OUR NATIONAL PERILS.

(Continued from first page.)

lords in idleness? Ask the millions of farmers of Nebraska and the other states who have toiled early and late to raise corn and wheat, and who were then compelled to sell them way below actual cost of production; ask the business men of Nebraska, half of whom are losing money every day they do business; ask of every one who realizes the horrors of business stagnation and of falling prices; ask the millions who cannot collect their accounts, and who can not pay their debts; be honest, and ask yourselves, are you actually poorer to-day with few exceptions—than you were a few years ago? Have you not been industrious and have you not been economical? What then has become of the wealth that has been created? It went east to help make up that $600,000,000 of annual greed money;

Have not these American lords, you will ask, a right to demand interest for their capital? That leads me to ask, can 4,047 men honestly earn $10,000,000,000 during their short lives? Can they rightfully come into possession of a quarter of the wealth of the nation in so short a time? All wealth is created by labor. All this wealth has been created by the laboring men of theis nation, and has been taken from them by what is termed sharp business scheming, but what should be termed legalized robbery.

Jesus Christ said, the laborer is worthy of his hire, but the modern idea seems to be that he is worthy of about enough to keep himself and family partially respectable, and that the millionaire, who indirectly owns him, is worthy of the rest of his hire. Some Christians men used to think it right to own slaves. Some Christian men now think it right to rob the laborer of a part of the fruits of his toil. I can not see why the laborer is not entitled to *all* that he produces. Why should he give a part of the fruits of his toil just for the privilege of working? Two million men out of employment and business stagnation all for the lack af money, while $100,000,000 of idle money is being hoarded away in the banks of New York, above the legal requirements, openly defying the demauds of the business world. It is enough to set every wheel of commerce going, giving employment to all. Their object is to force down the price of labor and at the same time force up the purchasing power of the dollar; to freeze out the small investors, and the farmers and merchants. Are they not doing it?

Thousands and thousands of men, women and children crying for bread, and at the same time our farmers selling their wheat below cost of production! Thousands upon thousands of the unemployed shivering for the lack of proper clothing, while the factories which turn out these much needed articles are shut down! The politicians tell us it is overproduction, but we see it is under-consumption. Such a spectacle for the social system of American civilization! Interest is a peculiar thing. Any sum of money loaned at 10 per cent compound interest doubles itself in seven years. $1.00 loaned at 10 per cent compound interest for 100 years, will amount to $13,809. At compound interest how long will it take that $10,000,000,000 to eat up the entire wealth of the Nation, and make us all slaves? It is only a question of mathematics. It is only a question of time.

The concentration of wealth and the moral and political corruption of our large cities, is far greater to-day than it was in Rome when that proud and wealthy Republic fell. Every scholar knows that the concentration of wealth, together with its moral and political corruption, was the real cause of the fall of Rome. If like causes produce like effects how long can America stand the strain? But there is a good time coming, boys! It will be when men stop living upon each other, and commence combining their energies for the good of all. It will be when the competitive system is overthrown, and Christian socialism has become a blessed reality; when the people own the corporations and not the corporations the people; when every man will be allowed to work and receive the full reward of his efforts; when history has been written and tells us that the greatest hindrance to American progress was the blind political prejudices of the people. Then, and not until then, will permanent good times come, and every man who will work be able to obey the divine injunction, "take no heed for the morrow what ye shall eat or what ye shall put on." That time is nearer than many imagine. There are 2,000,000 laborers who would vote for such a system tomorrow afternoon, if they had the opportunity. There are millions of farmers who would vote for the opportunity of feeding those starving millions. There are thousands of editors preaching it through the press, and there are thousands more of preachers expounding it from their pulpits. And the thoughts of men control their actions. Every time a mortgage foreclosure robs an honest man of his home or his farm, it spreads the seeds of socialism. Every time a Christian prays, "Thy kingdom come. Thy will be done on earth as it is in Heaven. Give us this day our *daily* bread," he prays for socialism, pure and simple, whether he knows it or not. Edward Bellamy is not the founder of socialism.

The Populist party has no corner on the idea. Eighteen hundred years ago Jesus Christ, the friend of the poor and heavy laden, overturned the table of the money changers and preached socialism.

