

WHEN THE WAR ENDED.

Important Decision Bearing on the Pension Rights of Soldiers. Washington, June 8.—Another decision has been rendered by Assistant Secretary Reynolds bearing on the question of the date of the termination of the civil war and the pensionable rights of soldiers enlisting in 1865 and 1866.

SPEAKERS FOR SILVER.

List of Notables to Be at the Memphis Convention. Memphis, Tenn., June 8.—The arrangements committee of the silver convention to meet at the Auditorium next Wednesday have announced that the following speakers had accepted invitations to address the convention:

BANKER CASSATT ARRESTED.

Failure of the Pella National Bank Assuming a Serious Look. Des Moines, Iowa, June 8.—Ex-Senator E. R. Cassatt, until recently the president of the First National Bank of Pella, arrived here yesterday on the Rock Island train with United States Marshal Gray.

OLD MINE CAVES IN.

Several Buildings Badly Damaged at Scranton, Pa. Scranton, Pa., June 8.—An extensive mine cave-in in the old workings in the northern section of this city badly damaged several dwellings yesterday and caused the occupants of many of the houses to flee in their nightclothes.

Ordered Out of Town.

Tuskogee, Ala., June 8.—Twenty of the most prominent citizens of this place called on the Rev. Mr. Kelly, a white man from Ohio, last evening, and informed him that his presence was obnoxious, and that he must leave on the first train or abide the consequences.

Statue to Sir John Macdonald.

Montreal, Que., June 8.—A great popular demonstration took place yesterday at the unveiling of the Sir John Macdonald statue. It was the fourth anniversary of his death.

Presidential Appointments.

Washington, June 8.—The President has appointed William H. Pugh of Ohio to be auditor of the treasury for the navy department, to succeed C. B. Morton of Maine, who was removed, and Edward A. Bowers of the district of Columbia, to be assistant comptroller of the treasury, to succeed Mansur of Missouri, deceased.

Fighters to Meet Again.

Syracuse, N. Y., June 8.—Tommy Ryan has received a dispatch from "Mysterious" Billy Smith, agreeing to fight to a finish, the winner to take all the purse. The two men will meet in Boston or New York within a few days to close the negotiations.

Traveling Men Adjourn.

San Antonio, Texas, June 8.—The last day's session of the National Travelers' Protective association was held yesterday. John A. Lee of Missouri was elected president. Terre Haute was selected as the meeting place of the next convention.

Samuel Gompers Better.

Little Rock, Ark., June 8.—Samuel Gompers, the labor leader, who has been confined to his hotel in this city with gastritis, is slightly improved, and his physician states that he is in no immediate danger.

POLITICAL.

Illinois democrats in convention at Springfield, adopted resolutions favoring the coinage of silver at a ratio of 16 to 1. It was also given as the opinion of the delegates that a national monetary convention should be called, not later than August, 1895. At the Iowa non-partisan silver convention resolutions demanding the coinage of silver at a ratio of 16 to 1, "without the consent of any nation on earth," were passed.

FOREIGN.

Russia is said to be negotiating with Paris bankers for a loan of \$16,000,000, to be paid to China with Russia as security. The university of Oxford, England, will challenge the athletes of Yale to an international contest. The mayor of Southampton, England, gave a lunch in honor of the officers of the United States and Italian warships.

CASUALTIES.

By the explosion of a dynamite cartridge used in excavations at Erie, Pa., Charles Harrity was killed and four men badly injured. The mammoth demonstration of students arranged for at the tomb of Gen. Helcher Campos in the City of Mexico as a protest against the return of Gen. Leonardo Marquez, the imperial exile, was broken up by the police.

CRIME.

Ex-Senator Cassatt of the Pella, Ia., national bank, has been arrested on a charge of fraud. James Powell, colored, of Strauburg, Ala., was lynched by a mob for attempted assault on a white girl aged 15. State Senator Buck of California, who is dead, is charged by police of San Francisco with the murder of Miss Harrington.

William H. Russell, an evangelist of Savannah, was given three years in the penitentiary by Judge Rorris of Baltimore for perjury in denying his wife and his marriage. Henry P. Schwartz, a merchant and a member of the firm of Charles W. Schwartz & Co., carpet manufacturers, Philadelphia, Pa., committed suicide. Continued illness was the cause.

John Mullock of Fountain Hill, Pa., was shot and instantly killed by Jacob Lucky in the presence of the former's 11-year-old son. The murderer then committed suicide.

Tinney McMillan (Mrs. Mark) was examined before a United States commissioner at Buffalo, N. Y., on the charge of selling counterfeit stamps. Chicago persons appeared as the witnesses against her.

