or we should perhaps say, "fight the devil with fire"). This fact alone saved Kem's bacon.

Had Dougherty's fusion scheme come to light two weeks earlier, Kem's majority would have been much greater. Wherever Dougherty's fusion was shown up at the polls Kem ran ahead of the legislative ticket.

Will the leaders of the Populists, those who have had three or four years' experience in political work, and are inclined to look with favor upon the plan of buying Democratic support with offices, learn anything from the fusion lesson of this campaign? Weeks before election every old greenback man in the state knew by the feeling in his bones that Mr. Bryan would never become United States senator riding astride the fence.

JACKSON DEMOCRAT.

Don't let your child struggle with whooping cough, when a bottle of Ayer's Cherry Pectoral can be had for a dollar.

JAPAN'S NEW WAR SHIP.

The Crak Chilean cruiser Esmeralda purchased by the Mikado.

New York, Dec. 3.—Japan has bought the crack Chilean cruiser Esmeralda. The deal was consummated here within the last few days and was managed with great adroitness. Chili first selling the ship to Ecuador and the latter transferring it to Japan. To further disguise the fact, a report was given currency that China had bought the ship. This was to avert suspicion until the cruiser was well out of danger of being apprehended on the high seas. She is now on her way to Japan by way of Tahiti. The purchase price was over \$1,000,000 in gold. The sale by Chili violates no neutrality law, as Chili has no treaty with China or Japan, and moreover, her sale was to Ecuador, which is also without a treaty with either of the belligerents.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have no much faith in its curative powers, that they offer One Hundred Dollars for any case that cannot be cured. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O.

THE UNITED STATES ARMY

ANNUAL REPORT OF THE SECRETARY OF WAR.

IT SHOWS A SAVING OF \$500,000.

Expenditures for the Fiscal Year Were \$56,039,009; Estimates for the Next Year, \$53,318,629.—On October 1 the Army Numbered 25,773 Enlisted Men and 2,136 Officers—Suggestions.

WASHINGTON, Dec. 3.—The annual report of Secretary Lamont shows a saving of \$500,000 in salaries and contingent expenses in the administration of the war department at Washington, besides economies in the recruiting service, rents, etc. Expenditures for the fiscal year were \$56,039,009; appropriations for the current year are \$53,429,113; estimates for next year are \$53,318,629.

On October 1 the army numbered—officers, 2,136; enlisted men, 25,773; of the latter, for various causes, only 20,114 were effective.

Secretary Lamont earnestly recommends legislation to establish the battalion formation now adopted by the armies of every other civilized nation. To effect that change, he recommends a return to the law of 1870, fixing at 30,000 the limit of the army. By the changes proposed the army will be increased 20 per cent in efficiency, 16 1/2 in numbers and only 6 per cent in cost of maintenance. The actual combative strength will thus become about 25,000, the number now contemplated by law, but which is reduced by detachments and otherwise to about 20,000. It is proposed to add two companies to each of the twenty-five infantry regiments and two batteries to each of the five artillery regiments. No increase in cavalry is proposed.

Seacoast defense may now be prosecuted as rapidly as congress makes appropriations for the purpose, and if these are sufficient the project of the Endicott board can be carried out in twelve and one-half years.

The total cost of finishing the armament of our twenty-eight chief seaports is estimated to be \$20,039,987 for guns, \$9,801,120 for mortars, \$12,500,000 for gun carriages, \$5,233,000 for mortar carriages; a total, including contract work, of \$50,577,248. Annual appropriations of \$4,420,000 will be required for armament during the next twelve years, which will build and mount 683 high power guns and 824 high power mortars. By the end of December we shall have seventy-seven high power guns and fifty-one high power carriages.

Dandruff forms when the glands of the skin are weakened, and if neglected, baldness is sure to follow. Hall's Hair Renewer is the best preventive.

The greater part of the grain imported by Germany comes from Austria-Hungary.

AYER'S Cherry Pectoral

SAVED HIS LIFE So says Mr. T. M. Reed, a highly-respected Merchant of Middletown, Ill., of a Young Man who was supposed to be in Consumption.

"One of my customers, some years ago, had a son who had all the symptoms of consumption. The usual medicines afforded him no relief, and he steadily failed until he was unable to leave his bed. His mother applied to me for some remedy and I recommended Ayer's Cherry Pectoral. The young man took it according to directions, and soon began to improve until he became well and strong."—T. M. REED, Middletown, Ill.

"Some time ago, I caught a severe cold, my throat and lungs were badly inflamed, and I had a terrible cough. It was supposed that I was a victim of consumption, and my friends had little hope of recovery. But I bought a bottle of Ayer's Cherry Pectoral, took it, and was entirely cured. No doubt, it saved my life."—I. JONES, Emerts Cove, Tenn.

Ayer's Cherry Pectoral Received Highest Awards AT THE WORLD'S FAIR

Night Trains Abandoned.

ST. LOUIS, Mo., Dec. 3.—By order of General Manager Doddridge the Missouri Pacific railroad company, after December 9, will take off all night passenger trains on the Kansas and Arkansas Valley division, running between Coffeyville, Kan., and Van Buren, Ark. Mr. Doddridge says the present condition of affairs in the territory resulting from raids and holdups made by the numerous bands of outlaws in that section of the country have compelled him to take this action to protect the passengers of his road. The day trains will run as usual.

