RECEIVER'S HANDS.

THE KANSAS CITY TIMES NEWS-PAPER FORCED TO THE WALL.

BANKER COX IS RECEIVER.

The Application Made by the Remingten Paper Company, Which Has & Claim of About \$60,000-Mr. McDonald Retires From the Management-Had Been Losing \$500 a Week.

KANSAS CITY, Mo., Sept. 23.-Wiley O. Cox, the banker, was appointed receiver to-day of the Kansas City Times Newspaper company by Judge Slover, and took charge of its business at 11 o'clock this forenoon. The appointment was made on application of the Remington Paper company of Water-

Harkless, O'Grady & Crysler, attorneys in this city for the Remington company, received a telegram from G. S. and H. L. Hooker, the attorneys for the Remington company in New York, notifying them that a bill in chancery asking for the appointment of a re-ceiver for the Times company had been mailed and instructing them to file it in the circuit court as soon as it reached Kansas City. The bill arrived by the early mail from the East and at 9 o'clock Witten McDonald, manager of the Times, was asked to come to the office of Harkless, O'Grady & Crysler. He was handed the peti-tion to read, but as it covered twenty pages of very close type-writing he de-clined to wade through it and was content with Mr. O'Grady's explanation that it asked for the appointment of a receiver because the paper was insolvent; was in debt about \$60,000 to his clients and getting deeper in debt daily, and that if the paper missed even one issue it would depreciate greatly the securing of the bond-

Mr. McDonald said he had expected the application for a receiver, and yet peared to be surprised and he appeared to be surprised and pained. He and the attorney discussed several persons who might be ap-pointed receiver, and at last it was of the Kansas City State bank, be ap-

pointed.

The decree authorized Mr. Cox to take immediate possession of the business and the officers, directors and gents of the Times company, and all ther persons, were enjoined from at-sching, seizing, levying on or otherinterfering with any of the prop-of the company or from interferng with the receiver in his managethe business.
Will McDonald said:

"I have simply this to say: The load entailed on the paper before I took charge of it was too heavy to be carried ith the business situation what it is in Kansas City. That's all there is to

Will McDonald, secretary of the company, said the paper had carried a heavy load from under which it had truggled hard to get out. There had been a great improvement recently and he believed the paper would have come out on top if they had been given few more months.

Mr. Cox was asked if he would retain Mr. McDonald in charge. He replied that he did not suppose Mr. Mc-Donald would expect or wish to remain on the paper. Mr. Cox said the thing had come to him unexpectedly and h had not selected a managing editor or a man to act in any other capacity. Re said: "I will manage the paper for the best interests of the creditors. am not a newspaper man, so I must find a man who is to be put in charge and a force of newspaper men to assist

"What will be the political policy of the paper?" was asked him.

am a Democrat and you will not find me managing anything that is not Democratic to the backbone," was the reply of Mr. Cox.

Mr. Cox said further that in his opin-

ion the success of the Times in early days was due largely to the fact that it was a straight out Democratic newspaper, and the lack of success in later years might be due largely to the fact that it had swerved in the faith. It is understood that there will be a

complete turning over in the working force of the paper, and that it will announce to-morrow morning that the paper is to be Democratic from stem to

The Times' plant, business, good will, etc., is estimated to be worth about \$500,000. It has been running recently at a loss of about \$500 a week. The receiver is instructed to pay out of the income of the paper first the salaries due employes and attorneys' fees and rents which had been earned within six months before he was appointed and which were unpaid; second, he was to pay all the running ex-penses and the balance, if there was any, was ordered to be deposited in bank subject to the order of the court.

The receiver was authorized to issue such receiver's certificates as might be uecessary to pay all outstanding claims and from time to time to issue such certificates, subject to the approval of the court, if it was neces sary in operating the business: these certificates to be payable in one year from date and to bear 8 per cent interest from date of issue.