Not until panic after panic, calamity after calamity, are the people beginning to realize that to him, that has, has been given, and to him that has not, has been taken away even that which he thought he had.

A. ARTHUR GRIFFES.

NATIONAL PARTY NEWS.

Sent Out From the Headquarters at Washington, D. C.

Business at headquarters is becoming brisk, as the campaign opens. Mails are increasing every day and the demand for literature comes from every section, which proves the wisdom of the committee at St. Louis at its recent meeting in establishing a department of literature in connection with headquarters.

A price list of all kinds of reform literature will be furnished by headquarters (No. 450 Pa. Ave) to anyone making application for same. All funds derived from sale of this literature will go into the campaign fund, therefore it is the duty of all Populists to order their literature through headquarters, where they can get it just as cheap as elsewhere and at the same time contribute something to the building up of the party.

A FATAL CHANGE.

Attention has been called to a fatal error being made by some of the newspapers by publishing the address sent out by the National committee from St. Louis February 22, 1894. The error is found in the following:

"A declaration in favor of the free and unlimited coinage of both gold and silver at the ratio of 16 to 1 and the money redeemable in metal."

It should read as follows: "A declaration in favor of the free and unlimited coinage of both gold and silver at the ratio of 16 to 1 and the direct issue by the government of legal standard paper money redeemable in debts and taxes."

THE OUTLOOK IN OREGON.

Reports from primaries held in Oregon on the 10th inst., indicate that Mr. Pierce will be the Populist candidate for governor, and that Governor Pennoyer will be put forth as the Populist candidate for the United States senate to succeed Mr. Dolph, Republican goldbug. It is pretty well settled that Senator Stewart and Congressman Pence will, with quite a number of our ablest speakers, spend some time on the stump in Oregon during April and May. Oregon is the key to the situation. If the Populists carry Oregon in June look out for a landslide in November.

PUNCHING UP THE ANIMALS.

For several days it was reported in the New York papers that certain senators were taking advantage of what was transpiring in the senate finance committee relative to sugar schedules, to gamble in sugar trust stocks and make a few thousand. After a few days of quiet, and about the time the guilty ones were congratulating themselves that the storm of criticism had about blown over, Senator Peffer serenely bobbed up with a resolution calling for a committee of five senators to investigate these reports and rumors, and report their finding to the senate, whereupon quite a number of senators arose and protested their innocence. Senator Peffer is determined to push his resolution and have the investigation. Some rich and rare disclosures are looked for. It is so nice to have a Populist senator around, sometimes. [The resolution has been tabled. The guilty ones are too numerous.—Editor WEALTH MAKERS.]

ALABAMA POLITICS.

Everything in Alabama points to a sweeping victory for the Populists in August. The Democrats down there are at their old tricks, inventing and industriously circulating all manner of lies about what the Populists should have done in the campaign of 1892, in effecting combinations with the Republicans. When a party begins to lie this early in the campaign, it is pretty good evidence that they have no faith in their ability to win by honest methods.

PEOPLE'S PARTY ORGANIZATIONS.

All people's party clubs, Legions and Leagues, should send in a list of names of their officers and their postoffices to headquarters at once so that they may receive the benefit of any literature to be sent out. Senator Peffer has kindly agreed to furnish headquarters with a thousand or more of his special reports on "Agricultural Depression, Its Causes and Remedies." This is a very valuable document and will be judiciously distributed.

KENTUCKY TO THE FRONT.

In a letter to headquarters from W. P. March, secretary of the Populist State Executive Committee of Kentucky he states that the People's party will make an active campaign in that state. County conventions are being held and organizations are being rapidly perfected. The People's party will have candidates in all the congressional districts in the state with fine prospects for success in quite a number of them.

OFFICERS STATE ALLIANCE.

J. M. Dimmick, Macon.

How Thomas V. Cator Endorses the Legion.

OMAHA, March 10th, 1894.

