DOMINION SECRETARY

INSURANCE DEPARTMENT.

J. Y. M. SWIGART, Secretary of the Nebraska Mutual Cyclone, Tornado and Wind Storm Insurance Company, EDITOR. All communications on Fire, Cyclone or Hall Insurance should be addressed to him at Lincoln, Nebraska.

CYCLONE

Just now every one should be interested in cyclone insurance owing to the fact that the next two months will no doubt be freighted with cyclone disturbances.

I am in receipt of a line from the secretary of the Iowa Tornado Association. They have \$19,500,000 worth of property insured in 97 counties, and have had \$1,000 losses so far this year, and had \$6,500.00 cash on hand with which to pay losses. That company is over nine years old and is in a flourishing condition. The total cost to members for the first ten years has been \$7.00 per \$1,000, or 70 cents per annum.

If you want to insure it would be advisable to see that your membership fee does not exceed the amount needed for ten years when you are only writing for five years. The Iowa company only charge \$2.00 for membership and survey and an advance assessment of 10 cents per hundred dollars. Our Nebraska cyclone company has the same fee.

HALL.

We are now ready to send out applications and instructions for the Alliance Mutual Hall Insurance Company. Send for as many as you need.

We are at work making the apportionment of about \$2100, that we have on hand. We have so many promises from delinquents to pay that we are at a loss just how to proceed. We do not want to hurt any one who wants to be honest but is hard pushed for money. We will protect all who seem to be honest.

FIRE AND LIGHTNING.

On May 20th I will assist the Webster county farmers to organize a mutual fire company, at Red Cloud. Hope to see many there.

There may be other counties in that part of the state that would like some help, if so please let me know soon that the proper notice may be given. I am also asked to go to Valentine in the north part of the state. If any other counties need help I would like to hear from them soon.

If any company has a loss please report it to us that we may call the attention of others to it.

FIRE AND LIGHTNING SECRETARY'S.

To the secretaries of the Mutual Insurance companies of the state of Nebraska:

GENTLEMEN:—At the meeting of the State Alliance at Grand Island last December, Mutual insurance was given much attention. More so probably than any other one subject. It was thought advisable to have a state association for mutual advantage.

Mutual insurance is comparatively a new venture in this state, and naturally the methods of insurance are at variance and more or less crude.

The object of the state association is to arrive at some uniformity of system covering the entire state. In order that this object may be accomplished it is very important that every mutual company in the state should become a member at once. Please let us hear from you at once, and if there is any subject you would like to have discussed at our state meeting please mention it.

Address the undersigned at Holdrege, Phelps Co., Nebraska.

E. P. MONTGOMERY, Sec'y State Association.

more successful than the others that had preceded it, and a number of city doctors and the chief medical examiner of the order signed the medical certificate of total disability and Mr. Marshall received from the Dominion Council of the Royal Templars a check for \$1,000 last Nov. One day last Feb. came Mr. Marshall's salvation although he did not accept it at first. A small pamphlet telling of Dr. Williams' Pink Pills and the diseases they cured, was thrown into the house, but it was placed aside and no notice was taken of it for weeks. One day the sick man read the circular and concluded to try Dr. Williams' Pink Pills, although Mrs. Marshall tried hard to dissuade him, saying they would be as ineffectual as all the others; but on April 14—memorable day to him—Mr. Marshall began to take the pills, one after each meal for a start. In a few days a change was noticed and as he continued to take the pills he gradually improved and in a little over a month he was able to take the train for Toronto and visit an astonished brother-in-law. Now he can walk four or five miles with any of his friends.

The Globe representative paid a visit to the house of the man thus rescued from a living death. When the reporter's mission was explained, Mr. Marshall's face lighted up with a smile, which caused a responsive one to rise upon the features of his wife, and he expressed his perfect willingness to tell all that was asked of him.