The first issue of the Kansas City Times was printed September 8, 1868. At first it was not a financial success and it went through different hands and many vicissitudes till 1871, when Dr. Morrison Mumford became editor and owner. It was carried safely through the general financial depression of 1873. In 1885 it ranked among the leading newspapers of the country. It was a great factor in the Oklahoma movement. Dr. Mumford lost control of the paper through un-fortunate real estate investments which forced him to mortgage the ant and since then the paper has teadily declined.

DUN'S WEEKLY REVIEW.

Wheat Advance About Two Cents, and Dropped a Cent.

NEW YORK, Sept. 23 .- R. G. Dun & Co.'s weekly review of trade says: In spite of gold exports wheat advanced for some days, in all nearly two cents, mainly because a single speculator bought, but on Friday fell about one cent. Corn rose and fell in sympathy with wheat, with as little reason. Western wheat receipts for three weeks of September have been 16,791.-660 bushels against 16,491,629 last year, while Atlantic exports (flour included) have been 3,941,693 bushels against 7,621,986 last year.

Good reports of foreign crops, weak-ness of flour in Minnesota and large exports of flour from this country, all work against a rise in wheat, though scarcity of contract grades may help a speculative advance. Pork products have been reasonably yielding, with prospects of a large corn crop, but before the close had a stronger tone, The cotton market, lifting and falling a fraction each day alternately, show no settled tendency, big stocks bal-ancing an undoubted but yet not definite decrease in yield.

The cotton mills, which laid in stocks of cotton below 6 cents, are enriched by the advance in material, and enabled to make frequent advances in goods, which are sustained. The present demand is dull, but there are no reports of stoppage, and the threatened strike at Fall Biver does not come. The woolen manufacturer is doing well in dress goods and hosiery, but the demand for men's woolens is much restricted, and a few mills have closed. Sales of wool are smaller than last year, and for three weeks only 17,133,470 pounds, of which 7,718,370 were foreign, against 24,572,400 pounds in 1892, of which 7,614,000 were foreign. Prices of foreign wool are so low that purchases for export have been made. The failures this week have been 213 in the United States against 210 last year and 32 in Canada against 48 last year.

CARRIED OLD GLORY.

Ex-Confederates Clad in Gray Carry the Stars and Stripes

CHATTANOOGA, Tenn., Sept. 28 .- One of the leading features of yesterday's events was one that caused perhaps more comment, more enthusiasm, and which will make a lasting impression upon those who saw it, was a company of Confederate veterans attired in their tattered old uniforms of gray, carrying the stars and stripes. They formed a part of the big parade, and as they passed through the miles and miles of streets they were tendered an ovation that would have honored an Emperor. Not one of those old war dogs was un-der 60, and yet they walked with a firmness of step that would have done justice to West Point cadets. And one of them, the one next to the last colorbearer, carried an olive wreath, an emblem of peace and love.

MULEY HASSAN'S TREASURE.

German' Physician's Account of the

Hoard of the Sultan of Morocco. again the ancient story of the enormous said: treasure held by the sultan of Morocco The French ambassador to Moroccc brought back to Louis XIV. in 1685 the the day. Nine out of ten people in the story that the sultan of that day, Muley Ismael, kept at Mequinez, the favorite residence of the sultan's, a treasure valued at \$30,000,000. Chenier, another French ambassador, 100 years later returned with the rumors of the treasure but it had shrunk in a century to about \$2,500,000, which is supposed by some authorities to be about the ordinary annual revenue of the sultan. The legend of the treasure was still in sound health fifty years later, for Graeber di Hemso, a traveler, affirmed about 1834 to vote for Wall street again." that the sultan's hoard, called Bit-el-Mell, was kept at Mequinez under the guard of 2,000 negroes. It was believed free silver party and, since the Pennto consist of 200,000 pieces of money besides ingots of gold and silver and precious stones. The treasure house according to this traveler, was an inclosure of massive walls, which were exactly repeated within. In order to open five iron gates, secured with secret locks, of which the keys were in the hands of the sultan or of his favorite. It was the custom in earlier times to kill the guards that accompanied new treasure lest the secrets of the treasure house be divulged.

