SHIP YOUR WOOL

Direct to market. It is the only way to get its full market value, if you ship to the right house. Our shippers testify almost unanimously that ours is the right house. The case has been tried by a jury of more than one thousand prominent wool growers and a verdict rendered. We have been found guilty of selling other peoples' wool at a higher price than they could get at home and making prompt returns. The verdict has created consternation among Wool Houses here, but rejoicing among wool growers. We receive more shipments of wool direct from the growers than any house in this market. We make quicker sales and quicker returns than any house in this market. Don't dispose of your wool until you write for our Wool Report, giving prices and the verdict of the jury over their own signatures. Sacks furnished FREE.
