Post Office at Lincoln, Neb., June 18, 1889.

I hereby certify that The Alliance, a weekly newspaper published at this place, has been determined by the Third Assistant Post Master General to be a publication entitled to admission in the mails at the pound rate of postage, and entry of it as such is accordingly made upon the books of this office. Valid while the character of the publication remains unchanged.

Albert Watkins, Postmaster.

THE VOICE OF THE PEOPLE.

[This department is conducted by the Secretary of the State Alliance to whom all communications in relation to Alliance work, short articles upon various subjects of interest to the Alliance etc., should be addressed. Write plain and only on one side of the paper. Sign what you choose to your articles but send us your name always.

Interesting Letter From Organizer Har-

YORK, NEB., Oct. 14, 1889. EDITOR ALLIANCE: For the past three months my time and attention has been necessarily devoted to other interests than those of the Farmers' Alliance, but now that those are off my hands. I return to the work of the Alliance with a renewed zeal and determination to do more along the line of inducing the farmers to organize for their mutual benefit. To use a com- 000. mon saying, "I am going to work it for all there is in it." In the first place I shall endeavor to have a number of THE ALLIANCE taken in every Subordinate Alliance in the county. I believe, as you say, THE ALLIANCE will become an absolute necessity to every member of the Alliance. Why not? Every organization has its official organ; they can not live without one. Neither can the Farmers' Alliance.

Therefore success to your paper. We have not made that advancement in Alliance work, up to this time, in done, especially in our business work, partly from want of experience and partly from an injudicious selection of to be done. our county business agent. But as he has resigned, and as we are learning something every day, those two obstructions are out of the way, and the by millions outlook for the future is brightening up, and there is a manifest desire on the part of all to push things all along 900,000,000. In 1888 the most liberal es-

We have organized a county business association and filed the articles | United States treasury. of incorporation with the county clerk, and as soon as a sufficient amount of stock is subscribed will commence and in connection with the State Business Association. We have already as a County Alliance been buying flour and salt by the car-load with satisfaction and saving to all, and expect to connect other branches of business such as coal, lumber, and perhaps general merchandise, soon. As to the question of the union of the Northern and Southern Alliances, I believe the sentiment of the members of the Alliance in this county is in favor of such

Action on that question will be taken at our next regular meeting (2nd Saturday in Nov.) when you will hear Yours fraternally,

J. F. HARRISON.

HASTINGS, NEB. Oct 13, 1889. ED. ALLIANCE: Dear Sir: Will you be so kind as to inform Blaine Alliance No. 469, through your paper whether the Alliances of the southern states are se cret of open societies. Is their membership composed of both laborers and farmers, or only farmers, and farm labors. There seems to be a doubt with some as to the advisability of consoli-

Eligibility to Membership.

Respectfully yours, TRACY P. SYKES, Sec. ANSWER

The Southern Alliance is a secret so

dating with them at the St. Louis Con-

The provision in the consolidated constitution as to eligibility to membership is as follows:

ARTICLE VII. Section 1. No person shall be admitted as a member unless he has been a citizen of the State in which he resides for six month past, and not then

unless he be a farmer, farm laborer, country mechanic, country school-teacher.country physican, country minister of the gospel, or editor of a strictly agricultural journal of good moral character; mercial failures continually increasing, satraps. believe in the existence of a Supreme Be. a debt or slavery system established un ing, be of industrious habits, is a white der which only money-lenders grow person, and over the age of sixteen rich, while the producers of the country CAMBRIDGE, NEB. Oct. 22, 1889.

Furras County Alliance will meet in Hendley, on the 9th day of Nov. at 10 o'clock A. M. Delegates will please be prompt. There will be important business before the meeting. Take due notice and govern yourseives according-W. J. Halloway, Co. Organizer.

TANNER'S PLACE FILLED.—The president has appointed Green B. Raum commissioner of pensions. Mr. Raum is an old office holder, and a sharp, unscrupulous politician. He is also attorney for the whiskey association, and probably has the confidence of the liquor inter- interest at ten per cent and wheat at \$1 ests more than any other man in the per bushel. HENCE THE COST OF MONEY country. While it would not be fair to IS ALWAYS MEASURED BY THE VALUE OF from \$4 to \$5 more per car for their say this commended him to the president, it ought to have disqualified him. Mr. Raum can work the office for the administration for all it is worth; and he can be relied upon not to work his mouth too much. He has been a professional too long for that.

