THE PLESBYTERIANS

UNALTERABLY OPPOSED TO SUNDAY FAIR OPENING.

STRONG RESOLUTIONS ADOPTED.

Churches Urged to Do All in Their Power to Prevent It-The Briggs Case Referred to the Judiciary Committee _Baptists Gathering in Convention at Denver in Very Large Numbers.

WASHINGTON, May 23. - The Rev. Thomas Braker of Wakeeny, Kan., conducted the half hour's devotional exercises with which the second week of the session of the Presbyterian general assembly was ushered in this morning.

The special committee on Sabbath observance, of which the late Colonel Elliot F. Shepard was chairman from its inception, submitting its fifth an-nual report, which was read by Elder W. R. Worrell of the New York presbytery, Colonel Shepard's private secretary. The effort to secure the open-ing of the world's fair on Sunday was recited, closing with a statement of the vote in congress against it The report then proceeded:

Your committee recommends the ption of the following resolutions:

First, The pasembly receives with acep regret the intelligence of the death, on March 4, of Colonel Elliott F. Shepard, chairman of the committee on Sabbath observance, and desire to express its high appreciation of the valuable services he has rendered to the Sabbath cause by his liberal efforts and his large contributions.

Second, The assembly express 7 its pro-

Sabbath cause by his liberal efforts and his large contributions.

Second, The assembly express— its profound statitude to Almishty God for the success of the effort to secure in our national legislature a prohibition of Sunday opening at the Columbian exposition and its appreciation of the action of congress in ordering by so large a majority to continue the time honored custom of the American people in doing reverence to the Lord's day. It joins the whole church in hearty thanksgiving that we have been spared the humiliation as a Chirstian nation of a public sanction of the Sunday opening of the world's fair, and it hereby voices what it believes to be well the nigh unanimous judyment of the church it represents in declaring any attempt after this public and official expression of the nation's will to open the gates of the exhibition on the Sabbath would be a gross affront to the Christian conscience and a flagrant breach of faith.

And inasmuch as the local managers have decided to open the gates of the exposition in defiance of the authority of congress and in selear volation of the principes of common honesty, as well as or God's command, therefore.

Resolved, Third—That we urge upon our

honesty, as well as of God's command, therefore,

Resolved, Third—That we urge upon our people the importance of standing by their consciences at whatever sacrifice of personal profit or pleasure. If the trial of their integrity is come, let them not defile themselves with the king's meat. Dan 1: 8.

Forth—We call attention of our churches to the efforts now in progress for the formation of associations, the design of which is to protect the weekly day of rest. We believe that the widespread interest now taken in this question furnishes a favorable opportunity for the affiliation of the friends of the Lord's day into associations that can render most efficient services in protecting the Sabbath against all invasions.

After the report of the committee on After the report of the committee on

world's fair Sunday closing had been read, the Briggs question came to the front at a bound. Dr. Young, chairman of the overtures from the presbyteries, twelve of them relating to the moved ferred to the committee of judiciary, when Dr. Herrick Johnson of Chicago, asked what had become of the overture from his presbytery on the Briggs case which overture besought the assembly to refer the case back to the synod of New York. Dr. Thomas C. Hall of Chicago, in sympathy with Dr. Briggs, made a brief speech in favor of sending all resolutions on the Briggs case to the judiciary committee first. After a sharp discussion the motion to refer the overtures to the judiciary committee was carried.

THE INFANTA PHOTOGRAPHED Enlalia Spends an Hour Before a Wash-

ington Camera.

WASHINGTON, May 23.—After her morning chocolate and roll this morning Infanta Eulalia attired herself in a wanderful evening gown of fluffy stuff, the neck cut V shape and about her shoulders threw a wide scarf of China silk of varied then accompanied colors, Commander Davis and the Marchioness of Arco Hermosa went to a photograph gallery in a closed car-riage, while Prince Antonio and the duke of Tomames went walking. Commander Davis did not wear his uniform. The prince wore a light spring suit with russet shoes and

straw hat. The Infanta reached the photographer's shortly after 10 o'clock and spent nearly an hour there. Several negatives were taken and the princess took the liveliest interest in the

On their return to the Arlington the royal party had breakfast and spent a quiet two hours until I o'clock, when they were driven to the treasury department. Secretary Carlisle re-ceived them and acted as escort

through the money vaults. In connection with the Infanta's attendance on low mass yesterday, the

following is told: The Infanta Eulalia came in contact with a very democratic priest yester-day. She sent word to Father Lee of St. Matthew's chure., asking him to Cash cause a special mass to be performed for her and her suite. He sent back word that the Catholic church did not recognize royalty as being entitled to such a privilege. Then the Infanta requested that the use of the church given her that a mass might be privately performed for her by some priest. Father Lee responded that the church was at her service at any time not in conflict with the regular services, but that the building was for the use of the Catholic public and that the doors could not be closed during the ceremony against any one who chose to come. The upshot of the matter was that the Infanta attended one of the regular services of the church.