Others travelers have kept the story alive and from the manner in which taxes are levied and public affairs administered in Morocco it is generally believed that the sultan has great wealth laid up. The later story of the treasure comes from Dr. Rohlfs, a Ger-Hassan. Dr. Rohlfs declares that the safety, the imperial wealth is kept in several places, part of it at Fez, part in the oasis of Tafilet, and part of it at declares that the sultan's 10,000,000 at Mequinez, in a somber edifice which the light of day never penetrates. The custom of killing the treasure-bearers is not kept up, and the guard is not 2,000, but 300 negroes, who keep watch in a living tomb. Dr. Rohlfs has seen some of the sacks inclosing part of the treasure.

But here are some satisfactory methods of tugging. The most effectual plan is to wrap a rag wet with very hot water around the neck, and let it remain a few seconds. The heat will expand the neck of the bottle, and before the heat penetrates to the stopper itself, it can be easily removed. Or, wind a string once or twice around the neck of the stopper. and holding the bottle between the knees, pull alternately one end and then and consequently heat. Thinks He Is an Engine. There is now in the county jail at Ann Arbor, Mich., awaiting a vacancy in the Pontiac asylum, a young man who imagines he is a train of cars. He spends nearly all his time in imitating the noises attendant on starting up and stopping a railroad train. Every sound and movement he produces with startling fidelity and detail. When the officer found him he was on the railroad track, and from his actions was just getting up steam. Soon he said it was time to start, ordered the fireman to fill the tank with water and the tender with coal, imitating every act perfectly. Then he pulled out the lever and started the train, running so fast that it was necessary to head him off with a horse. His whistle for "down breaks" can be heard a mile. He is about 17 years old.

MISSOURI IS MOVING.

The Great Apostle of Free Silver Declares That No Gold-Bug Can Carry the State. In a recent interview ex-Congress-A French journalist has brought up man Richard P. Bland, of Missouri,

"I do want to see the democratic party organized and free silver win country want it, and they are not go-ing to be backward about asking for it and getting what they want. There are enough free silver men in the state to handle it, with ease, if the forces are organized and their work made effective. It must be organized or we will lose Missouri. We want men in Wendell Phillips in 1878. position who are for free silver and who cannot be intimidated or overpersuaded, but intend to demand what is right and stay there until they get it. The democratic party is not going It has always been believed that the

republican party was anything but a sylvania republicans have held their state convention and adopted a platform, there is no longer any doubt but pression of a few idle schemers who that the republican party is for the gold standard. It follows, then, that Mr. Bland's statement is equivalent to reach the treasure it was necessary to an assertion that if the democratic party does not come out for free silver the populists will carry the state of Missouri.

Some idea of the prospects as for free silver may be derived from the following press report of the democratic state convention held in Nebraska on September 5 by what is known as the "sound money" wing of the Nebraska democracy.

For instance, we are told: "When Omaha, called the second Nebraska democratic state convention to order man, at one time physician to the 631 enthusiastic delegates greeted him harem of the present sultan, Muley with applause, encouraged by an enthusiastic crowd of visitors. It was treasure of the sultan is greater than considered quite significant in the ever. Many of were present and contributed to the German thalers, or about \$7,500,000, are dignity of the occasion with their counsels. Every utterance in favor of a national currency in which gold was the basic principle was as vociferously cheered as the mention of free silver in the convention of the other wing of the party last month."

Speaking of the free silver democrats of Nebraska and the convention they recently held, Chairman Bibb said:

"A few weeks since there was held in Omaha an alleged democratic state convention. It represented nothing more, nothing less, than the shadow of populism. They called themselves 16 to 1 democrats. Sixteen to one would be sixteen populists to one democrat. You never knew a democrat to go nosing around populist soup houses.

