

THE GREAT PARADE

TWENTY-FIVE THOUSAND KNIGHTS IN LINE.

Three-Quarters of a Million People From All Parts of the Country Witness the Impending Display—Western Commanderies Show Up Well—Features.

FORROW, Aug. 28.—Three-quarters of a million people saw the parade of over 25,000 Knights Templar to-day and with one accord pronounced it the grandest pageant ever witnessed in this city.

The lines of parade were formed in thirteen divisions in a column of double sections. All was in readiness shortly after 10 o'clock and at 10:55 o'clock the long line was in motion.

As the great body of Knights moved down Commonwealth avenue the spectacle was an inspiring one. The music of 100 bands and the applause of thousands of people filled the air; the black cloth of the uniforms, the waving of the plumes and the silver and gold emblems, conspicuous in the Templar uniform, combined to present a scene that was pleasing and impressive.

The first division, which was led by St. Eminent Sir Samuel C. Lawrence, grand commander of the grand commandery of Massachusetts and Rhode Island, as chief marshal, and Right Eminent Sir Charles C. Fry as chief of staff and five of the most prominent knights of the Boston commandery as aides, included the representatives of the grand commanderies of the United States, as escort to the grand marshal with ninety-three aides from the most prominent commanderies of America; Boston commandery, Detroit commandery as special escort to the most eminent grand master, Hugh McCurdy; the officers of the grand encampment in carriages and subordinate commanderies.

The Western states were represented in the seventh division, Ohio and Kentucky being in line with the grand commandery of Maine. Eminent Sir John A. Warner, grand commander of Ohio, was chief of this division, attended by Sir James Pettibone and seven aides. Ohio sent seventeen commanderies and Kentucky three.

St. Eminent Sir Edward B. Spencer, grand commander of the Knights of Pennsylvania was chief of division eight, and Chief of Staff Winslow Kuhn was assisted by twelve aides. The grand commandery of Pennsylvania had the right of the line in this division. Pennsylvania, Indiana, Washington and Texas were represented in this division.

The commanderies of Michigan alone made up division No. 9, of which Eminent Sir Charles R. Hawley, grand sword bearer of the grand commandery of Michigan, was chief, and Eminent Sir C. B. Brown chief of staff, with five aides.

Twenty-four commanderies from the state of Illinois, led by Eminent Sir Henry H. Montgomery, composed the tenth division. Eminent Sir Augustus M. Webster, chief of staff, was accompanied by eight aides and adjutants.

The eleventh division was led by Eminent Sir Harrison Dugman of Washington and his chief of staff, Eminent Sir Simon H. Morrill, assisted by five aides. The right of line was given to California No. 1 of San Francisco, followed by Oakland and Golden Gate. There were also commanderies from Tennessee, Georgia and New Jersey.

Right Eminent Sir Simon Marshall led the twelfth division. Eminent Sir James H. Frame was chief of staff, assisted by nine aides. St. Louis No. 1 of St. Louis had the right of line, followed by fourteen Missouri commanderies and Knights from Iowa, Minnesota and Alabama.

The thirteenth division was led by Right Eminent Henry G. Jordan of Rhode Island commanderies, the chief of staff being Eminent Sir Henry S. Rowe, assisted by eleven aides. The right of line was given to Topeka No. 5 of Topeka, Kan. Besides other Kansas commanderies there were bodies from Baltimore, Nebraska, West Virginia, Colorado, South Dakota, North Carolina, Montana and Wyoming.

When the grand commandery opened Grand Master McCurdy, in his address, referred in well rounded periods to the prosperity of the Templars and complimented to departed members. Next, he reviewed many questions of Masonic law and practice submitted to him during his term of office. In conclusion, the growth of the order and its Christian principles were dwelt upon and much good advice given to the great order.

Killed Two and Was Killed.

BUTTE, Mont., Aug. 28.—Yesterday William Long, a cowboy for the "F" outfit, who is also said to be a whisky smuggler, killed a mounted policeman named Richardson. After the shooting of Richardson, Long went to C. B. Toole's ranch, where he is alleged to have killed Ira Brown, foreman of the sheep ranch. The latter, before dying, shot Long, killing him almost instantly.

Four Victims of an Old Feud.

BRISTOL, Tenn., Aug. 28.—In the Cumberland mountains, on the Kentucky-Virginia line, bands of men of the Boyd and Thomas families with Winchester met at an illicit distillery yesterday and engaged in a conflict. Four men—John Boyd, William Cox, Jack Thomas and Floyd Thomas—are dead and several are wounded. The fight was the result of an old feud.

Death of Hon. Sol Hughlett.