Diphtheria Cure Factory Established.

WASHINGTON, Dec. 3.—The officials of the Marine hospital service were yesterday notified that a large firm of manufacturing chemists at Detroit, Mich., is making preparations for the manufacture of anti-toxine, the new remedy for diphtheria, which has created such widespread interest in Europe. This is believed to be the first house of its character in the United States to begin experiments, and already they have taken active steps to scientifically demonstrate its value.

Hawaiian Sugar for New York.

SAN FRANCISCO, Dec. 3.—After January 1 the Western sugar refinery company will begin shipping raw sugar from Honolulu to New York direct by ships sailing around the Horn. It is said that an unusually large quantity is to be shipped East from the Hawaiian islands next year and that, as the Southern Pacific would not make a satisfactory rate on overland shipments, the refinery people will fight the railroad by sea. Hitherto all the Hawaiian sugar has been brought to San Francisco for distribution.

Latslaw Ousted.

KANSAS CITY, Mo., Dec. 3.—Justice Ross Latslaw's face turned very white this morning when he heard Judge Slover's opinion which swept away his claim to two years more in the office of justice of the peace. Judge Slover dismissed the injunction brought by the justice and the order to restrain the county court from issuing a commission to Benjamin Spitz, who was elected Latslaw's successor at the last election, thereby holding valid Mr. Spitz's right to the office.

Mother and Three Children Burned.

CHICAGO, Dec. 3.—The wife and three children of Henry Mudea, a laborer, were burned to-day in their dwelling. One child was dead when taken from the ruins and the others were so badly burned that recovery is impossible. The building was fired by a defective flue.

All Detroit's Schools Closed.

DETROIT, Mich., Dec. 3.—President Clark of the board of education announces that on account of the prevalence of diphtheria, the public schools will remain closed another week.

PURELY MUTUAL

NEBRASKA MUTUAL FIRE, LIGHTNING & CYCLONE INSURANCE COMPANY. Over half million insured. Have paid over \$600,000 in losses. Have had but one assessment, 10c per \$100.00. J. Y. M. SWIGANT, Secretary, Lincoln, Neb. Agents wanted.

Irrigated Farm Lands

FERTILE SAN LUIS VALLEY, COLORADO.

THE SAN LUIS VALLEY, COLORADO, is a stretch of level plain about as large as the State of Connecticut, lying between surrounding ranges of lofty mountains and watered by the Rio Grande River and a score or more of small tributary streams. It was the bottom of a great sea, whose deposits have made a fertile soil on an average more than ten feet deep. The mountains are covered with great deposits of snow, which melt and furnish the irrigating canals with water for the farmers' crops.

The Climate is Unrivaled.

Almost perpetual sunshine, and the elevation of about 7,000 feet dispels all malaria, nor are such pests as chinch bugs, weevil, etc., found there. Flowing artesian wells are secured at a depth, on an average, of about 100 feet, and at a cost of about \$25.00 each. Such is the flow that they are being utilized for irrigating the yards, garden and vegetable crops. The pressure is sufficient to carry the water, which is pure, all through the farmers' dwellings.

Irrigation.

Already several thousand miles of large and small irrigating canals have been built and several hundred thousand acres of lands made available for farming operations. Irrigation is an insurance against failure of crops, because such a question only of the proper application of water to them. The loss of one single corn or wheat crop in Nebraska, for instance, would more than equal the cost of irrigating canals to cover the entire state, so important is the CERTAINTY of a full crop return to any agricultural state. The San Luis Valley will grow

Spring wheat oats, barley, peas, hops, beans, potatoes, vegetables and all kinds of small fruits and many of the hardier varieties of apples, pears and all kinds of cherries.

In the yield of all these products it has never been surpassed by any other section of the continent.

Forty Acres Enough Land.

FORTY ACRES IS ENOUGH LAND for the farmer of ordinary means and help. Besides the certainty of return, the yield, under the conditions of proper irrigation, will average far more than the 160-acre farms in the Mississippi and Missouri Valleys, and the outlay for machinery, farming stock, purchase money, taxes, etc., are proportionately less. There are a hundred thousand acres of such lands located in the very heart of the San Luis Valley, all within six miles of the Denver and Rio Grande Railroad, convenient markets and shipping stations, for sale at \$15.00 per acre. Most of these lands are fenced and have been under cultivation and in many instances have wells and some buildings,—everything ready to proceed at once to begin farming. A SMALL CASH PAYMENT only is required where the purchaser immediately occupies the premises, and long time at seven per cent interest is granted for the deferred payments.

A Specially Low Homeseekers Rate

will be made you, your family and friends. Should you settle on these lands the amount you paid for railroad fare will be credited to you on your payments; and REMEMBER the land is perfectly and THOROUGHLY IRRIGATED, and the land and PERPETUAL WATER RIGHTS are sold you for less than other sections ask for simply the water rights without the land. NO BETTER LANDS EXIST ANYWHERE ON EARTH. For further particulars, prices of land, railroad fare, and all other information call on or address,

F. L. MARY, Manager Colorado Land & Immigration Co., BROWNELL BLOCK, LINCOLN, NEB.

Sulpho-Saline

Bath House and Sanitarium. Corner 14th and M Sts., Lincoln, Neb.

Open at All Hours Day and Night.
