

SEE HIM "SWAT 'EM" BOTH.

There is no hope of relief from the conditions that now curse the American people, until both of the old parties have been destroyed. They are the willing and subservient tools of corporate power, and are utterly unable to perform a single noble and patriotic act. This is the sentiment that is breathed forth by every line and picture in Vox PopuLI, the illustrated Populist paper that is now producing such a political sensation throughout the United States, and from the columns of which the above cut is taken.

VOX POPULI is a 16-page publication, and more than half of each issue is given over to Pictures and Striking Cartoons. The statistical matter of each single number is worth more than the subscription price for an entire (year (\$1.00). The circulation of VOX POPULI is general throughout the United States. Every leading Populist takes it. In the campaign of 1895-6 it will appeal to the eye and the intellect of more people than any other journal in the nation. Whether poor or well-off, you cannot afford to do without VOX POPULI. Single copies are sold at 10 cents, but any subscriber to the paper in which this advertisement appears, who wishes a sample copy, can get the same by stating that they are subscribers and sending 4 cents in stamps to cover postage, etc., to VOX POPULI, St. Louis, Mo. HERE WEATHIEL MEAREDISS

PEOPLE'S PLATFORM.

Adopted by the Convention at Omaha Nebraska, July 4, 1892.

Assembled upon the one hundred and lxteenth anniversary of the Declaration of Independence, the People's Party of America, in their first national convention, invoking upon their action the bleasings of Almighty God, puts forth in the name, and on behalf of the people of the country, the following preamble and declaration of principles: The conditions which surround us best

The conditions which surround us best justify our co-operation; we meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot box, the legislatures, the Congress, and touches even the ermine of the bench. The people are demoralised; most of the states have been compelled to isolate the voters at the polling places to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled; public opinion subsidized or muzzled; public opinion silenced; business prostrated; our homes covered with mortgages; labor impover-ished; and the land concentrating in the hands of the capitalists. The urban workmen are denied the right of organi-sation for self-protection; imported pau-perized labor beats down their wages; a hireling army, unrecognized by our law, is established to shoot them down; and they are rapidly degenerating into Europ they are rapidly degenerating into Euro-pean conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind, and the pos-sessors of these in turn despise the re-mathing and and any set liberty. From the public and endanger liberty. From the same prolific womb of governmental in-justice we breed the two great classestramps and millionaires.

The national power to create money is appropriated to enrich bondholders; a vast public debt, payable in legal tender currency, has been funded into gold-bear-ing bonds, thereby adding millions to

the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold, by decreasing the value of all forms of property, as well as human la-bor, and the supply of currency is pur-posely abridged to fatten usurers, bankrupt enterprise, and enslave industry. A vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsions, the destruction of civilization, or the establishment of an absolute despotism. We have witnessed for more than a quarter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influence dominating both these parties have permitted the existing dreadful conditions to develop, without serious effort to prevent or restrain them.

Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming cam-paign, every issue but one. They pro-pose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff; so that capitalists, corporations, national banks, rings, trusts, watered stock, the demonstization of silver, and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of Mammon; to destroy the multitude in order to secure corruption funds from the millionaires. Assembled on the anniversary of the birthday of the nation, and filled with the spirit of the grand generation of men, who estab-

will either own the people or the people must own the railroads; and should the government enter upon the work of owning and managing the railroads, we should favor an amendment to the con-stitution by which all persons engaged in the government service shall be pro-tected by civil service regulations of the most rigid character as as it to promot most rigid character, so as to prevent the increase of the power of the national administration by the use of such additional gonernment employee. TWO KILLED AND SIXTEEN INJURED;

FINANCE.

We damand a national currency, sale, sound and flexible; issued by the general government only; a full legal tender for all debts public and private; and that without the use of banking corporations; a just equitable and efficient means of distribution direct to the people, at a tax not to exceed 2 per cent per annum, to be provided as set forth in the sub-treasury plan of the Farmers' Alliance, or some better system; also by payments in discharge of its obligations for public

improvements: We demand free and unlimited coinage of silver and gold at the present legal ration of 16 to 1.

We demand that the amount of cir-culating medium be speedily increased to not less than \$50 per capita. We demand a graduated income tax.

We believe that the money of the country should be kept, as much as pos-sible, in the hands of the people; and hence we demand that all state and national revenues shall be limited to the necessary expenses of the government, economically and honestly administered. We demand that postal savings banks

be established by the government for the safe deposit of the earnings of the people and the facilitation of exchange.

TRANSPORTATION.

Transportation being a means of exchange and a public necessity; the gov-ernment should own and operate the railroads in the interest of the people. The telegraph and telephone, like the postoffice system, being a necessity, for the transmission of news, should be owned and operated by the government in the

interests of the people.

