**Nebraska Enterprises.**  
The patriotic Nebraskan feels as much pride, doubtless, in the enterpriser of his state as the citizen of any country in the world. The hue and cry about manufacturers becoming millionaires through our present protective system does not apply to our Nebraska manufacturers, especially those whose labor and interest is in behalf of the farmer and his wife. The ALLIANCE-INDEPENDENT must be excused for entertaining a most kindly feeling toward such institutions as the *Chase Manufacturing Company of Lincoln, Neb.* It belongs in effect to the farmer and the farmer's wife. With its business headquarters established at the capital of the state, and its large factory in operation at Weeping Water, it is the subject of honest pride to every citizen. It is a new company having a capital of \$120,000 paid up. Wm. M. Oylar is President, W. J. Waugh, Vice President, L. C. Humphrey, Secretary and J. Chase, Treasurer. The management of the factory is under the personal direction of Mr. Chase at Weeping Water, who is well fitted for this position, having had several years successful experience in manufacturing business. Mr. Humphrey who organized and carried on the Nebraska Savings bank of Lincoln has resigned his position as bank cashier to take charge of the output of the factory and has opened general offices for the institution in the Y. M. C. A. building in the city of Lincoln. The gentlemen are prominent and popular citizens, all men of acknowledged ability and public spirit. The specialties of this manufactory are: The Improved Noble Sewing Machine, The Addis Wind Mill with Hinged Tower, The Favorite Stock Waterer and Steel Letters, Figures, etc. The improved Noble is a sewing machine of the highest order, as good as any in the market and embraces the modern improvements. It is light running and elegant in finish and the stand light and graceful, is made of rolled and bent steel, being the only machine made with a steel stand. The Addis Wind Mill commends itself especially to the favor of farmers in all prairie states because of the novel arrangement whereby a few turns of a crank lays the wind wheel flat upon the ground where it is safe from high winds, saving a wonderful amount of wear when not in use, and making it very easy to oil and keep in repair. Every stock raiser will appreciate the Favorite Stock Waterer. It is simple, cheap and in effect is better than a living spring on a man's farm, for it can be located wherever it is desired to use it. The company has many flattering testimonials from farmers who have been using them. The fixed principle of the company is to turn out nothing but the best articles and sell them on their merits. President Powers will speak at Kearney July 12th, Calloway July 13th, Broken Bow July 14th, Mason City July 15th, and Ravenna July 15th. Ratification meetings will be held at these places and everybody should make a special effort to be present. Our song entitled "The Taxpayers Settle the Bills," relates in the keenest, funniest, most sarcastic way the difference between the Robbin Hood style of robbers and their latter day friends.

**Duncan, Hollinger & Co's. Grain Letter.**  
CHICAGO, July 6, 1892.—The wheat market from the opening until the close has been weak with little doing. Sept. opened 78 1/2 and gradually sold down to 77 1/2, the close is 77 1/2 bid. Reports of threshing from the winter wheat belt are on the increase daily and results prove the crop to be a heavy one and of fine quality, this with the absence of export orders and prospects of receipts of the new crop which has already begun causes a feeling of distrust in present prices. The growing spring crop may meet with disaster but unless it does, this season is likely to break all low prices on record. The realizing and liquidation in corn has been heavy, this with the prospect of fine weather, creates a weak feeling. Sept. opened at 50 sold up to 50 1/2 and closed 49 1/2 sellers. The near future is largely a question of weather and receipts. Taking profits on advances is wise. Oats in sympathy with corn closed weak. We can only repeat our previous advice on hog products "take profits." Charters to-day, 143,000 wheat, 150,000 corn, 150,000 oats.  
F. G. LOGAN & Co.

### A Sure Crop.

Rye is a sure crop—in both dry and wet seasons. The farmers of southern Nebraska will verify this statement. Considering the price of rye and the certainty of the crop, it is the most valuable and desirable to raise. In the vicinity of the paper mills in Illinois rye is planted very extensively and the straw sold to the mills. The Lincoln paper mills will use five thousand tons of straw during the next year. Rye straw averages one ton per acre as against one half ton of oat straw. To encourage the raising of rye the Paper Mill company will furnish seed to responsible parties, and invite the farmers to call and make inquiry, at their office, 736 O street, Lincoln, Neb.

### Strayed or Stolen.