Ohio Rivers Again on a Tear.

CINCINNATE, Ohio, May 23. — The Ohio river is rising rapidly, having galaced over ten feet since Saturday. having steady to be lower, closing weak and the lower on common hors. Prices ranged from 10.25. It is now about thirty-eight feet and rising nearly three inches an hour. The Scioto river is aguin raging at twenty-five feet, overflowing the wide ttom lands and still further delaying the corn crop.

WORKMEN AROUSED.

They Talk About Tearing Down the World's Fair Gates. CHICAGO, May 23.-The world's fair Sunday opening question was vigor-

ously discussed at the meeting at the trade and labor assembly yesterday. It was brought up by the introduction of a resolution by Delegate McGuire which declared the sympathies of the labor union in

favor of Sunday opening. In the discussion that followed President Lineman took the floor and said: "When efforts were being made to raise money for the fair promises were made the workingmen of Chicago that the fair would be open on Sunday; hundreds of workingmen in Chicago have contributed to the fair stock subscriptions according to their means and their wishes should be as much

consulted as those of any other subscriber. I propose that we say to the world's fair authorities that we are willing to pay fifty cents each to get into the exposition on Sundays and if you do not let us in on those terms we shall go in anyhow. Let us name a day and go in and tear down the fence if our demands are not granted." Vice President Pomeroy proposed that a public meeting be called to discuss the question. This suggestion was adopted and it was decided to hold a meeting Wednesday evening near Jackson park, at which a plan of action will be decided upon. The management decided to open

the fair Sunday in all its departments, but on Friday decided to wait the action of the national commission which votes on the matter this week. Attorney-general Olney says the gov-ernment will not permit Sunday open-

WITHDREW FROM THE TRUST.

The Great Whisky Combine Practically a Thing of the Past.

PEORIA, Ill., May 23.-Five of the largest distilleries in this city have withdrawn from the Cattle Feeding distilling company. A reporter called upon Samuel Woolner of the Woolner distilling company and asked him if it was true that his company had withdrawn.

Mr. Woolner said: "Yes, it is true. Not only our two houses, but the Manhattan, the Northern and Peoria Distilling companies have also withdrawn. We served notice Saturday afternoon on the company that the lease was cancelled and we immediately took possession of the distilleries and will hereafter operate them in our own name and independent of the whisky trust. We will paddle our own cance and supply the trade. We believe the result of the litigation pending and instituted by the attorney general will result in the forfeiture of the charter of the Distilling and Cattle-Feeding company. In short, we think the trust is 'busted,' and that wide open."

Supreme Only in Time of War. BERLIN, May 23.-The government has denied the truth of the recent statement that Em or William, in his capacity of supreme commander of the federated armies, would issue a manifesto concerning the army bill. To the denial is added the explanation that the Emperor is supreme commander only in war; in peace the federated princes command their respective armies.

Thieves Raid Dresden, Missourl. SEDALIA, Mo., May 23. - Thieves gutted the town of Dresden, seven miles west of here, last night. They burglarized the only three stores in the town and carried off several hundred dollars' worth of goods.

THE MARKETS.

Kansas City Grain.

Prices were quoted as follows: No. 2 hard wheat, 63@63%c; No. 3 hard wheat, 64@65c; No. 4 hard wheat, 59@60c; rejected hard wheat, 50 6556c; No. 2 red wheat, 65656c; No. 3 red wheat, 62@64c; No. 4 red wheat, 59@60c.

Practically Closed.

LINCOLN, Neb., May 23 .- The trial of the impeachment which has occupied the attention of the supreme court for three weeks practically closed last evening as far as the introduction of testimony is concerned. The defense will introduce no more important testimony and with the presentation of records and papers will close this forenoon. The state may be permitted to introduce testimony, but it will not be of great length. Providing the rebuttal is brief, argument will be commenced this afternoon and continued until the allotted four hours on each side are consumed. The argument is expected to draw out many spectators and if the senate chamber is crowded the attorneys will be encouraged to give the court speeches which will go down in the history of the state as the final closing of the first impeachment case ever tried before a supreme court in the

United States.
Yesterday Secretary Allen and Attorney General Hastings were on the stand and each is credited with making what attorneys call an excellent witness. Both were frank and little difficulty was experienced in cross examinstion.