MONEY.

Has Money Decreased in the United States in Proportion to Production?

J. BURROWS IN FARMERS' VOICE.

THIRD ARTICLE.

In seeking for a correct answer to the above question let us glance at some figures showing progress in production.

In 1870 there were in this country \$140,000,000 invested in cotton manufacture, with an annual product of \$177-000,000. In 1880 the capital invested was \$219,000,000-annual product, \$210-000,000. In flouring and grist mill products in 1870, capital, \$151,000,000-product \$444,000,000. In 1880, capital, \$177,-000,000, products \$505,000,000.

In manufacture of machinery in 1870, ones to the best of my ability. capital \$101,000,000—product, \$138,000,-000. In 1880, capital, \$154,000,000-product, 214,000,000. In silk goods in 1870, capital, \$6,000,000-product, \$12,000,-000. In 1880, capital, \$19,000,000-product, \$41,000,000.

little over 3,000,000 bales. In 1880 it was 6,500,000 bales.

The sugar crop of Louisiana was 144,was 162,000,000 pounds. In 1880 it was 320,000,000 pounds.

road in operation; in 1880, 93,000 miles, and in 1886 136,000 miles.

In 1870 our agricultural exports were 391,000,000. In 1880 they were 686,000,-

761,000,000 bushels. In 1880 it was world. 1,754,000,000. In 1870 our production of wheat was 287,000,000. In 1880 it was 459,000,000 bushels. And so on, ad

In 1870 our population was 38,000,000.

In 1880 it was 50,000,000, and at the edness and stagnation and produced the for permission to lay a trap that is pretsame ratio of increase it is now nearly civilization of to-day. Crank of a later ty sure to snare him. I'll change his or quite 65,000,000.

cedented increase in population. The magnificent of the factors which constionly office of money being to exchange this county, that we ought to have products, it would seem that there should be a corresponding increase in the volume of money, in order to enable it to accomplish the increased work

> But instead of an increase there has been since 1865 an absolute decrease of many millions of dallars and a RELA-TIVE decrease that cannot be measured

> In 1865 the most conservative estimates place the volume of currency available for circulation at about \$1.timates cannot place it over \$1,500,000. 000. But of this last sum about six hundred million dollars is locked up in the

Deducting from the balance the amount usually in the banks, say about ix hundred millions, and only three hundred million dollars would be actubusiness. We expect to work through (ally in the hands of the people. This is a fair showing, and probably as near the actual facts at the present time as can

> Let us note the contrast between 1865 In 1865 business was being conducted

> on a cash basis, labor was all employed, the people were out of debt, and everybody was happy. In 1888 labor is only partially em-

ployed, many mills are shut down or running only part of the time, the credit | cheers.) system is universally used, everybody is n debt and everybody is miserable.

The universal debt of the country illustrates the situation better than any

other thing. Not only the farms of the country, but the chattels of the farmers are almost universally mortgaged. The lands of Kansas and Nebraska would not to-day sell for enough to lift the "last time" may prove prophetic. the mortgages in those states.

This condition of affairs has been brought about by contraction of the and this contraction has been both ab-

If there is any other cause sufficiently great to produce such an effect, I should be glad to have it demonstrated.

physical development of a young man, and should say to him, "Now, young this empiric, not knowing just what pople? amount might be required, placed the number of ounces too low.

Imagine the result. It is not necessary to describe it. But money is just ods have been he will command the supas essentially the vital elixir and life of port of the rank and file of the party our Nation, as the red blood that flows in his district. We confidently predict in our veins is of our physical bodies, it will be the last time. The republicans and the maintainance of an exact pro- of the Second district have been forportion relative to our national growth bearing and loyal to their party, and is as important as the preserving and their loyalty will stand the severest test supplying the vital fluid in the economy when they cast their votes for G. With this constantly increasing dischanged, what have we seen?

have been growing poorer day by day

and year by year. It has not been my purpose in these brief articles to discuss the different kinds of money. That is another branch of the subject. I have considered money simply as a creation of law, which it is

is delegated, the government acts through | animals. the intermediate agent. Men often speak of cheap money or dear money without a correct idea of ness or dearness of money are not measured by the amount of money paid for its use. What determines its cheapness or dearness is the amount of labor required to produce the product which is sold for the money to pay the interest.