"Why, I feel a better man now than I did ten years ago," said he cheerfully. "It's four years next August since I did a day's work but I guess I can soon make a start again. About my illness it was all caused through falling and hurting my back. I kept getting worse until I couldn't get off a chair without a stick or crutches. The lower part of my body and legs were useless. I tried every doctor and every patent medicine, spending hundreds of dollars. Everything that was liable to help me I got, but I might as well have thrown it in the bay. I suppose my wife has shown me the apparatus I used at one time or another. A dozen city doctors gave me up. I got enough electric shocks for half a dozen men, but they did me no good. I lost control of my bowels and water and couldn't sleep without morphine. During the day my legs were cold and I had to sit by the stove wrapped in a blanket, suffering intense agony from nervous pains in the legs, neck and head. Yes, I received from the Royal Templars a \$1,000 check, being declared totally unable to follow my employment. One day in April I took a notion to try Dr. Williams' Pink Pills, carefully following the directions accompanying each box. I recovered my appetite and regained control of my bowels and water, and I went on getting better and stronger and now you see me stronger and more healthy than I was for years before I was taken ill. I tell you I am feeling first class," and Mr. Marshall slapped his legs vigorously and gave the lower part of his back a thumping, afterwards going up and down the room a lively gait.

"I weigh 160 pounds today," he continued, "and I've gained 30 pounds since I first took Dr. Williams' Pink Pills. I haven't such a thing as a pain or ache about me, and another thing, I can walk as easily in the dark as in the light."

Mr. Marshall offered to make an affidavit to the truth of the above story, but the reporter considered that wholly unnecessary. He carried conviction to the inquirer's mind by every word and action, and there was no gain-saying the fact that the cure was one of the most marvelous in the nineteenth century. All the neighbors bore testimony to the genuineness of the cure. None of them ever expected to see Mr. Marshall on his feet again and regarded his restoration to health as nothing short of marvelous.

The headquarters of the Royal Templars of Temperance for Canada are in Hamilton. At the publishing house of the order Mr. W. W. Buchanan, general manager and one of the most prominent temperance advocates of the Dominion, was found. In response to the reporter's question, he said: "Oh, yes I am well acquainted with Mr. John Marshall. He is a well known citizen and a reliable temperance man. About four years ago he was taken seriously ill and his case was brought before the order. The provision under which the total disability claim is paid in our order is very strict. The weekly sick benefit is payable to any person under the doctor's care who is unable to follow his usual avocation, but the total disability claim is a comparatively large sum, only paid a member who is disabled for life, and declared by medical men to be entirely past all hope of recovery. In Mr. Marshall's case there was some difficulty, it is true; he was examined upon a number of occasions, covering a period of upwards of

two years. The medical men who examined him all agreed that there was little hope of recovery, but they would not give the definite declaration that our law demands—that the claimant was permanently and totally disabled—until last November. When this declaration by two regular physicians was made and our Dominion Medical Referee, we paid Mr. Marshall the total disability benefit of one thousand dollars. He was paid by a check on the Bank of Montreal. There is no doubt whatever about the remarkable character of Mr. Marshall's cure. A large number of our members in this city were intimately acquainted with Mr. Marshall and called upon him frequently all were unanimous in the belief that he was past all hope of recovery. His cure is looked upon as next to a miracle. I have conversed with him a number of times about it, and he gives the whole credit to Dr. Williams' Pink Pills and the application of cold water which is recommended as a subsidiary treatment by the proprietors of the medicine. He drops into my office every day or two and is apparently enjoying good health now."

The general offices of the order are in the old Bank of Upper Canada, Building just opposite the publishing house Mr. J. H. Land, the Dominion Secretary, was easily found, and in response to the questions asked simply corroborated all that the general manager had said. Mr. Land is a neighbor of Mr. Marshall, living within a block of him in the northeastern part of the city. He was well acquainted with him for years before he was taken sick, and regards his recovery as one of the most remarkable things in all his experience.

"I have not much faith in patent nostrums," said Mr. Land "but Mr. Marshall's case proves beyond a doubt that Dr. Williams' Pink pills are a wonderful medicine. He seems to have exhausted all other means and methods of treatment during his long illness and all without any benefit, but his recovery was rapid and wonderful immediately after he commenced using Dr. Williams' Pink pills."

Inquiries among the city druggists disclosed the fact that an extraordinary demand had arisen for Dr. Williams' Pink pills, and that the claims made for them by the proprietors are borne out by numerous cures.

