THE TARIFF QUESTION.

Mr. G. H. Gibson's article in another column proposing a tariff policy for the new party is worthy of a most careful consideration. He is certainly right in rich sain that the new the boothirst cone a position on the tariff question. He is right again in saying that the people's party is the only party that can or will give the people a genuine reform of our system of national taxation.

> It is all very well and proper for people's party men to ridicule and denounce the farcical warfare of the two old parties on the tariff question; but when it comes to saving that there is "nothing in the tariff question," that is a very different matter. And it is high time the people grappled with the question in earnest.

> Mr. Gibson's proposed plank is very ingenious, and undoubtedly has many merits. Whether it would be advisable to adopt it at Omaha, we are hardly prepared to say. The great popularity achieved by Blaine's reciprocity idea in so short a time would indicate that the people are ready to endorse such a plank as this. Let us hear from others on this subject,

EVEN the Journal has finally concluded to notify its readers that there will be no democratic-alliance fusion down in Kansas this year. That settles it.

GOVERNMENT OWNERSHIP.

Mr. C. M. Clark of Lincoln, who is a strong advocate of government ownership of railreads, hands us the following copy of a joint resolution introduced by Representative McReynolds of Clay county at the last session of the Nebraska legislature:

That our senators and representatives congress are hereby requested to imdeavor to secure the enactment of a bill that shall provide:
