The Alliance!

THE FARMERS' OWN PAPER!

Magnificent Premiums!

The Alliance has been started as the official organ of the Nebraska State Farmers' Alliance. It has already taken a high place among the papers of the country, and is gaining patronage which promises to make it a brilliant success.

It will be conducted SOLELY IN THE INTEREST OF THE FARMERS AND LABORING MEN OF THE STATE AND NATION.

J. BURROWS,

its Editor, is President of the National Farmers' Alliance, and Chairman of the Executive Committee of the Farmers' State Alliance. He has had long experience in newspaper work. He will bring to his able men in different spheres of thought, and will make THE ALLIANCE one of the ablest papers in the west.

MR. THOMPSON, the Associate Editor, is Secretary of the Nebraska State Alliance.

THE ALLIANCE will be absolutely FEARLESS AND UNBAMBLEDED in the discussion of all public questions. Its publishers will accept no patronage from corporations that will embarrass their free expression of opinion upon all topics. NO MONEY WILL BUY THE OPINIONS OF THIS PAPER.

THE ALLIANCE will be found in the front ranks of the opposition to all trusts and combinations to throttle competition, and extort from the producers and laborers the lion's share of the fruits of their toil.

We shall advocate the free coinage of silver the same, and its restoration to its old time place in our currency.

The issue of all paper money direct to the people on land security, and an increase of its volume proportioned to increased production and population; government ownership of railroads; The U. S. postal telegraph.

The restriction of land ownership to the users of land, and its reasonable limitation; The exclusion of alien landlords; The election of U. S. Senators by a direct vote of the people;

And all other reforms which will inure to the benefit of the Farmers and Workingmen.

Now Brother Farmers and Workingmen, it remains for you to prove that the often-made assertion that you will not stand by your own friends, is false. We appeal to you for support. Give us your support and we will give you a grand paper.

Every member of the Alliance, and every Farmer, should make the success of this paper HIS OWN INDIVIDUAL CONCERN.

We want an agent in every Alliance in the North.

Single Subscriptions \$1.00 per year, invariably in advance; or, Five yearly Subscriptions Four Dollars. Canvassers wanted.

SEE OUR MAGNIFICENT PREMIUM OFFER in our advertising columns.

All kinds of Job Work

Promptly and neatly executed at reasonable prices. Particular attention given to Alliance work.

Address, ALLIANCE PUBL. CO., Lincoln, Neb.

**Murdered His Son.**  
Chicago, Dec. 1.—A Tribune special from Celina, O., says: About a mile south of here yesterday several men found John Tugur lying by the remains of a blazing fire and shot through the body. When questioned about a boy seen with him the night before Tugur replied that he was in the fire, pointing out where parts of the boy were still floating in a tank of water. The men dragged the ashes and found buttons, buckles, bones and pieces of roasted flesh, all that remained of a fifteen-year-old lad. Tugur, whose bullet wounds were not severe, stated that the lad was his son, John. They had been tramping and Friday night he drove the lad out to beg. The lad followed returned late without anything. This incensed Tugur, who set the boy at work gathering a large quantity of wood, with which an immense fire was built. Late at night they quarrelled, and he struck the boy, crushing his skull. Alarmed at what he had done and thinking to destroy the evidence of his guilt, he hung the boy into the fire and spent the balance of the time until daylight poking the body with sticks to destroy it fully. With the morning the armed men returned and turned his pistol, which contained but one load, against his breast and fired.

**The Champion Bicyclist.**  
Chicago, Dec. 2.—Tom Roe, the bicyclist, completed his overland trip on his wheel from San Francisco to Chicago this afternoon, arriving there at thirteen minutes to 2 o'clock and beating Tom Stevens' record by twenty-four hours and thirteen minutes. The cyclist, attached to a machine which registered 2,777 miles. This is 653 miles further than Stevens rode in seventy-three days. A grand parade of whistlers will be given tomorrow night in honor of Roe, to be followed by a banquet.

**A Squeeze in the Corn Fit.**  
Chicago, Nov. 30.—Corn sold away up on the market yesterday. The November option started in at 34 1/2 cents and advanced to 43 1/2 cents during the first hour. By 11:30 the price had advanced to 55 cents. The squeeze was headed by shippers for New York and other eastern markets, and is said to have caused "Old Hitters" and most of the smaller buyers.

