judge of North Carolina; "Municipal Lighting" by Prof. Parsons; and a series of articles on our seven great American poets. The Arena at its reduced price and large size is by far the cheapest and most valuable magazine published.

The North American Review for December contains articles by M. W. Hazeltine, Representatives of C. C. Gatchings of Mississippi, J. P. Dolliver of Iowa, John C. Bell of Colorado and Geo. N. Soule of New York on the work of the next Congress. Mrs. Lynn Lynton writes on "Cranes and Cranes." N. S. Shaler describes "The Last Gift of the Century." Lord Morton tells "How London Deals with Beggars." Prof. Goldwin Smith writes of "Christianity's Millstone." Hon. John W. Foster writes about the "Results of the Bering Sea Arbitration." Arthur Silva White portrays "Our Benefits from the Nicaragua Canal," and there are other papers of less note.

SILVER AND THE DEMOCRACY.

The Man Who Expects the Democratic Party to Restore Silver Coinage is a Chump.

Democratic state nominating conventions have been held this fall in the states named below and the resolutions were for or against silver as indicated. The number of delegates each state holding a nominating convention will be entitled to in the next national democratic convention is also given. The following states have declared against silver and for Cleveland's financial policy:

Delegates.	
Kentucky.....	29
Iowa.....	29
New York.....	72
New Jersey.....	20
Ohio.....	46
Pennsylvania.....	61
Maryland.....	16
Massachusetts.....	30
Total against silver.....	390

The following have declared for silver and against Cleveland's financial policy:

Mississippi.....	18
Nebraska.....	16
Utah.....	6
Total for silver.....	40

We place Nebraska as for free silver, but probably it ought to be classed as opposed to silver. There are two democratic organizations and two democratic tickets in that state—the Bryan or silver wing, and the Morton or anti-silver wing. The anti-silver wing, of course, declared against silver and for Cleveland's policy.

It is true, democratic state conventions in Missouri and Illinois declared for silver, but these were not nominating conventions and the gold-bugs made no effort to control them. They ignored them. Strictly speaking, they were not conventions of the whole party. The regular nominating conventions are the ones that count.

Here you have the outlook, silver democrats, for success of silver in the next national democratic convention. Why longer hope for financial reform in your party? Why not acknowledge that you are a chump and come out for the gold standard, destruction of the greenbacks, continued demonetization of silver, and for half a billion of thirty-year bonds? You are going to do that or the other thing, which is out loose from the old party. Why not decide now which you will do? If you are a chump, a cuckoo, a moral coward, a slave to party prejudice, why not say in your own heart? If you are a brave man, a patriot, come out for your principles and take a stand against the money power.—Missouri World.

Dr. Madden, Eye, Ear, Nose, and Throat diseases, over Rock Island ticket office, S. W. cor. 11 and O streets. Glasses accurately adjusted.

IS IT TO BE WAR?

A Kansas Man Declares Himself for War to Keep the Plundered People Quiet.

The old greenbackers used to say the money power would beat the reform movement if it had to bring on a war with some foreign nation to divert the attention of the people.—Missouri World.

In connection with the above, read the following Topeka, Kan., special of October 7:

"Hon. Eugene F. Ware delivered an address to the high school of Topeka to-day in which he advanced some unusual thoughts.

"The occasion was the raising of a flag over the high school building, and Mr. Ware opened his address with the remark that it was the flag of the only genuine republic the world ever saw. Then, after a tribute to the stars and stripes which fairly quivered with patriotism, the speaker said: 'The United States never lost a dollar by war. We gained our independence at home in one war; in another war we gained our independence at sea; in another we acquired the wilderness of California which it was our destiny to fill, and we acquired the empire of the Pacific; we eliminated slavery with another, and with each war we got renewed patriotism and after each the old flag represented wider territory, a nobler dream or a greater destiny. I am one who believe in war as an educator, as a part of our common school system. We should have a war every generation so as to make the people patriotic. It is as necessary to teach the people patriotism as anything else. All education costs money; patriotism costs money; the flag costs money, but they are all worth the money they cost. The late civil war in its education and benefits was worth twice what it cost. In nations where war is too long delayed the people forget; patriotism becomes a reminiscence, and the atmosphere becomes superheated with avarice. People stop thinking of glory and patriotism and the honor of their country, and its destiny, and go to thinking solely for money, and everybody is measured by his capacity to make it. It comes to be recognized as the qualification for honor, and greed seats itself on a throne and wants everybody to work for it for nothing. But when war comes greed is dethroned, and the man who can do the most for his country comes to the front. Sooner or later the United States will have another war. I hope we will have it soon. We need it; there is occasion this very day for a war, and we ought to open it. In times of peace socialism and anarchy assail the flag; in times of war they don't. Socialism is simply organized indolence; anarchy is only disappointed avarice."

Mr. Ware did not explain to his hearers where he believed the next war would come from, unless his allusion to socialism and anarchy be taken as a guide. And it is unfortunate that Mr. Ware did not explain who he meant when he spoke of socialism and anarchy. Did he mean the masses of the people who are writhing under the yoke of capitalistic exploiters? Or did he mean the anarchy of wealth, which defies our laws, despises our rights and corrupts our courts, and the socialism of capital, which combines in trusts to rob and spoliates the people? Who knows?

SEVERAL WHYS WANTED.

