THE LIGERALS ARE OUT.

LORD ROSEBERY'S GOVERNMENT STEPS DOWN AND OUT.

LORD SALISBURY CALLED.

The Queen Accepts the Resignation of the Ministers Without Regret-Sir William Vernon Harcourt Makes the House of Commons-Other Foreign News.

LONDON, June 25 .- It was announced in the Court Gazette yesterday that as a result of the defeat of the Liberals in the house of commons Friday on a motion to reduce the salary of the secretary of state for war because of deficiencies, Lord Rosebery, at his interview with the queen Saturday evening tendered the resignations of himself and his ministers to the queen and her majesty at once summoned Lord Salisbury, leader of the Conservatives, to Windsor to consider the formation of a Conservative ministry. This after-noon it was officially announced that Lord Salisbury had accepted the task of forming a new cabinet. Speaker William Court Gully took

the chair in the house of commons at 3 o'clock and soon afterward the secretary of state for war, H. Campbell-Bannerman, entered amid prolonged Liberal cheers. Mr. Balfour followed and was greeted with vigorous cheers from his supporters.

At 3:30 o'clock the chancellor of the exchequer, Sir William Vernon Har-court, entered the house and the Liberals rose in a body and cheered him to the echo. The supporters of Mr. Chamberlain made a similar demonstration when the Unionist leader en-

Sir William Vernon Harcourt said: "It is my duty to make the announcement to the house that the division of Friday last was a vote of censure of the secretary of war, than whom never more able, respected or popular minister held office. The government, of course, associated themselves with their colleagues and, feeling that they were unable to pass the votes for supply, the government resigned and their resignation was accepted. Under ordinary circumstances it would have been incumbent to move an adjournment, but the seals fishery bill must be passed before July, and when it has passed its third reading the government will move the adjournment of the house.

The chancellor of the exchequer then thanked his supporters and acknowledged the consideration showed to the government by its opponents. Tears were in the eyes of Sir William when

he uttered the last words. Mr. Balfour criticised the conduct of the government. He said he thought the constitutional manner of proceed-ing would have been to advise the queen to dissolve parliament instead of throwing the burden of continuing the government on the opposition.

At 2:22 o'clock the house went into third reading and adjourned.

It was rumored shortly afterward that Sir William Vernon Harcourt would not present himself as a candidate for re-election and that the concluding words of his thanks to the house of commons were in reality a valedictory.

Few were present in the house of lords when Lord Rosebery rose at 3:45 o'clock to announce the resignation of the cabinet. The prince of Wales, the duke of York and the duke of Cambridge sat on the crown's bench. The galleries were crowded with peeresses and a number of members of the house of commons were present in order to hear the statement of the retiring pre-

Lord Rosebery, amid deep silence, said: "I desire to make a very brief statement which the house has undoubtedly anticipated. After the vote of the house of commons on Friday, which was practically a vote of censure on the secretary of war on a ques-tion of national defense, immediately after there had been laid before the house a great scheme for military organization, the government felt it their duty to place their resignations in the hands of the queen. Their resignations were accepted and the government will hold office until their uccessors are appointed."

The Earl of Cranbrook, Conservative, said that the Marquis of Salis-bury, had desired him to say that he wished the house to adjourn until to-

Lord Rosebery remarked that there was only one very important bill, the seal fisheries, which would be proceed-ed with, and he expressed the hope that it would pass all its stages to-mor-

The Daily News (Liberal) says: "The queen accepted Earl Rosebery's resignation, as she accepted Mr. Gladstone's, without any expression of re-luctance with which she favored Lord Salisbury."

Appointments by Governor Stone. JEFFERSON CITY, Mo., June 25 .- Governor Stone to-day made the following appointments: James Bannerman and Otto E. Forster, police commisssoners of St. Louis; Charles Evans, state coal mine inspector; Francis A. Legrave, state inspector of lead and zinc mines. The latter two were reappointments.

Husband and Wife Murdered.

BARBOURSVILLE, Ky., June 25 .- Word has been received here that Gus Loeb and his wife Julia, Hebrew peddlers, were murdered in Harlan county yesterday by masked men. Robbery was the only cause for the crime. The murderers have not been captured.