MEXICO, Mo., Aug. 28.—A dispatch from Wellsville, Mo., says Hon. Sol Hughlett, one of the best known men in Missouri, shot and killed himself almost instantly yesterday afternoon in Peyton's drug store. It is said that the shooting was accidental. Besides being widely known as a politician, Sol Hughlett was one of the best known horsemen in Missouri.

Death of Judge Cowgill.

CHILLICOTHE, Mo., Aug. 28.—Judge Henry Cowgill, for thirty years a resident of Chillicothe, died last night of a complication of diseases, aged 52.

DESTRUCTION OF GRASS.

An Agricultural Department Bulletin on This Important Subject.

WASHINGTON, Aug. 28.—Considerable importance from an agricultural standpoint attaches to a circular on experimental grass gardens, which has just been issued as the first publication of the agronomy division of the agricultural department. It discusses general grass conditions in the country and says: "The American has been a grass killer everywhere. Our native grasses and clovers are being driven out by a foreign species, and the assertion is made that enough money has been spent by American farmers for worthless fodder plants from foreign sources to more than pay the expenses of the whole department for one year."

SPLIT IN PENNSYLVANIA.

Two Republican State Conventions in Sight.

HARRISBURG, Pa., Aug. 28.—Senator Quay and his followers made a bold dash yesterday in the fight for Republican supremacy in this state by taking possession of the state committee and deposing B. F. Gilkeson from the chairmanship. Their object in doing this was to place themselves in position to prepare the rolls of the delegates to Wednesday's convention, so that they might appear before that body with a prima facie case.

What the effect of this move will be cannot yet be foretold, and the next move of the Hastings people is looked for with great interest.

The situation, in general, is intensely exciting, and altogether uncertain. Both factions are claiming victory, but it must be admitted that those who are opposing the aspirations of Senator Quay are the most serene and confident.

Both factions are busy preparing rolls of delegates, and it will probably not be known until to-night, when both sides caucus, whether there will be two conventions. Many of the knowing ones profess to believe that the Quayites, failing to get control of the temporary organization, will bolt and hold an independent convention. In this event there may be two Republican tickets in the field this fall.

NIAGARA IS HARNESSSED.

The Great Dynamos of the Cataract Company in Operation.

NIAGARA FALLS, N. Y., Aug. 28.—After almost five years of work and the expenditure of over \$3,000,000, Niagara Falls has finally been harnessed, and the power generated by the 5,000 horse power dynamos of the Cataract Construction company are now sending out the electricity for commercial use.

The first power was delivered to the works of the Pittsburg Reduction company here at 7:30 o'clock yesterday morning, when the dynamo No. 2 in the construction company's power house was set in motion. At the reduction company's works there were about a dozen men at work, and the pots used in the making of aluminum were heated by them.

The power from the power houses is sent over copper cables laid in a conduit to the aluminum works. The current sent out is an alternating one, and before it can be used in the making of aluminum it must be transformed into a direct current. This is done by passing through four of the largest rotary transformers ever built. These are 2,100 horse power each, and three of them are running. Everything was found to work perfectly and great satisfaction was expressed by the officers.

ARRESTED FOR SMUGGLING

Jacques F. Nolthenius of Kansas City, Held on the Charge in New York.

NEW YORK, Aug. 28.—Jacques F. Nolthenius, of Kansas City, Mo., assistant secretary of the Missouri, Kansas and Texas Trust company, was arraigned before United States Commissioner Alexander and held in \$5,000 bail on a charge of smuggling diamonds and jewelry.

Nolthenius arrived Sunday on the French line steamer La Champagne, and made a declaration to the effect that he had no dutiable goods in his possession. He acted so suspiciously that he was arrested and in his handkerchief were found two diamond rings, two diamond and pearl rings and two diamond studs. The total value of the find was estimated at \$2,000. His case was set down for Friday.

TIPPED OVER THE YACHT.

A Collision Off Norton's Point, N. Y., Results Disastrously.

NEW YORK, Aug. 28.—The sloop yacht Adelaide, owned by Robert W. Inman, Jr., the cotton broker, while cruising off Norton's Point last night was run into by the iron steamer Perseus. The Adelaide was keeled over and at least three persons are known to have gone overboard. Mr. Inman, Mr. Evans and Miss Norton are among those not accounted for. They are all prominent society people.

FIREMEN OVERCOME.

Six Members of Des Moines' Department Have a Narrow Escape.

DES MOINES, Iowa, Aug. 28.—Six firemen were overcome by heat, smoke and gases while fighting flames in the basement of Hansen's drug store last evening. They were rescued with great difficulty. All the men were unconscious when taken out. The origin of the fire is thought to have been explosion. The flames communicated to a stock of chemicals, developing poisonous gases. The loss from the fire was not large.