Daniel Wishart, a farmer of Michigantown, Ind., hung himself from grief for loss of his wife and child. At Vincennes, Ind., Mrs. Louisa Jordan, divorced wife of Aaron George Jordan, of Decker, has been sentenced to two years in the state female prison. She was recently tried and convicted for burning a grist mill belonging to Jordan & Lane, at Decker, last July.

Four members of the San Francisco, Cal., civic federation have been arrested on a charge of criminal libel. The complainant is Dr. Marie Livingston, candidate for health officer, upon whom the federation had been making war.

Valentine Weissman, living in a suburb of Evansville, Ind., in a fit of insane jealousy, fatally cut his young wife and baby and was barely saved from lynching.

POINTS FOR THE PEOPLE.

—The men who create wealth ought to be able to exchange it, without paying tribute to the men who own money. —Law has demonetized gold, has demonetized silver, has remonetized gold, has remonetized silver. Law makes money. —Japan had more sense than we did. She refused to adopt the gold standard and thus mortgage herself to the Rothschilds.—Star and Kausan. —Secretary Carlisle is kept so busy explaining his own record on the silver question that he has little time for aggressive work on the gold-bug side.—Brockton Diamond. —It would be just too perfectly awful for the government to go into the "banking business" of making loans to the people. That is, it would be for Shylock.—Chicago Free Trader. —When thirty thousand men own half the wealth of a nation of sixty million people, it hardly looks fair to apportion taxes in proportion to population. The thirty thousand who own half the property should pay half the taxes.—Industrial Advocate.

—Usury is one of the greatest curses with which this country is afflicted. It is merely a question of time, unless there's a radical change in legislation, when the few will own the entire country and the many will be tenants and serfs.—Chicago Free Trader. —The Tennessee Populist talks to suit the boys in this part of the woods when it says: "It will be late in the day when populists switch off with a free silver democratic party. That party has fooled the people once about free silver."—Ripley (Tenn.) People's Advocate. —There appears to be one judge on the United States supreme bench not owned by the gold ring. That judge is Judge Harlan. His dissenting opinion in the income tax decision should be published by the millions and scattered broadcast among the people.—Denver Road.

—The "sound money" fellows mean a gold standard when they speak of "sound money," but they haven't the courage nor the honesty to say so. They mean the entire wiping out of government paper money and of silver. Strange the fool people do not wake up.—Chicago Free Trader. —Nothing is "redeemed" with gold and silver—no more redeemed than was Kansas last fall by the republicans. The gold and silver must be redeemed in food, clothes and shelter—and the republicans can be redeemed only by honesty and by earning their salaries in good service to the people.—Industrial Advocate.

—Carefully notice that the old republicans and democrats are not deserting their party to form a silver party. They are all waiting for some one else to do the "leaving," they do the shouting. The people's party stands one hundred per cent. for free and unlimited coinage of gold and silver at the ratio of 16 to 1, and it is the only silver party.—Pueblo (Col.) Reform Press. —Once before in American history the supreme court covered itself with infamy by an 8 to 7 decision that denied justice and seated in the presidential chair a man whom the people had rejected. But there remained a lower depth which it reached in its recent 5 to 4 decision that the poverty of the country must pay the taxes to protect its wealth.—Star and Kansan.

—If the United States government should take a piece of paper and on one side of it print "United States of America: ten dollars," and on the other side: "This bill is a legal tender for all debts, public and private," it will do the same work at all times and in all places that a ten-dollar gold piece will do. And there is not a man in the world who can logically refute the proposition. If so, then let us all fight for a scientific currency.—C. W. Stewart, in Our Nation's Crisis.

—To those who believe in a "money of the world" we will submit a question or two. Is it the money or is it the gold that those foreigners want? If the weight of pure gold were stamped on the piece wouldn't the foreign bankers take it just as readily as if it said "one eagle"? Then what is the use of putting the money stamp on gold for export? When the ten-dollar gold piece goes abroad we have lost ten dollars from our circulation. When the same amount goes abroad without the money stamp it pays as much foreign debt and leaves us with no less money than we had before, what good then is the money stamp for foreign use?—Sledge Hammer.

Those Unused Dollars. Secretary Morton writes a public letter against silver, in which he tells how many silver dollars are in the treasury "unused"; but he neglects to state how many pieces of paper have been issued by the government and placed in circulation to represent that "unused" silver, and which are redeemable in this "unused silver." All the gold in the national banks and the gold reserve in the treasury is "unused" in the same sense in which Secretary Morton speaks of "unused" silver. Such an argument as this is sure to react upon the side that uses it. His statement that silver doesn't circulate makes a good argument for paper money.—Brockton (Mass.) Diamond.