Evidence to Be Printed.

WASHINGTON, June 25 .- Clerk Kerr of the house to-day sent the evidence in the Van Horn-Tarsney contested election case to the public printer and, in accordance with the terms of a new stipulation sent on by counsel, accomplice, a man named Hilton, who all the evidence on both sides will be has confessed, implicating Oldham.

From Honolulu to Monterey, Cal., the Latest Route Suggested.

WASHINGTON, June 25.-An Australian company not organized in the interest of the British government proposes to lay a cable by way of Honolulu to Monterey, Cal., providing the United States will assist, or the company will agree to sell to the United States that part of the cable from Honolulu to California at the cost of construction. Audley Coole, of Australia, now at Honolulu, sends word that he will be here at the beginning of the next session of congress to push the matter. The first link in this cable has already been laid from Australia to New Caledonia. Mr. Coole sends word that his company is prepared immediately to proceed with laying the cable from California to Honolulu. The company regards Honolulu as the natural center of Pacific cable lines.

While expressing the highest respect for the Hon. Sanford Fleming and his associates who are back of the exclusively British cable scheme, Mr. Coole regards the plan as chimerical of making Fanning's Island the first station from Victoria to Australia. The length of such a line, allowing for slack, would be 3,000 miles. The longest existing cable now does not exceed 2,300 miles. Such a length will require a cable of excessive weight and conducting power, costing double the price of one from Monterey to Honolulu. Honolulu is also the natural point for a olulu is also the natural point for a branch line to Japan. England de-sires and insists on exclusive ownership of telegraphic connection between her Pacific colonies. Such desire must be extremely urgent, Mr. Coole says, to induce going by Honolulu to roost on such an inaccessible rock as Neckar Island or on such a desolate i-land as Fanning's. In this case England makes her military interests superior to her commercial interests.

BRECKINRIDGE'S HOPES.

Believes That He Has a Chance to Be-

LEXINGTON, Ky., June 25.-The Breckinridge men, who believe that the silver-tongued orator of Madeline Pollard fame has a fighting chance to be elected to the United States senate, are doing all they can to defeat Blackburn. They are determined to elect Breckinridge representatives from every county in the Seventh dis-trict, at least, and if the Democrats succeed in electing any legislators from Eastern Kentucky, nearly all of them can be counted on as being for Breck-inridge. The removal of a Blackburn man from a place in the revenue service in order to make room for Desha Breckinridge, a son of the colonel, has brought about an almost open ruption between the two factions.

TO BE PROSECUTED.

Kansas Ex-Warden of the Penitentiary Charged With Misusing Funds.

TOPEKA, Kan., June 25 .- Ex-Warden Chase is to be prosecuted by state officials for misappropriation of public funds. When the legislative commitand Deputy Warden Markham was installed as warden. For several years Oklahoma has been keeping prisoners fusion before it was born, and even on committee on the seals fisheries bill in the Kansas penitentiary on con-and after a brief debate passed it to sion he went to Guthrie and collected \$2,300, part of which he used in paying the salaries of himself and members of his family. Under the law this is misappropriation of public funds, and state officials will institute criminal proceedings against the ex-warden.

Work for the Dawes Commission.

SOUTH MCALESTER, Ind. Ter., June 25.—The Dawes commission, consisting of Messrs. Armstrong, Cabaness, Montgomery and McKennon, accompanied by Allen R. Boyd, private secretary to the commission, arrived in first work will be to try and induce the Indians to grant titles to town sites and permit the incorporation of towns and cities. Then they will consider the allotment question.

Woman Horse-Thief.

St. Joseph, Mo., June 25 .- A woman horse-thief is wanted by the officers of this and adjoining counties. Last night William and Joseph Miller lost a valuable team, which was left unhitched in front of a saloon just north of the city. To-day a woman was seen driving the team headed for the Iowa line. Officers are after her. She is believed to be the same person who has run off valuable stock from Dekalb county.

Have Certain Men Deliberately Bargained Democracy?