If the argument is not commenced this afternoon attorneys on both sides will ask the court to hear two speeches tomorrow and two Thursday.

Struck by Lightning. FREMONA Neb., May 23. - The splendid rain which set in shortly after midnight continued until late this afternoon, and plenty of rain fell to meet the needs of growing crops and meet the needs of growing crops and make the farmers good-natured. It started in with thunder and lightning accompaniment, which proved disastrous to August Kihn, whose residence in South Fremont, near the packing house was struck by lightning and burned to the ground. The electric bolt struck the building on the north end and a blaze started up at once. A heavy wind was blowing from the north at the time, which spread the fire so rapidly that the family barely had time to escape, and saved none of their effects escape, and saved none of their effects exceps their clothing and some bedding.

The house was insured for \$1,000.

Several astachment suits have been brought in the Douglas county district court against George W. E. Dorsey, and the papers in the cases have been filed in the county alerk's office of Dodge county, and Sheriff Milliken is serving notices of attachment against the real notices of attachment against the real estate recently conveyed to various par-ties by Mr. Dorsey. On these new suits the South Omaha National bank claims

\$5,000, John Diffley \$5,000, and the National bank of New England \$5,000.

The annual picnic and May party of the Fremont turnversin was held at Moller's grove on South Broad street yesterday afternoon, and was attended by a very large company of German citizens, who enjoyed themselves immensely. The athletic games and exercises commenced about 3 o'clock and were very spirited and interesting.

Found Dying. TALMAGE, Neb., May 23 .- Mr. John Wisner, a German wagon maker, who had until recently been employed Wm. Keck here, committed suicide some time during the night about ten miles northwest of this place. He was found by a couple of carpenters about 6 o'clock this morning as they were going into the country to do some work. He was lying by the roadside with a small revolver clasped in his hand and was not yet dead, although there was a bullet hole in his head just below the temple. Deceased was probably fifty-four years of age and was unmarried. He was a of age and was unmarried. He was a hard drinking man and probably ended his life because he was out of work and out of money. He has a brother living on a farm near where he killed himself, and another in Nebraska City. He has been about this town for some time since he quit work and was last seen here about 8 o'clock yesterday evening. He probably started to walk to his brother's and becoming despondent concluded to end his existence. The coroner was summoned and rendered a verdict according to the above facts.

Hail and Wind.

HASTINGS, Neb., May 23. - This city was visited by an enusually heavy hail storm this morning. At a quarter to 5 there was a sharp, loud thunder clap that frightened people out of their sleep, and which was followed instantly by such a rush and war of haft stones, that many took refuge in their cellars, thinking a cyclone was coming. For five or six minutes the hail fell, and it was impossible to see more than a short distance in any direction. Buildings rocked and tall trees bent to the ground, nearly, from the force of the wind. When the storm passed the ground was perfectly white. Trees were stripped of their foliage, and the small fruit crop almost totally de-stroyed. The telephone and electric light systems suffered from broken were and poles blown down. The Hastings roofing factory, a large frame structure, was moved some seven or eight feet off its foundation. The factory was intending to start up this morning, but will be delayed several davs. Child Killed.

ORD, Nebraska, May 23 .- During the heavy rain which fell here yesterday the sod house of John Foght, who lives a few miles above here, fell in, killing his little girl and injuring several other members of the family.

The little daughter of Mr. Anderson was accidently shot yesterday by one of the neighbor's boys, who was fooling with a revolver which he supposed to be empty. The girl will probably die as the ball entered the forehead and lodged in the back part of the head.

Dead in a Grove. FALLS CITY, Neb., May 23 .- A young man by the name of George Rease was found dead in Roger's grove, a few miles south of this city, where he was in the employ of a farmer named O. C. Rumwell. The cause of his death remains a mystery. He is a stranger here and his only known relative is a trether in Lancaster, O., who was notified. A coroner's inquest is called for temerrow merning.

CHAUNCEY M. DEPEW The other day, in speaking of the improved facilities for luxurious travel in this country says:

"We are abandoning the old system of lighting the cars with kerosene lamps, and more than half the coaches have already been equipped with the most improved and the safest system of lighting known in this country or Europe. With the new Pintsch lamps there can be no possibility of danger from explosion or otherwise, as apparatus is all out side and under the car, and in the event of mishap, the fixtures become detached and the gas escapes into the air."

The brilliant Pintsch light, the finest car illuminant in existence, now in use on the Union Pacific System fulfills all the requisite conditions so happily noted by Mr. Depew.