And, following closely upon a sim-Christ. The underground Bokharan ilar declaration made by the Ohio city is about two versts long and is democracy, this platform was adopted

> True Courage Needed. It is sometimes disgusting to see how many people, working for some one, will submit to injustice and extortion without uttering a word in protest. How they will approach their employer or foreman as if they were entering a divine presence, and stand with meek and reverential mien before a man who, shorn of his official title, would be but their equal, probably their inferior in moral worth. -When the great army of laborers in this country see that the cause of their poverty and distress is the opassume the right to rule and live upon the toil of others there will be a revolution in this country-at the ballot box.-Tarkio (Mo.) Independent.

-The law of remuneration under capitalism and the competitive system is not governed by the amount produced, but by the number of workers to the democratic party declaring seeking leave to produce. This is why capitalists oppose state employment of the unemployed. It reduces the num-ber of available workers and increases the remuneration. -Coming Age.

-How much do you owe the old party anyhow? Does it hold a lifetime mortgage on you? What hope State Chairman Euclid Martin, of for better times does it hold forth that you should continue to support it? Why not mix common sense at the ratio of 16, to 1 of partyism together? A dose of that kind in 1896 would make a new man of Uncle Sam. -Missouri World.

-Mr. Eckles, of the United States treasury department, has gone to Europe "for recreation." That phrase may catch the gullible, but a new issue other points in the empire. Dr. Rohlfs the pioneers of democracy of the state of bonds is the real object. When American officials crawl to Europe it is time to haul down Old Glory and run up the Union Jack. The United States is nothing but a cringing, abject dependency of the Rothschild oligarchy.-Appeal to Reason.

-According to the news sent out from New York 5,000 bankers are preparing to enter into a formidable organization for the protection of banking interests in this country. The machinery has already been set in motion for the perfection of the organization prior to the meeting of the next session of congress. The combine propose to more perfectly control the volume of currency than they now do.

-Combination cheapens production; there is no doubt about that. The larger the combination the more cheaply it is possible to produce the necessities and comforts of existence. The greatest possible combination is a combination of all the people. With such can be supplied with less effort than now. The co-operative commonwealth is the outcome to which everything points.-Star and Kansas.

-I do not want the union of church and state, but I do declare that if the church of God does not show itslef in favor of the great mass of the people as well as in favor of the Lord, the time will come when the church as an institution will be extinct, and Christ will go down again to the beach, and choose twelve plain, honest fishermen to come up into the apostleship of a new dispensation of righteousness, manward and Godward.-Rev. T. De-Witt Talmage.

-Has anybody heard of a gold-bug paper, either republican or democratic, that has advertised or offered for sale the Harvey-Horr debate? We haven't. For some unaccountable reason the Sound Money club has also overlooked it in making up its list of literature for gratuitous distribution. What do you suppose is the reason of this? Nearly every populist paper in the country is offering it for sale or as a premium for subscribers. There's something strange about it.

-A spirited correspondence recently appeared in the London Times on the subject of the alleged disastrous effects of gambling in wheat on agriculture. Several letters charge that dealers make fictitious contracts in Liverpool and telegraph their prices to Chicago, and that Chicago in turn telegraphs them back after the Liverpool market has closed and that then these fictitious prices appear in the newspapers of the next morning and fix the price which farmers are to receive for their grain.

-In a recent interview John Sherman, discussing the part he played in the demonetization of silver, said: "It was quite an undertaking when I agreed to shape legislation on this line in 1873. I can forgive the democrats now for what they said about me and what they were pleased to call my great crime. I have lived to see their leaders swallow their words, and today there is not a stronger and more outspoken defender of my course than you will find in President Cleveland's state papers and the speeches of his cabinet officers. It is hardly necessary for me to say a word. Of course it is gratifying to me."

-I never believed so much in a republican form of government as I do to-day, for the single reason that any other style of government would have been consumed long ago. There has been swindles enacted in this nation within the last thirty years, enough to swamp three monarchies. The democratic party filled its cup of iniquity before it went out of power before the war. Then the republican party came along and its opportunities rent charged for a building, over and and so it filled its cup of iniquity a litabove interest on the cost of improve- tle sooner; and there they lie to-day, the democratic party and the republican party, side by side; great loathsome carcasses of iniquity, each one worse than the other. -Rev. T. DeWitt Talmage.
