Cyclone.

We now have on file over \$170,000 of We now have on file over \$170,000 of Insurance but we will not rest easy until we have a half million dollars worth of property covered therefore are anxious to have an agent in every county in the state. This is not a money making scheme for the agents or any one else but the agent can make a few dollars by looking up the insurance in his neighborhood and up the insurance in his neighborhood and writing all he can st \$1.00 for each ap plication, as we want to avoid expense to the Company we ask each agent to send 50c for Auditor's certificate which all insurance solicitors must have,

Only last Friday, May 27th Kausan had a cylone. It may be our torn next who knows? In time of a calm prepare for a storm by insuring in our Mutual Cyclone

We have 20000 acres promised but until this price it's almost giving them away we have 100,000 acres we will not go to the expense of printing any contracts. Read Insurance Department in last week's ALLIANCE and then report the number of acres you wish telesure. The time is getting short therefore if

you are desirous of insurance tell your neighbors about it and ask them bow much they will insure and then report their name, post office, county and numher of scres.

One man sent in 4,390 acres at one time with 50 names. We have insurance promised from over thirty counties still there is sixty to hear from.

Manner of Adjustment We have had several letters asking about this important part of a hall Company. In answer to which we will say that when we insure we mean just what our contract says, that is if a member has a loss by hall be will get pay for the loss. The this week only barvesting, threshing and the marketing has nothing to do with the adjustment of a half loss. We insure against loss by half and if a farmer has a loss we deem our Company liable for the payment of it in full up to five dollars. The only honest way to adjust a hall loss is to compare the number of bushels per acre with a neigh-bor's field in which there was no hall and then give the market price per bushel.

People's Independent Convention. The independent voters of Pierce county, Nebraska, are requested to meet in mass convention at Foster, June 18, 1892, to select delegates to attend the different conventions to be held prior to the general election in November, 1892. It is earnestly requested that every voter who favors the platform and address of the indepen-dent party at the St. Louis conference, Feb. 24, 1892, be present.

To the independent voters of Piorce county, Nebraska: The county Central Committee of Pierce county met and arranged to have the precinct primary meetings June 11, county convention June 18.

As there seems to be some misunderstanding about who should call the con-vention, and as time is too short to mak other arrangements, I take this method of calling you together. I also believe it to be the best and only way to get a fair and full expression from the people.

WM T. KIRK, Chairman County Central Com.

THE federal officers under Harrison and the ex-federal officers under Cleveland and the would-be federal officers under Blaine are all fairly consumed by a burning, unselfish desire to serve their country, for their country's sake. It is unfortunate that they cannot all have an opportunity to sacrifice them--> selves.

In the lact issue of the Lincoln Herald, its versatile editor makes a pretty story about a party of Nebexpedition with twenty-seven Bactrian camels, and that Col. Gran Ensign contributed a small flock of female goats, the writer says, "Col. Edward Rose-water, as being the best milker in Nebraska, was placed in charge of the deconfessed that a goat teat was a trifle than \$200 a year, while the average smaller than he was accustomed to. To a man familiar with Nebraska polities the joke is apparent.

The supreme lodge of the Ancient Order of United Workmen convenes at Helena, Montana, June 15th, 1892. For this occasion the Union Pacific System will sell tickets to Helena and return at the low rate of one first-class fare for the round trip. Tickets on sale June 7th to 14th, limited to 30 days from date of sale and 10 day transit limit in each direction. For tickets or additional information apply to J. T. MASTIN, C. T. A. 1644 O St.

Half Baby, Half Philosopher,

Horace Greeley bore his character in his face-half baby, half philosopher. The sweetest child that ever looked into its mother's eyes had not a more benevolent expression than his countenance habitually wore. The worse portrait does not quite obliterate it; the best renders it imperfectly. The politican who said, "A man who would hurt Horace Greeley would strike his own mother," coughly expressed the feeling which the child-like part of his face often excited. His voice, too, was the pipe of a child. But above the eyes there of a child. But above the eyes there of a child. But above the eyes there of hand that oughly expressed the feeling which was such a noble dome of head that a Greek sculptor would have been gind to take it for the model of benevolent wisdom. His demeanor showed similar contrasts. From that baby face what torrents of bad words would come, with no 180re Market lower; all grades, \$4.0234.53. malice behind them than there is when someone has broken its toy.
With a pen in his hand and a subject before him suited to his talents and disposition, as well as to the momentary needs of The Tribune, what editor ever wrote more effectively?—

Cheapest Store in the State.

