A large number of suits have been Mosher and Outcalt individually.

A receiver will be appointed. HAS LONG BEEN LOST.

The claim made by THE ALLIANCE INDEPENDENT last week that the state treasurer has not been able to get the state funds out of the Capital National for a long time, is now fully verified. There can be no reasonable doubt that this money has been lost for two years and probably leager. Hill has simply carried the certificate of depests and counted it as cash. On this point the Bee correspondent says in the issue of January 37:

It is asserted that there has not been a time in the past six months when the state could have secured the mency on deposit in the Capital Mational bank, and that, further than this, the bank has not been able to meet more than 20 per sent of its obligation to the state for many a menth. It is stated by attorneys and financiers alike, and apparently on the very best of grounds that had the governor refused to sign the bead of the bank and had the new treasurer insisted on a showing of each the bank would have been compelled to to close its doors on the 14th of the month, the day that the change in the officers went inte offect.

The various state officers involved in the bank scandal have

GOLD-BUG DEMOCRAT.

TOPEKA, Kan., Jan. 26-The repubicans have given up hope of electing a United States senator. They made a last effort today to devise means of checkmating the populists and of sending to the United States senator a claimant for the seat to which Judge John Martin was elected. They met in caucus and decided to support a stalwart democrat for the position with the hope that the five democrats would go over to them and give them a quorum on a joint ballot. Three of the ave democrats had cast their ballots for Martin in the populist joint convention yesterday, and of course, could not participate in another senatorial election, so when the republicans met in joint session they found themselves without a quorum and with no means of securing one.