Will Some Old Party Voters Kindly Answer the Following Questions?

- Why should this country borrow money?
- Please tell us why.
- Why should coming generations be bonded to England?
- Some one will please send in a why.
- Why should labor be unemployed in this country?
- Anyone having a why, will please send it in.
- Why are Americans hungry, when corn is 15 cents per bushel and wheat 50 cents?
- A why for this will be accepted at par.
- Why should corn be 15 cents per bushel and wheat 50 cents, when thousands of people are starving?
- Please beat the bushes and scare up a why.
- Why should production be unprofitable when the markets are fair?
- A why for this might come by railroad.
- Why should laboring men vote for a party that robs themselves and families?
- Why should the farmers vote the democratic ticket when that party has robbed them?
- A why for this can be sent us packed in hayseed.
- Why should the masses of the people uphold a system of government in this country that plunders them for the benefit of the classes?
- A why from any state in the union will be accepted.
- In fine, why should the sovereigns of a republic surrender their sovereignty and go into peonage and slavery? Why not fight, as our fathers did, for our liberties? Why are the descendants of our revolutionary fathers cowards?
- In the name of Heaven! why is it?—Southern Mercury.

INSURANCE DEPARTMENT

Conducted by J. Y. M. SWIGART, Correspondence solicited. Fire, cyclone or hail.

Home again. I presume the readers of this department have begun to think that I have abandoned the cause, but I assure you that the cause of mutual insurance is a part of my makeup, and will fight it out in that line. I have been in attendance at the Iowa convention of mutual insurance men, representing all kinds of insurance except life. Cyclone was represented by The Iowa Mutual Tornado, Cyclone Wind Storm Insurance Co., eleven years old, has over \$35,000,000 worth of property insured, has made but five assessments, three of them called for \$1.00 per \$1,000, and two were for 50 cents per \$1,000. In 1894 the losses were \$29,500, all of which were paid promptly. J. B. Herremann, Des Moines, Ia., is the secretary and one of the best posted men on insurance it has ever been my pleasure to meet.

Iowa also has a Hail company that excels the world in its line. That company paid \$85,000 in losses this year, the cost to its members being a little less than five cents per acre. W. A. Rutledge, Des Moines, Ia., the secretary, is one of the pushers.

The Town dwelling house mutual is only two years old, has a quarter of a million insured, has made no assessment but has met all losses promptly, and to the entire satisfaction of the members. The secretary, C. E. Harsh, Des Moines, is a young man, but is none the less a giant in mutual matters.

There is a Mercantile mutual now in process of organization, which we consider the last nail in the coffin of the old line insurance in Iowa.

H. F. Staple, of Rock Port, Mo., is an insurance giant. To come in contact with him on insurance subjects you are sure to learn many unthought of pointers. He made a trip to Europe last year to look up statistics on mutual insurance and found companies several hundred years old, many of them never having paid an assessment and only a nominal membership fee. He is the agent of five different companies in Missouri, including a mutual life company, all of which are successful in their work of giving indemnity at a nominal cost. But I have only spoken of the special companies represented at the meeting.

There are about one hundred and forty local fire mutuals in Iowa, many of which pay the expenses of representatives to the annual meeting of the Iowa Mutual Insurance association. They did not make a report as a whole, but most of them have made large gains, and but few have made large assessments, the average, however, is not any higher than they have been for years, which makes about one per cent for five years. Some time in the future I will give you a synopsis of the work of the convention.

Did you know that we have an association in this state and that the annual meeting is Jan. 15, 1896? We desire the attendance of a representative of every company in this state and further we would like to send a program to all who will attend, hence we ask that every one who will try to be here to drop us a card at once.

A CERTAIN CURE FOR PILES.

A New Preparation. Safe, Painless, Convenient and Lasting Cure for this Troublesome Disease.

We do not intend to indorse any except articles of local merit. We therefore take pleasure in calling attention to a new pile cure which has been remarkably successful in curing every form of itching, bleeding or protruding piles. The remedy is known as the Pyramid Pile Cure and is recommended by the best medical authorities on account of its absolute safety, ease of application and instant relief from pain.

The Pyramid Pile Cure contains no opium or other poison and does not interfere with daily occupation while using. People who believed that nothing but a surgical operation would cure them have been astonished at the results from a single 50 cent package of the Pyramid.

Mrs. Mary C. Tyler of Heppner, Ore., writes: One package of Pyramid Pile Cure entirely cured me of piles from which I have suffered for years, and I have never had the slightest return of them since.

Mr. E. O'Brien, Rock Bluff, Neb., says: The package of Pyramid Pile Cure entirely removed every trace of itching piles. I cannot thank you enough for it. The Pyramid Pile Cure is sold by all druggists at 50 cents and \$1.00 per package.

Treatise on cause and cure of piles mailed free by addressing Pyramid Co., Albion, Mich.

Timely Warning.

The great success of the chocolate preparations of the house of Walter Baker & Co. (established in 1780) has led to the placing on the market many misleading and unscrupulous imitations of their name, labels, and wrappers. Walter Baker & Co. are the oldest and largest manufacturers of pure and high-grade Cocos and Chocolates on this continent. No chemicals are used in their manufactures.

Consumers should ask for, and be sure that they get, the genuine Walter Baker & Co.'s goods.