John A. Barr a well known and popular dispenser of drugs here, told the reporter that he knew of no patent medicine that had such a demand upon it, or one that had done all that was promised for it. He told of several cases of great relief and cure that had come under his notice. Mr. Wm. Webster after suffering from ataxy for a good many years, from the first had found certain relief from taking the pills, and he is now a new man. Mr. George Lees, after years of illness of a similar nature, had taken the pills, and was able to walk out greatly improved in health. Another case Mr. Barr vouches for was a city patient, who had been cured by the pills of the effects of la grippe, after having been given up by the doctors. Many others had spoken highly of the Pink pills as a fine remedy for nervous and blood disorders. Other druggists told the same story.

A further investigation revealed the fact that Dr. Williams' Pink pills are not a patent medicine in the sense in which that term is understood, but are a scientific preparation successfully used in general practice for many years before being offered to the public generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxy, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexion, that tired feeling resulting from nervous prostration; All diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to pale or sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

On further inquiry the writer found that these pills are manufactured by the Dr. Williams' Medicine Company, Schenectady, N. Y. and Brockville, Ontario, and are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box or 6 boxes for \$2.50, and may be had at all druggists or directly by mail from Dr. Williams' Medicine Company, from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

THE HAMILTON MIRACLE

THE CASE INVESTIGATED BY A GLOBE REPORTER.

THE FACTS FULLY VERIFIED.

One of the Most Remarkable Cases on Record.

A Man Pronounced by Eminent Physicians Permanently Disabled Fully Recovers—Fac-simile of the Check For \$1,000 Paid by Royal Templars of Temperance for Total Disability—Hundreds of Visitors.

TORONTO DAILY GLOBE, July 25.—This is an age of doubt; especially in regard to cures by patent medicines, and not without reason, for too often have the sick and their near and dear loved ones been deceived by highly recommended nostrums that were swallowed to be of less avail than as much water. The old, old fable of the boy and the wolf applies also too frequently to many of the specific concoctions for curing the flesh that flesh is heir to; and when a real cure is effected by a genuine remedy those who might be benefited flinch shy of it, saying, "it was cure, so often before that I won't try it." When such a state of affairs exists it is advisable that assurance should be made doubly sure.

A few days ago a marvelous and almost miraculous cure was made known to Canadians through the medium of the Hamilton newspapers. It was stated that Mr. John Marshall, a well known resident of Hamilton, by the aid of Dr. Williams' Pink Pills for Pale People, had been snatched from the very jaws of death, placed upon his feet, and enabled to mingle with his fellow citizens with more than renewed health and strength and even brighter spirits than he had experienced for years before. This remarkable statement excited the wonder of almost a continent. Some people believed, most people doubted, although the facts were placed so clearly as to ward off the slightest suspicion of fraud. To investigate the very extraordinary cure and place before the people of Canada and the United States verification or otherwise of it was the special mission of a Globe reporter a few days ago.

A close inquiry into the circumstances first showed that Mr. John Marshall, whose residence is 25 Little William street, in the northeast portion of the city, while employed as foreman for the Canadian Oil Company, five years ago, fell upon the edge of an oil vat and hurt his back. Thinking little of the affair Mr. Marshall continued to work on, but after a few days he became ill, gradually got worse, and in August, four years ago, became stricken with the dread disease, locomotor ataxy—a disease attacking the nerves and rendering that portion of the system helpless, proclaimed by the physicians to be incurable—which left him from the waist downwards without feeling, and utterly unable to move his lower limbs. All he was able to do was to raise himself by the aid of sticks and crutches and drag himself around the house and occasionally to the corner of the street on fine days. His legs were without feeling, pins and even knives were stuck into them without the sick man experiencing any inconvenience. He could take a walking stick and beat his legs until the blows resounded through the house and yet he felt nothing. During all these years of torture Mr. Marshall consulted every doctor of ability in the city; tried every form of treatment and took almost every kind of patent medicine, but without receiving a little of relief. The agony was frequently so intense that he was obliged to take morphine pills in order to receive a reasonable amount of sleep.

As the months and years passed by, although the doctors continued to treat him in various ways, they plainly told the suffering man that he could not get better, the disease was set down in the works of specialists as incurable. The doomed man was a member of the United Empire Council, No. 190, Royal Templars of Temperance, and under the discouraging circumstances he thought it advisable to apply for the payment of the total disability claim of \$1,000 allowed by the order on its insurance policy. Application was accordingly made, but before the claim was granted the patient had to offer conclusive proof of his total disability to the chief examiner, and Mr. Marshall was sent to Toronto for a special electrical treatment. It proved no