Respectable Gamblers. Last Monday "Plunger Linn" "made," it is said, \$1,000 a minute for fifteen minutes by dumping five hundred thousand bushels of wheat on the Chicago board of trade when wheat was selling at 74c, sending the price down two cents in a jiffy, then buying the same wheat back and selling it again at the advanced price his plunging caused. They have a high-toned society in Chicago to suppress gambling, but they never think of nosing around the Chicago board of trade. It's the nickel-ante-gamblers and the little niggers playing craps in back alleys that engage the attention of the great Chicago civic federation.—Chicago Express.

PRaise, ONLY, FROM ALL WHO USE AYER'S Hair Vigor

"Ayer's preparations are too well known to need any commendation from me; but I feel compelled to state, for the benefit of others, that six years ago, I lost nearly half of my hair, and what was left turned gray. After using Ayer's Hair Vigor several months, my hair began to grow again, and with the natural color restored. I recommend it to all my friends."—Mrs. E. FRANKHAUSER, box 305, Station C, Los Angeles, Cal.

AYER'S Hair Vigor PREPARED BY DR. J. C. AYER & CO., LOWELL, MASS.

A DEAD GIVE AWAY.

The Value of Gold Would Decline If Gold Was Treated as Silver Is.

Silver recently took a raise, "mostly due to an armistice between Japan and China." The gold-bug Chicago Tribune, in speaking of it, says: "But it is not unlikely the increasing probabilities that an international monetary conference will be held shortly helped to make the holders of silver more firm in their views in regard to the future selling value of the white metal, for there is good reason to believe that at least a considerable part of the decline of the last twenty years was owing to the cessation of a coining demand for it."

The Tribune has been doing its level best to lessen the coining demand for silver, and has been howling about the "cheap" dollar—and now, accidentally, perhaps, it lets the kitten out of the bag. "For there is reason to believe that at least a considerable part of the decline of the last twenty years was owing to the cessation of a coining demand for it."—Chicago Free Trader.

Insolvency of the Banks.

While the national bankers and chambers of commerce are figuring on Uncle Sam's inability to float his financial system without foreign intervention, they could relieve the situation of embarrassment if the bankers would explain to the people how they manage to survive. The report of the secretary of the treasury, October 3, 1894, gives the amount of money in existence in the United States, outside of the treasury, as \$1,672,093,422. Amount owed by bankers to depositors, \$1,728,418,519.12. Amount cash on hand, \$422,428,192.45. If a demand was made they could pay only 23 per cent of the deposits. The Morehead Daily News thinks if the average citizen will allow his mind to ruminate upon these figures he will conclude that the whole gamut of banks is insolvent.—People's Party Paper.

MAKE YOUR OWN BITTERS

On receipt of 30 CENTS in U. S. stamps, I will send to any address one package Steketee's Dry Bitters. One package makes one gallon best tonic known. Cures stomach, kidney diseases, and is a great appetizer and blood purifier. Just the medicine needed for spring and summer. 25c at your drug store. Address, GEO. G. STEKETEE, Grand Rapids, Mich.

WHEAT HAS A FALL.

Price at Chicago Drops Early, But Has a Rally Later. Chicago, June 3.—The wheat market on the board of trade was pounded fearfully by the "bears" to-day, assisted by the "bulls," who desired to realize on their purchases made at lower levels, and the result was a decline of 2 1/2c a bushel before the hammering process was stopped. Wheat closed Saturday at 79 1/4c and opened nervous and excited at 79 1/2c. The opening quotation was the highest of the day. Within three minutes the props were knocked from under the market and wheat was selling at 78 3/4c. Then the crowd jumped in and stamped it down to nearly the lowest point it has reached for days. The trading was heavy only in spots, but the pit was wild. There was noise and shouting when 78c was passed. It was a tumult and riot when the 76c mark was wiped out. Brokers were widely divided in their opinion of the future, and men touching elbows predicted, the one 65c and the other dollar wheat.

Corn was almost as badly hit as wheat. It opened at 52 1/2c to 52 3/4c, as against the close on Saturday of 52 1/2c. The corn traders were in sympathy with the wheat crowd, but they had better reasons for breaking the market. Every one had corn to sell, but few seemed to want it, and in short order the quotations went down with a whirl to 50 1/2c. There was a substantial rally in the last half-hour, and the closing prices were: Wheat, 78 1/2c; corn, 51 1/2c; and the market was strong at these quotations.

Locust \$1.25 Per 1,000. Shade and Ornamentals, complete Price-List free. Address, Jansen Nursery, Jefferson Co., Jansen, Neb. GEO. G. STEKETEE, Grand Rapids, Mich. WHEAT HAS A FALL.