NEBRASKA NEWS.

Fire at Fremont.

Fremont special: The most disastrous fire in the history of Fremont occurred at 5 o'clock Tuesday morning, resulting in the entire loss of the fine two story brick block belonging to Franklin Ward of New York city, together with its contents. The building was occupied by Goldgraber Bros., dry goods, and N. Tampler, clothing, each being among the heaviest merchants in the city. It is thought the origin of the fire was from the explosion of a lamp which was left burning in Goldgraber's store. Both the proprietors and two or three clerks were sleeping in the second story and their first knowledge of danger was when they were awakened by the stifling smoke. The fire had gained such headway before being discovered that it was impossible to put it out, though the fire department did good work in confining it to the one building. The loss is estimated to be from \$50,000 to \$60,000, of which about \$9,000 was on the building and from \$20,000 to \$25,000 on the stock of each of the firms.

An Elephant on a Rampage.

West Point special: The usual loungers at the depot Thursday morning were more than ordinarily surprised when the up-freight train, No. 4, backed in on the sidetrack and all hands were called to assist in unloading the local freight. To the great surprise of all, Station Agent Drebert called for one elephant. All was commotion once, but the animal was safely landed on the platform and worst sent immediately to Messrs. Sonnenschein & Valentine, the parties to whom the animal was billed, to come and receive their freight. Sonnenschein repaired to the depot and was lost in admiration of the fine points of the animal, but when the freight bill was presented, which was about \$500, refused to pay the same. Word was at once sent to headquarters at Omaha to find out what was to be done. In the meantime the elephant had broken out of the crate in which he had been confined and had started up the principal street of the city. His first objective point was a heavy stable, which fronted on the street, evidently in search of a Thanksgiving dinner. From here he made a raid upon the front of Crawford & Draho's new brick block, smashing in the entire plate glass front. Crossing the street he entered the drug store of Thompson Bros. and demolished one entire side of their elegant store building. His career of demolishing was stopped here. Coils of rope were thrown around him and, followed by the entire populace of the town, was led back to the depot in triumph. It seems that Sonnenschein & Valentine had ordered the animal for advertising purposes some time last spring, but not hearing from their order, had given up all thoughts of ever receiving him, and are not prepared to care for him. In the meantime Agent Drebert is anxiously awaiting orders from headquarters, while sixteen men are employed for the night to guard the animal.

Word was sent to the agent here to hold the elephant received yesterday until all charges are paid. He at once sent word to the people to keep their children at home and ordered forty tons of hay and three hundred bushels of corn. A petition is being circulated for a requisition to order the animal removed from this vicinity. Last night about 12 o'clock the fire bell rang and the people turned out in force, but upon examination it was found that it was nothing but an electric disturbance in the elephant's hair. At the same time all of the electric lights in town went out. The people are anxiously awaiting the next freak.

All Over the State.

Cushing, the democratic nominee for mayor of Omaha, was elected by about 1700 majority.

He Got the Whisky.

KANSAS CITY, Nov. 3.—Rev. H. H. Russell of this city went to Kansas City, Kan., Monday evening to deliver a lecture on Bamcroft's tamale. The reverend gentleman having learned that it was possible to purchase liquor in a prohibition town, experimented somewhat. Stepping into a grocery house on Minnesota avenue he asked for a quart of the desired article, and was furnished with a half pint. The next place visited was a blacksmith shop. Here he was told he could get whisky if he had money with which to pay for it. He put up fifty cents and got another half pint.

Mr. Russell's purchases are all on exhibition at the tabernacle, labeled with the name and place of business of the seller.

An Independent Movement.

BUFFALO, N. Y., Dec. 1.—Has the rumored removal of the Washburn-Crosby mill from Minneapolis to Buffalo, as contemplated, anything to do with the Niagara River company, which was incorporated to construct a tunnel from Buffalo to Niagara Falls in order to utilize the current of Niagara? was asked General Jewett, one of the incorporators, this evening by a United Press reporter.

"No, it is an entirely independent movement," when questioned as to the probable cost of the tunnel project Mr. Jewett said the company had estimated the cost at \$4,000,000 and that the money would be raised in the east within four months' time. Mr. Jewett added that the route had been selected and plans for the tunnel prepared.

They Curried Him.