LANDS. The land, including all natural resources of wealth, is the heritage of the people, and should not be monopolized for speculative purposes; and alien owner-ship of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs, and all lands now owned by aliens, should be reclaimed by the gov-ernment and held for actual settlers only.

RESOLUTIONS.

The following resolutions were offered independent of the platform, and were adopted, as expressive of the sentiments of the convention:

Resolved, That we demand a free ballot and a fair count in all elections, and pledge ourselves to secure to it every legal voter without federal intervention, through the adoption by the states of the unperverted Australian secret ballot system.

Resolved, That the revenue derived from a graduated income tax should be appued to the reduction of the burden of taxation now levied upon the domestic me dustries of this country.

Resolved, That we pledge our support to fair and liberal pensions to ex-Union soldiers and sailors.

Besolved, Thas we condemn the fallacy

of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world, and crowds out our wage-earners and we denounce the present ineffective law against contract labor, and demand

HILL'S POLITICAL HISTORY OF THE UNITED STATES.

By Thomas E. Hill.

This is a large octavo book of 450 pages, condensed by tabulation into a small book that it may be universally sold and circulated at a low price.

Its purpose is to clearly present, in a manner entirely non-partisan, the merit attaching to each party. No partiality is shown in behalf of any political organization. Like the dictionary, it simply defines. It gives the best-known argument in favor of each, and leaves the reader free to choose which he will serve.

It treats upon the important live issues of the time, and is an indispensable work to people who would intelligently discuss the political situation. It is a very exhaustive compendium of Political Facts, and literally answers thousands of questions. To illustrate:

lished our independence, we seek to restore the government of the Republic to the hands of "the plain people," with whose class it originated. We assert our purposes to be identical with the purpose of the national constitution:-"to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty ourselves and our posterity.'

We declare that this republic can only endure as a free government while built upon the love of the whole people for each other and for the nation; that it cannot be pinned together by bayonets, that the civil war is over and that every passion and resentment which grew out of it must die with it; and that we must be in fact, as we are in name, one united brotherhood. Our country finds itself confronted by conditions for which there is no precedent in the history of the world. Our annual agricultural productions amount to billions of dollars in value, which must within a few weeks or months be exchanged for billions of dollars of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange. The results are falling prices, the formation of combines and rings, and the impoverishment of the producing class. We pledge ourselves that if given power we will labor to correct these evils by wise and reasonable legislation, in accordance with the terms of our platform.

We believe that the powers of government-in other words, of the peopleshould be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people, and the teachings of experience, shall justify; to the end that oppression, injustice and poverty shall eventually cease in the land.

While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions-important as they are-as secondary to the great issues now pressing for solution; and upon which not only our individual prosperity, but the very existence of free institutions depends; and we ask all men to first help us to determine whether we are to have a republic to administer, before we differ as to the conditions upon which it is to be administered; believing that the forces of reform this day organized will never cease to move forward until every wrong is righted and equal privileges established for all the men and women of this country. We declare, therefore,

UNION OF THE PEOPLE.

First, That the union of the labor forces of the United States this day consummated, shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

Second. Wealth belongs to him who creates it; and every dollar taken from industry, without an equivalent, is rob-bery. "If any man will not work neither shall he eat." The interests of rural and civic labor are the same; their enemies are identical.

Third. We believe that the time has come when the railroad corporations

the further restriction of undesirable immigration.

Resolved, That we cordially sympathize with the efforts of organized workingmen to shorter the hours of labor and demand a rigid enforcement of the existing eight-hour law on government work, and ask that a penalty clause be added to said law.

Resolved, That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties, and we demand its abolition, and we condemn the recent invasion of the Territory of Wyoming by the hired assassing of Plutocracy, assisted by Federal officers. Resolved, That we commend to the thoughtful consideration of the people and the reform press, the legislative sys-tem known as the Initiative and Referendum.

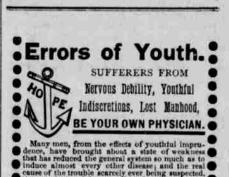

Resolved, That we favor a constitutional provision limiting the office of a president and vice president to one term, and providing for the election of the senators by a direct vote of the people. Resolved, That we oppose any subsidy or national aid to any private corporation for any purpose.

severely hurt.

Six cattle cars left the track and almost every head of stock in them were either killed or injured. It is estimated that seventy head of cattle were killed. Immediately after the wreck trainmen walked to Guthrie and took a yard engine to the scene of the wreck. The killed and wounded were placed on board the coaches and the train was brought back to Bear Ridge mine at Mahanoy Plane Guthrie at 2:50 o'clock yesterday morning. Freight Engineer Upleby remained with his engine and was horribly mangled while has fireman, A. Hahn, jumped and escaped with a broken arm. The scene at the wreck is terrible.