Commenting upon the action of the Iowa populist convention the Des Moines Leader says:

"Some of the most influential leaders of the populist party, who had been encouraged by the apparent growth of the silver sentiment among democrats and republicans, had devised a plan of campaign which involved two principal points and upon which it has hoped to carry the state: First, an expression from the populist convention that as it considered the silver question the leading one before the people and the par-ticular reform which should be attempted, the populists of the state were willing to combine with any party in Iowa which would also declare for the free coinage of silver at 16 to 1; second, that the nominee of the convention should be a free silver democrat, whose nomination the democrats of Iowa, at Marshalltown, with some show of consistency, could indorse. The candidate who was selected for this double candidacy was no less a person than ex-Congressman White. This plan was laid before leading silver democrats and had their indorsement. They were to work to capture the democratic convention, while Gen. Weaver and his friends attended to the populist convention. The details of this conspiracy, if such it may be called, have never heretofore been published, but that it existed those concerned will hardly care

"The defeat, therefore, in the populist convention of the leaders who were engineering the plan promises to have effect upon the politics of the state more than appears from the record. It means that it will be impossible for the silver leaders of the democratic party to say to the Marshalltown convention: 'Here are the populists, about 30,000 in number, whom you can get for your nominee if you will indorse the free coinage of silver.' It implies that the first and the vital step in the programme has failed; that the carefully built house of cards has toppled over. Whether the democrats nominate a gold monometallist or a silver monometallist, adopt free coinage of silver,

or indorse the national democratic platform, or whatever other course may be pursued, the populist strength will be given to the populist candidates. The populists have declined in advance to be caught by the free silver bait, and the planners who have been so industriously at work for the last two or three months have for sale a badly battered second hand scheme.

"It will be easily seen that the talk which has been going on in the populist newspapers concerning the candidacy of Sibley, of Pennsylvania, has been the cloak which concealed the real purpose herein outlined. Sibley does not run until next year, anyway, but under cover of a single plank movement for him, it was hoped to make the way clear for a fusion between the democrats and populists of Iowa upon a free silver platform. As tee was appointed to investigate the situation now is, the democratic Chase's management of the prison, he convention, which is to meet at Marwas suspended by Governor Morrill shalltown, has had taken away from it the lowest plane of politics one of the strongest pleas for the indorsement of free coinage has been removed. From the standpoint of political expediency and the mere capture of votes there is not the argument for a free silver platform that existed last week."

MONEY.

It Is the Creation of Law-Its Use in Trade.

Money is a device, a system or thing thought out by men. to make barter, a trading of one thing for another. easier. A trade made with paper tokens is just as good, just as fair, just as valid as a trade made by gold or the city to-day and will make South as valid as a trade made by gold or McAlester their headquarters. Their made direct. It is illogical to say money must have intrinsic value, for that would mean trading a horse for its value in gold, which is barter of commodities, for the horse seller did | 21, 1878. not want gold, but something to use. If the token must have value as a protection against loss then why not have diamonds a legal tender for large T. DeWitt Talmage, who is engaged amounts (fools think diamonds have great value) because they would be and to which Sunday excursions are easier to carry than a large advertised to run on all railroads cen- sack of gold. And if intrinsic value tering here, was roundly denounced is necessary why is silver used and from the Methodist and other pulpits nickle used and copper used? These of the city yesterday. Talmage was severely censured for allowing himself, and the cheap stuff is good enough for them to be paid in, I suppose. The law makes money. Anything the law says is a legal tender will pay a debt. And no money will buy a thing the owner does not want to sell. All the business done with Ben Franklin's flat colony script was bona fide business and as much so as any done to-day with the paper promises to pay gold. It is to the interest of bankers and lenders to deceive the people, and the bankruptcies and suicides and crimes how how well they are succeedings .-Coming Nation.

WHAT DOES THIS MEAN?

Is This Genuine News or Is It Simply an Effort to Save the Democratic Partys. The democratic press is just now finding out that W. H. Harvey, the lion and Ella Applegate, elopers from noted author of "Coin," is a populist.

