the proverbial "red rag to has a similar effect in the se which the cry of "paying o.

debt" used to have through and Democratic Parties and in twenty-nine states declared plainly for the free coinage of silver. On twenty years past is that of alive sectional hatred. There Record of the Past doubt that the bourbon brs on the Silver as the republican leaders of the nonstion.

And now that they face the prospect of a divided south, they are making a last frantic effort to keep alive this sectional hatred by the cry of "force bill." How far they will succeed remains to be seen. We believe the people of the south are too intelligent to be duped into the service of Wall street by such a scheme We believe they will stand true to their brother toilers of the north in the first genuine effort to bary sectionalism that has been made rince the war.

A WORD OF WARNING.

We feel fully justified in giving the members of the people's party a word of warning as to certain developments which will show up in the near future, if the plans of the old party leaders and tailroad cappers and deserters from the independent party do not run amuck.

Certain republican leaders have been giving it out, on the sly, that in the course of time the independent part/v. 1/2 this state, would be split wide the That plans were being laid f. h. h. would array one faction against a .of or and disrupt the organization to fac an extent as to remove all possibly of the state going independent the fall.

"Fore warned is fore arm 1." The independents, by being on a wa'ch for this move, will not be su prind and taken in by it. We are sor at suspect that men who have been to ast 1 by the people's party are negotic in with the republicans to disrupt our conventent. But if such be the case set as no be thrown off our guard then the up is

silver or any Harrison of course signed this bill. Thus he succeeded in doing

In 1890 another turn in the political wheel of fortune came. The democ stump they assailed the republicans for their course in defeating the fr age measure in 1889. They were victorious, electing about three-fourths lower house. More than two-thirds of these representatives were out pledged free coinage men. Then the people said: "We are going to get thing at last." But to their deep disgust and disappointment the Bland bill w killed, and all hopes of financial relief from this congress were blasted. During all this time Grover Cleveland has been using all his influence and prestige as an ex-president and prospective candidate, to prevent any silver legislation.

The history of the two great conventions just held is too fresh to need comyour attention is invited to prompses of circumstant of the money power scored a signal triumph.
