ISURANCE DEPARTMENT

We clip the following from the State Journal of the 14th inst.:

"It is hinted now and then that alively insurance lobby will descend upon the capitol in January to secure if possible the repeal of the valued policy law."

This is not a new feature in Lincoln during the legislative year. Four years ago this same lobby tried to keep the mutual law from being passed, but it

Two years ago this same value in policy law was threatened, but after looking the ground over it was decided

to postpone that part for the time being.
Now if this kid-gloved gentry think
that because the majority of both houses
is Republican they can handle them in
the interest of all monopolies, they are
surely mistaken, as several Republican
members have an education in mutual insurance, and any one who has made a study of insurance subjects will without doubt do valiant work in the interest of the whole people instead of for the insur-

ance companies.

And further, the legislature will be called upon to pass a law that will allow people who live in town to organize mutual companies in which to insure their their property and thus save many thousands of dollars that now go to pay such lobbyists for working against the interest of the people, to say nothing of the large salaries and fees paid to officers and employes, and dividends paid, many of them amounting to several hundred of them amounting to several hundred per cent of the amount of cash invested by the stockholders. Below we give copy of a bill to be introduced in the coming legislature. We see some defects, but will ask for criticism. We want to get a bill ready and have the ideas of several men, but would like to hear from more.

All laws should be short and concise. How does this suit you? Please let me hear from all at once. hear from all at once:

PROPOSED LAW.

Be it enacted, etc.: SECTION 1. That any number of persons may organize and incorporate a mutual insurance company, indemnify each other against damage by fire, light-ning, cyclone, tornado, windstorms, or

SEC. 2. Such companies shall file articles of incorporation with the auditor of public accounts, and also make annual statements to him.

SEC. 3. The auditor, upon examination of such articles of incorporation, if in compliance with the laws of Nebraska, shall issue to such company a certificate

of authority to do business.

SEC. 4. The fees to the auditor shall be for examination of articles of incorporation and issuing certificate of authority, ten dollars. For examining report and issuing certificate of authority to the company, one dollar. For issuing agents' certificates, twenty-five cents.

Timely and to the Point Editor WEALTH MAKERS:

Your article last week entitled: "Not a Demo-pop Governor" was timely and to the point. It is time for us to inquire where we are. We are on record away feared that some of our nominees for office went further than the record would warrant them in committing the party to such a course, and it is to be feared

that they got some very unwise counsel in this connection from Senator Allen, to whom they very naturally looked for guidance, and it may be that he led them into it without their asking him for counsel. In any event it is time that we counselled together in the hope of secur. ing light enough and sense enough to avoid any more of that kind of nonsense I do not like to give it any harder name; ecause when its most ardent votaries look over the late battlefield it ought to make them sick enough. When the chairmas of our state central committee advised some of our people to vote for the other fellows nominees, we thought it a new and peculiar deal; but were some-what relieved when he announced that the bright idea was evolved after consulta-

tion with Senator Allen. And, while this inquiry is progressing, we would like to ask how the Populist party became sponsors at the baptism of that hybrid offspring, the Wilson-Gor-man edition of the McKinley Bill minus eleven per cent and not enough revenue without taxing sugar? And how many of our people heard Senator Allea point with apparent pride to this child of Populist production? Yes, it is about time we took some note as to where we are. No, we did not get lost in the whirl; but we got badly broken up. Men and breth-ren, we must have better leadership, or we must go it alone. Speak up!

WASHINGTON, Dec. 10. - Chairman Babcock of the Republican congressional committee says the report sent out from Washington that the committee was sending circulars to intending Republican contestants in the next house, telling them that their cases will be considered only on their merits, is a fake, pure and simple. "The campaign committee has nothing to do with contests," said Mr. Babcock.

Hogs Feeding on a Human Body.

ARDMORE, Ind. Ter., Dec. 3 .- Whit Ross, a white man, unmarried, 22 years old, was murdered at the home of H. Harrison McLane, a full-blood Indian, last night. Officers arrested McLane and his brother-in-law, a white man named Robert Linn, charging them with the crime. Hogs were eating the dead man's hand when found. McLane is permit collector for the Chickasaw government.

A Satisfactory Fire.

While Lord Coleridge was on his way to Chicago, an interviewer, failing otherwise to draw him out, began to belittle the old country. Lord Coleridge bore it all patiently; finally, the interviewer said: "I am told, my lord, you think a great deal of what you call your great fire of London. Well, I guess that the conflagration we had in the little village of Chicago made your great fire look very small." To which Lord Coleridge blandly responded: "Sir. I have every reason to believe that the great fire of London was quite as great as the people at that time desired."-Argonaut.