"The Washington Star has published the refusal of Mr. Harvey, author of "Coin's Financial School," to take part in the democratic silver convention in Springfield, Ill. Mr. Harvey declines upon the ground that he is a populist. A Washington special to the Atlanta Journal says: 'News comes from Chicago, which is conceded to be true, that Mr. Harvey is an avowed populist and looks to the free silver agitation as the means of disrupting the democratic party.'"—Ripley (Tenn.) Peo-ple's Advocate.

AYER'S PILLS AT THE WORLD'S FAIR O

-There are now united into one organization about two million advocates of free silver. The organization is the people's party. If the free silver men outside the people's party will join the party it will be able to carry the next presidential election and free coinage of silver will again become the law of the land. Can any other party accomplish this end? Can the democratic, divided as it is on the silver question? As for the republican party, it is opposed to silver in nearly every state.-Missouri World.

-United States Senator Marion Butler, of North Carolina, has written a letter suggesting that the state committee of the people's party of that state should at once declare for a constitutional amendment providing for an income tax. He says he will, next fall, introduce in the United States senate a constitutional amendment to that effect to be submitted to the various states for ratification. Populist state committees and conventions should resolve in favor of the amendment the first time they meet.-Pro gressive Farmer.

-I know that the world's stock of precious metals is none too large, and I see no reason to apprehend that it will ever be so. Mankind will be fortunate indeed if the annual production of gold and silver coin shall keep pace with the annual increase of population and industry. According to my views of the subject, the conspiracy which seems to have formed here and in Europe, to destroy by legislation and otherwise, from three-sevenths to onehalf the metallic money of the world, is the most gigantic crime of this or any other age. The consummation of such a scheme would ultimately entail more misery upon the human race than all the wars, pestilence and famines that ever occurred in the history of Black the world.-John G. The Baltimore Plan,

now practically endorsed by President Cleveland, is attracting universal attention because it is based on the evident fact that the currency and banking systems of the country must be re-

But is the Baltimore plan a reform? It gives the associated banks the power to expand the currency and relieve the country. It also gives them the power to contract it at will and create universal distress for their own private gain.

It puts the credit of the government behind every bank note. It donates all but half of one per cent of the profit on the note issue to the banks, and it leaves plenty of opportunities for a Napoleon of Finance to wreck a bank and leave the government to pay the notes.

It leaves the banks free to demand the highest interest that the several states will allow, and affords no relief to farmers and business men of moderate capital.

Contrast with this

The Hill Banking System.

In "Money Found," an exceedingly valuable and instructive book published by Charles H. Kerr & Company of Chicago, and for sale at the office of this paper at 25 cents, Hon. Thos. E. Hill proposes that the government open its own bank in every large town or county seat in the United States, pay 3 per cent on long time deposits, receive deposits subject to check without interest, and loan money at the uniform rate of 4 per cent to every one offering security worth double the amount of the loan.

This plan is not an expense to the government, but a source of large revenue.

It secures the government amply, which the Baltimore plan

It relieves the distress of the common people, which the Baltimore plan does not.

It protects not only note-holders but depositors, who are unsecured now and under the Baltimore plan would be still

In a word, the Baltimore plan is in the interest of the bankers, the Hill Banking System is in the interest of the people.

Consider them both, and ask your congressman to vote for the one you believe in.

and fellowably in the great struggle that is before them,"

Prof. W. M. Ross of Indians, the great sole singer of "The Van Bennett Nationals Team," says: "Have taken pains to run through the work and pronounce it a grand collection of words and a high order of music."

The Farm Field and Fireside says: "It has been left to Mr. George Howard Gibson to introduce a new tone into the songs of the party, and to write a series of patriotic songs which are hardly surpassed by any in our literature for loftiness of mutive and real merit from a literary point of view, while at the same time they are not at all lacking in the musical quality which must necessarily be present before any song touches the chord of popularity. They are remarkable for their fervid patriotism and broad humanity. In fact, if the People's party rises to the patriotic level of these songs, we have little doubt of its ultimate success as a party. The songs strike the whole octave of human sympathy. Sparkling humor, keen wit and biting sarcasm, as well as the loftier patriotic themes, are touched in turn by the talented author?"