Cannot Be Higur.

That is what plain-spoken, bravehearted, clear-headed old Thomas Carlyle called it. If he had been in America about this time he might have called it "An American's Heli."

Dr. Lyman Abbott called it in more polite phrase. Wage Earners' Wrongs." Yet he speaks of them Wrongs." Yet he speaks of them freely and fearlessly. Here is what Here then, is the wage-carners'

indictment of the wage system. ·Every man has a right, because he has a duty, to earn his bread by the sweat of his brow. The wage system denies this right to myriads of willing workers. In America, the workingman's Eldorado, nearly 1,000, -000 willing workers are out of employment. Enforced idleness, says Carlyle, is the Englishman's hell. That system cannot be right which turns 1,000,000 of willing workers in raskans going out in search of Col. rich America into this hell and locks Robert McReynolds. After stating the door against them. Every man that Col. G. B. Skinner supplied the has a right to the product of his own industry; under the wage system the greater part of the products of industry go into the hands of the few tool owners. The wealth of this country has increased during the past quarter century from fourteen billion to fortypartment of herds and lacteal supplies. He pledged himself the party should lac for nothing in his line—though he unskilled laborers were in 1884 less four billion. A careful statistician

wages of workmen engaged in manufactures, including skilled laborers, was but \$346 a year. That system cannot be right which gives the profits of industry to the few and compels the many to live always praying. Give us this day our daily

TELEGRAPHIC BRIEFS.

The I. S. Remsen carriage factory at Brooklyn, N. Y., was destroyed by fire. Loss, \$75,000. The general sentiment in France, even

among the clergy, is in favor of the opening of the Chicago world's fair on In a duel between M. Coutier, a deputy, and M. Burdeau, a Paris journalist, in Paris, the latter was badly

wounded in the arms. The first Behemian soldiers' monument in this country was dedicated at Chicago in the Bohemian cometery. It

is a handsome structure. Twenty-five young women from Norway and Sweden arrived at New York on the way to the Dakotas and Minne

sota in search of husbands. THE MARKETS.

The Eye and Ear

Are two most delicate and complicat ed organs; without the eye we could not guide our footsteps nor observe the beauties of nature; without the ear we could not hear the voices of our friends nor enjoy the sweet sounds of music. No one is so helpless as the blind and more deserving of pity than the deaf. Many persons lose sight or hearing by neglect, which timely aid might prevent. Among the specialists Lincoln. Mr. C. M. Marshall who has been in the employ of the big furniture dealers, Gruetter & Co. was deaf in one ear from which was a constant offensive discharge for twenty-five years. Dr. cured it entirely in one month. Mr. Willis Short, Clerk in the Mo. Pacific R. R. offices, Mr. George Carter, com-mission merchant, Mrs. Edward Grouse, wife of a steam fitter with Pomerine & Cooper, Mrs. Chas. Hook, fire-man on B. & M., Mr. T. E. Slatterly. guard at the penitentiary, and dozens of geod-other well known Lincoln citizens have quan. been cured after other specialists had failed. Dr. Dennis' is a graduate of Rush Medical College, Chicago, the Post Graduate Medical College, N. Y. City and the Polyclinic Hospital, N. Y. City.

Corn Doss Not Make Bone,

Even Western prairie farmers are beginning to learn that Indian corn is not a well-balanced ration for hogs. Corn makes lat-too much of it, in fact -but it does not supply equally necessary elements in the animal structure. It does not, for example, furnish sufficlept bone-making material. Insome careful experiments made at the Wisconsin Agriculture Station this fact was plainly shown, and that if stronger bones were desired the corn must be supplemented by food containing elements of which they are composed. It was found that by feeding bone meal, for instance, the strength of the thigh bones could be doubled, and that hardwood ashes searly doubles, the strength of the bones.

The results of the experiments are summed up in the statement that preg-nant sows and growing pigs should not have their diet restricted to corn, although that grain is exceeding val-uable as a part of the ration. A variety of food should be provided such as clover, blue grass, shorts, peas, oats and skim milk. These menish ash material as well as muscle food, and some of them, at least, should always be fed along with the corn. The complaint of prairie farmers that their hogs are "too fine in the bone" would soon cease if they would supply their hogs with bone-making food. Even charred corn cobs are better
