The time was when Mr. Edmund's vicious threat might have carried terror with it.

The story is told that a certain village of Switzerland the inhabitants for generations were made to believe that it was necessary to keep a live bear chained in the public parkeven though its pressure terrorized the people especially the children! If it so happened that the bear died the inhabitants at once procured another through fear of direful things chained bear in the park

But it so happened that on one occasion bruin died and no new bear was found to take its place. Lo! and behold, nothing appatling happened!

He is it not a little nurea-smalle to expredicts direful things should the calf die or get away. No knowing what might happen!

As we said, the time was when the threatening utterances of so distinguished and inacential an individual as the ex-senator believes himself to be, would have carried terror with them. But, thank the bright stars, that day has passed.