INDIANAPOLIS, Nov. 30.—A special from Jeffersonville says the Harrison county white caps are at work again. Their latest victim was a worthless fellow who worked a broken-down old horse incessantly with little feed. The white caps caught him, hatched him up and made him do his horse's work one whole night. When they brought him back to the stable he endeavored to be facetious and remarked that he always curried his horse after working him. The obliging white caps took him in his word and with the coarsest curry comb they could find in the stable groomed the unfortunate wretch's back until the blood ran.

An Edgar firm advertises to give a sack of flour with every 50-cent can of baking powder. The Times of that city well says that the profit on baking powder must be very large or the quality of the flour very poor.

The Sisters of Visitation academy at Hastings has been completed and preparations are being made for its occupancy. The structure is three stories high, 60x184 feet, constructed of Colorado sandstone and is considered an important acquisition to the city.

During the past week several accidents occurred at Ogalalla. John Eickberg received a broken leg and arm while handling cattle. A Fisher fell from his wagon, breaking his arm, and J. M. McCarthy had a collar bone broken by his horse falling on him.

While Mr. and Mrs. Phillip L. Yost were returning to their home five miles southeast of Harvard, the team became unmanageable and threw the occupants from the wagon. Mrs. Yost striking upon her head and shoulders, inflicting injuries which caused her death three days later. The deceased was only twenty years of age and had been married less than a year.

A dispatch says: When Superintendent Backus took charge of the Genoa Indian school he found it in about as bad shape as it would be. Nearly one-half the pupils' time expired the following June and the school was so nearly bankrupt that he had to put the employes on half pay and also sell off school clothes, to pay the running expenses for the rest of the fiscal year.

But he was evidently the right man in the right place, for although he has had charge of the school but at nine months, he has doubled the quota, succeeded in getting the school graded and a high school established, a grade in which only three schools in the country enjoy, and thus in nine months he has succeeded in taking the school from a fourth place and placing it in the front rank. A large number of building are to be built to accommodate the increase of pupils the coming season. Mr. Backus deserves great credit for his untiring efforts in behalf of the school, as all this has been accomplished by hard and persistent work. The school now has over 350 pupils.

Burned to Death.

PHILADELPHIA, Pa., Dec. 5.—The bakery of Gustave Bros. of this city was totally burned at 3 o'clock this morning. Groped from the flames half dressed, his wife and four children were burned to death. Their bodies have been found in the ruins. Another family consisting of three persons was also killed. A factory near Fort Sedgwick military reservation in Colorado and Nebraska under the management of Gustave Bros. is writing in certain cases.

Padlock of Nebraska, to provide postage on remittance of lands not patented or paid for by the Pawnee reservation of Nebraska; dropping the secretary of the Interior from the cabinet; increasing the number of Indian depredations, whether they were suffered by the Pawnee reservation or not; the bill introduced by him in the last congress to prevent the summary cancellation of pension certificates and to provide for the payment of pension arrears with slight modifications; requiring transcripts of judgments obtained in United States courts to be filed in the respective State courts; and increasing the number of enlisted men to 30,000.

Manderson of Nebraska, providing for the payment of interest on lands not patented or paid for by the Pawnee reservation of Nebraska; dropping the secretary of the Interior from the cabinet; increasing the number of Indian depredations, whether they were suffered by the Pawnee reservation or not; the bill introduced by him in the last congress to prevent the summary cancellation of pension certificates and to provide for the payment of pension arrears with slight modifications; requiring transcripts of judgments obtained in United States courts to be filed in the respective State courts; and increasing the number of enlisted men to 30,000.

A Terrible Cyclone.  
NEW YORK, Nov. 20.—A Charlotte, N. C., special says a destructive cyclone, sweeping over a portion of Buford county yesterday, doing great damage. The residence of a farmer near Washington, the county seat, was blown down and the whole family, consisting of the father, mother and four children, were instantly killed. A factory near Washington was blown down and two persons killed, while a dozen others received serious injuries. A train of the Chesapeake and Ohio, bound for Chicago, was derailed and its cargo was scattered over a large portion of the county.

No Help Wanted.  
FANKTON, S. D., Dec. 1.—Large quantities of fur, clothing and provisions have been contributed in this city to aid the drought sufferers in Sanborn and Miller counties.