Editor WEALTH MAKERS:

Let the people awake and read what Thomas V. Cator, of San Francisco, has to say about the Industrial Legion. He was our candidate for senator in California, and reported the platform to the Omaha convention. The author of "Government ownership of Railroads," "Nationalization of Money," "Cause of Panics," and other addresses. He is eloquent, honest, unselfish, and the people can trust him. Heed his words and follow his advice and respond to the urgent appeal of the National Committee, which said at St. Louis, "Organize the Industrial Legion in every voting precinct in the land." Write to me for instructions. Do not delay. Let us get out our injunction against bonds by massing two millions of people, believing in our platform in the Industrial Legion, the People's party club. It is practical and plain, and takes in all the members of the party. It stands for the Omaha platform and votes for the Peoples party straight.

PAUL VANDERVOORT.

I hope the Industrial Legion is being pushed in all the states. In San Francisco we have no other organization of People's party; and representation in our county committee is based wholly ubon the various Legions, who elect the county committee from their members. It works well, and in all our towns, or nearly all of them in California of any considerable population, we find the Legion the best kind of organization.

Hoping your zeal for this organization will be seconded by a general effort to increase its strength, I am

Very sincerely yours,
THOMAS V. CATOR.

An Appeal to the Million Populist Voters.

Both the Democratic and Republican parties have established head-quarters and are today preparing millions of campaign documents to be sent out during this campaign.

It is the opinion of the shrewdest politicians at Washington, that if the People's Party takes advantage of the blunders and infamy of the present administration, there will be no trouble in electing Populist members enough to hold the balance of power in the next Congress. It is also admitted by the closest observers among both the Democratic and Republican politicians that the next election of president will be thrown into the House, which will give the Populists the power to dictate who shall be the next president of the United States? The election in the state of Oregon comes off in June, and in Alabama in August. We are almost absolutely sure to carry Alabama, and we stand an even chance with either of the old parties in Oregon. To help to carry Oregon and Alabama is to help put life and enthusiasm in our party in every state in the Union.

The People's Party is composed of the great common people of the country who are poor and honest. It has no millionaires, bank or railroad corporations upon which to call for campaign funds.

The National Committee has established head-quarters at Washington where it can procure an unlimited amount of campaign literature at a small cost. One thousand dollars used in our party will do as much work as a hundred thousand dollars in either of the old parties.

After carefully considering the above facts and the bright prospects for our party in the coming campaign, we feel it our imperative duty to appeal to our people everywhere to come to the aid of the national committee in doing this great work. In the last election our party polled more than a million votes for president.

We now earnestly appeal to 1,000 of that number to give us $5 each, 10,000 to give us $1 each, 20,000 50 cents each, 20,000 25 cents each, and the remainder of the one million to give us 10 cents and 5 cents each. We also earnestly appeal to all People's Party Clubs, Legions, and Leagues to raise what funds they can for the committee, by taking up collections, giving entertainments etc. We make this request because we believe it our duty to do so. If our party ever attains success, each member of the party must contribute to that success not only with his ballot, but with whatever means he can spare. To respond promptly and liberally means success that will bless the nation for all time to come.

All contributions should be sent to M. C. Rankin, Terre Haute, Ind., who is Treasurer of the National Committee.

Very Truly Yours,
H. E. TAUBENECK, Chairman.
M. C. RANKIN, Treasurer.
J. H. TURNER, Secretary.
L. J. MCPARLIN, Secretary.

Burks, Cadman & Co. will sell you a good Carriage or Phaeton, for less money than any one else, cor. 10th & Q.

Cattle Robe Tanning Company,

1012 B Street, LINCOLN, NEB.

HOW TO PREPARE HIDES FOR ROBES.—As soon as hide is removed from animal, trim off head and legs, spread out on floor, cover well with salt, (medium sized hides will require two and one-half gallons of salt, evenly spread), leave in this condition for ten to fifteen days, then roll up, flesh side out, tie well and ship. Charges for tanning will be from $3.00 to $5.00 on medium sized hides.

TO BUTCHERS and other parties having choice black hides, sending three or more hides, we will return one robe for the remaining two hides. Freight to be paid by shipper. Lace and lattaro leather tanned on same terms. Samples sent on application.

H. C. MARTIN, Manager.

We have examined these robes and find them to be first class in every particular; an excellent substitute for the buffalo robe which is becoming so rare.—Publishers.]

DONT SUICIDE.