For instance, with interest at six per cent and wheat fifty cents per bushel, money would be much dearer than with

LABOR. LOW PRICED LABOR MAKES DEAR MONEY-HIGH PRICED LABOR MAKES CHEAP MONEY.

money at commercial centers in such

But when properly studied these things more fully prove the truth of my asser-

It may also be thought that high prices for the products of the soil mean harder times for the labor of our cities and towns. But this is not true. Examination will show that when farmers' products bear high prices, and the farmers are prosperous, labor is more universally employed at good wages, and is in every way doing better than in times of agricultural depression like the present.

There is no subject of such vital importance to the people of this country

as this one of money I invite my brother farmers to think about it and discuss it. It is a plain subject, easily understood; its laws are simple and invariable. The only mystery about it will be found, in the fact that these dogmas of a false system of a dark and ignorant age have been handed down to our own time. I invite questions and will reply to candid

Cranks and Carpet-Baggers. From Chauncey M. Depew's Banquet Speech

at Cincinnati.] Now, there are two classes of men in this world grossly abused and greatly In 1870 our production of cotton was misapprehended, to whom the world owes all that it is and all that it will beand those two classes are its cranks and its carpet-baggers. These two words 000 hogsheads in 1870 and 218,000 in have been misused in the language, and 1880. In 1870 our production of wool vet there are no other two words that mean so much. Mme.Roland, the grandest figure of the French Revolution, In 1870 we had 53,000 miles of rail- standing before the guillotine, which was soon to take her life, said to the howling mob: "Oh, liberty, liberty, in thy name how many crimes are com- A red-lipped mouth that soft words speaks: mitted!" and the casual observer flings | A brow reflecting the soul within, his sneer at the crank, and on it his ob- Untouched by sorrow, unmarked by sin; jection to the carpet-bagger, without A crown of curls whose traceries hold In 1870 our production of corn was knowing what both have done for the The chestnut's warmth and the sunbeam

HER WORK.

I was much cheered in Birmingham by a circumstance I heard of when I returned after an absence of eight years. ful afterward is the genus crank When I was told of a lady who had gone to Ingalls came here nineteen years ago one of the meetings eight years ago, and heard the speaker remark that he "pitied any man or woman who had short time afterward a man came along | themselves been in the kingdom of God any length of time, and never had the luxury of leading a soul to Christ." Then she heard Mr. Sankey sing "Nothing but Leaves." She knew she never had the luxury of leading a soul to Christ; her profession, up to that time, had borne no fruit. But she had set to work, and the first thing she did was to speak to a poor fallen sister in the street. She got so interested in that one woman that she gave up all her spare time to this class; now she has the names of was for freight. A careful estimate between 200 and 300 who have been showed that the producer could not rescued from a life of shame, and have have received over 12 cents per bushe been helped back to live pure and use- for the oats. There are 120,000 mile

ful lives. I think she is the happiest of railroad in this country, capitalized woman I met in Birmingham. She thought she had no special ability, but she did what she could, and God has blessed her in the work. It seems between real and fictitious value is \$5, has blessed her in the work. It seems A packed convention, domineered to me as if she were one of the most useful women there is in that town toof terms of her and her work. It is a quiet work, but my experience leads me to think that the people that make the most noise accomplish the least after where I was born. When there comes a flood of rain you can hear the brook pockets of just such men as farmer A. rushing and roaring if you are nearly a and unjustly distributed to the four mile off. But after a few days of sunshine there is scarcely anything left in it. There is a great river that flows by. and I never heard it in my life. Towns have been built upon its banks, and everything prospers where it flows. So this woman has not blown any trumpet, but she is doing a most blessed work .-D. L. Moody, in the Watchman.

This is one of that the glorious triumph there could never have been achieved without the help of the Farmers' Alliances. Hail then to a society that does a work so beneficent. That, and the kindred organizations that have redeemed the vast territory of these two new states from the dominance of the liquor curse have doubtless laid the foundations of states The stock is all for sale, and Mr. Robinson announces positively no by bidding. The customary credit given on of history. Now let Nebraska, with a laudable rivalry, determine not to be the depository of the vice and crime that prohibition will drive from the states that bound her on three sides, but to rise to ner oppertunity and stand in the front rank of progress. Our task is more difficult than that of the Dakotas,

but so much grander will be our victory. It shall be the mission of our column to persuade those whose plows are converting the desert places to fruitful against the encroachment of vice.