South Dakota people are abundantly able to take care of their few drought sufferers and will do it, and they brand as infamous the falsehoods being circulated in the east that the people are starving and need aid. Large shipments of horses, cattle and sheep are going east. The next crop of wheat is estimated at 4,000,000 bushels, enough of all to keep the people and to spare.

Let the eastern money bags look out for the starving poor of their own communities and Dakota will take care of herself.

Faced a Fearful Doom.  
MINNEAPOLIS, Nov. 30.—The Tribune building is burning. Several lives are lost. At least six men are killed. Those known to be dead are Harry Colwell and ——— Cutcherson, printers in the Tribune composing room, who were killed by jumping from the building. The Vermont building, near the Tribune, was also destroyed. The editorial rooms on the sixth floor, fell from the fire escape and were instantly crushed. The editorial rooms were here with his brother and made a friendly call on a friend connected with the Tribune. One unknown man, who says he carried the cordial aid of all members of this house, (Long and continued applause.) The next morning the Tribune building was in flames and the members of the staff were the victims of the fire.

Storms in Indiana.  
FORT WAYNE, Ind., Nov. 29.—Traffic on the roads centering in this city was greatly delayed and in the case of the Nickel Plate line entirely suspended last night by the heavy fall of snow. Drifts four feet high near Knox, west of this city, stopped all trains on the Nickel Plate road until 10 o'clock this morning, when the track was cleared. Two unemployed wrecks came on the Pennsylvania road. West bank freight No. 95 was derailed at midnight and the engine broken and ten cars were piled up in a heap. Freight train No. 29, also west bound, was wrecked at 3 o'clock in the morning and several cars were derailed. No one was injured, but passenger trains were delayed for five hours.

Declared Void.  
TOPEKA, Kas., Nov. 30.—Judge Brewer yesterday rendered a decision that part of the Topeka tract inspection ordinance which provides for the inspection of the animal before slaughter within a mile from the home built, is an obstruction of interstate commerce, and therefore void.

CONGRESSIONAL.

The Senate.

WASHINGTON, Dec. 2.—After the swearing in of the new senators at 12:35 the session adjourned.

There was little or no excitement attending the opening of the fifty-first congress in the Senate. The session was attended with curiosity and was largely with the house side. Several of the foreign delegates to the maritime and Panama conference and a number of ladies occupied seats in the diplomatic gallery. Sir Julian Pannocofe, British minister, and Admiral Kitchin of Russia were among the present. The interest on the floor was devoted largely to the senators from the new states. They had been assigned to their seats on the republican side of the chamber. On the democratic side are two seats so far unassigned.

WASHINGTON, Dec. 3.—The reading of the president's message was concluded at half past one, being occupied by the president for twenty-five minutes. It was listened to with apparently close attention by senators on both sides of the house. On motion of the minority the session adjourned at 1:30 adjourned till tomorrow.

WASHINGTON, Dec. 4.—The credentials of Messrs. Pierce and Casey as senators from North Dakota were presented, read and placed on file. The two senators then advanced to the desk and took the oath of office.

Various executive reports and communications were presented and referred to the appropriate committees. Several petitions were also presented and referred, among them the following:

By Callum for the Short Horn Producers' association, in favor of subsidies for steamships to South and Central America and in favor of the site for the new world's fair in 1894.

By Cookrell, of the Kansas City commercial exchange, in favor of St. Louis as the site for the world's fair, with Chicago as second choice; also in favor of a 1 cent letter postage.

Manderson of Nebraska, to increase the efficiency of the infantry of the army, providing that each regiment shall consist of seven companies, each company shall have four officers, and increasing the number of enlisted men to 30,000.

Manderson of Nebraska, providing for the payment of interest on lands not patented or paid for by the Pawnee reservation of Nebraska; dropping the secretary of the Interior from the cabinet; increasing the number of Indian depredations, whether they were suffered by the Pawnee reservation or not; the bill introduced by him in the last congress to prevent the summary cancellation of pension certificates and to provide for the payment of pension arrears with slight modifications; requiring transcripts of judgments obtained in United States courts to be filed in the respective State courts; and increasing the number of enlisted men to 30,000.

On the seventh floor near the composing room, the boys were up on his trip and called to the young man to come into elevator, but he seemed "lagged" by the heat and smoke and deliberately drew "reverser" from the shaft. He had falling on Smith supposed, quite dead. Just before he fired the shot he exclaimed "My God, my life and—" Then the bullet did its work.