FALSE DISTRIBUTION.

How the Farmer is Sacrificed.

BY N. A. DUNNING IN NATIONAL ECONO-MIST.

Farmer A in Kansas has 1,000 bushels of wheat (this year's crop) in condition to sell. He goes to his market town to ascertain the price. It makes no difference what his wheat has cost, or what profit he ought to receive for his trouble, risks and labor. These important features are not taken into consideration. as further developments will show. His wheat may have cost in labor value two dollars or even three dollars per bushel; no matter if it cost twenty, it fails as a factor in any argument where the money price is to be established, as commercial value or price considers no cost in production. The following is the usual method of obtaining the information farmer A is seeking:

The New York dealer ascertains the price of wheat in Liverpool. From this he deducts the freight between New profits. The remainder is given as the New York price.

The Chicago dealer deducts from this the freight between Chicago and New York, also insurance, interest, waste, and his profits, and the remainder is

quoted as the Chicago price. The home dealer subtracts from this the freights to Chicago, insurance, interest, waste, and his profits, together with an extra slice for fear something has been left out, and the result is given farmer A as the highest price for his wheat. If he declares it too low, that it will not repay him for his labor, he is informed that such assertions don't count; that he ought to understand while he and his farm can produce the wheat, it requires the consent of the whole business world to put a price on it. Farmer A goes home discouraged and disgusted. He realizes something is wrong somewhere, but never for once thinks of the unfair distribution that lies at the bottom of the whole difficulty. Naturally he locates the somewhere; not so much with the idea of being correct as that of having something to find fault with, and thus give vent to his indignation. Usually, if a Republican, he charges it to the agitation of free trade; or if a Democrat, to the doctrine of protection, and in either

At this time we will suppose the New York market to be ninety cents. Th 1,000 bushels under consideration would for his crop. It is not difficult to see portion of this was distributed for value received? Of course there are various opinions upon this subject, but those who have made a careful examination contend if the same rigid economy were practiced in handling of grain after production, that is enforced during produc tion, this 1,000 bushels of wheat could have been marketed at either of the sea board points, with all charges paid, for \$75. A little figuring will show an un just distribution of \$225; that is, instead of paying this amount to farmer A in addition to what he received, it was paid to other persons who did not return an equivalent. If, by certain manipulations in buisness, farmer A on 1,000 bushels of wheat is robbed of \$225, who can estimate the vast amount of money taken from producers each year through similar methods?

I have before me a statement of a car of oats sold in this city (Washington) from Chicago. The price paid was 24 cents per bushel delivered here. The car was billed at \$410, of which \$185 and bonded for \$60,000 per mile on an average, that can be duplicated for less 040,000,000. The telegraphs and tele phones are capitalized at \$120,000,000, one half of which, or \$60,000,000, is fic tious. The dividends paid upon these two items alone, figured at 7 per cent amounts to \$357,500,000. Add to thi the profits of insurance companies and the vast sum absorbed by the banks, and we have a grand total of more than one billion of dollars that is taken from the classes of business named above. This ought to convince any person that the subject of distribution should be carefully studied, to to the end that peremptory demand be made, backed up by a thorough understanding of the subject, that the whole system of distribution be reorganized upon lines of jus tice and equality to all.

To do this, united action is absolutly

nessessary, and united action only comes through intelligent reesarch and combi-

200 High-Bred Holstein-Friesian Cattle. Deep Milking Strains at Low Prices.

PRODUCE The way to do this is to ship your Butter, Eggs, Poultry, Veal, Hay, Grain, Wool, Hides, Reans, Broom Corn, Green and Dried Fruits, Vegetables, or anything you have, to us. The ract that you may have been selling these articles at home for years is no reason that you should continue to do so if you can find a better market. We make a specialty of receiving shipments direct from FARMERS AND PRODUCERS, and probably have the largest trade in his way of any house in this market. Whilst you are looking around for the cheapest market in which to buy your goods and thus economizing in that way, it will certainly pay you to give some attention to the best and most profitable way of disposing of your produce. We invite correspondence from INDIVIDUALS, ALLIANCES, CLUBS, and all organizations who desire to ship their produce to this market. If requested, we will send you free of charge our daily market report, shipping directions and such information as will be of service to you if you contemplate shipping. Let us hear from you.
