AMONG OUR EXCHANGES.

The World's Fair officials are still quarrelling about nothing. If visitors to this country want to see peace and good fellowship they should come to Nebraska and view the republican party. It is going to have harmony in the ranks if it has to fight for it.—Saline County Express.

It now looks as though Chicago would have competition that will make her hustle. The train robbers are getting in their work before the people get to the fair. It don't make much difference how you give up your money—if you start for Chicago everything goes anyway.—Fullerton Post.

The Lincoln State Journal has quit coming to this office. Good. It saves us a great annoyance to read its editorials and then read the other daily papers to see if it (the Journal) is telling the truth or not. The Schuyler Quill says: "Stand up for Nebraska" was the principal battle cry of the Allen-Humphrey-Hastings crowd last fall. And so they did. It seems that partisan hate has gone to greater extreme in North Carolina than in any other state. The politicians, fearing the educational work by the alliance, are using every conceivable means to destroy that organization but it is hardly likely to succeed, as persecution has never yet stopped the progress of any righteous cause, but on the contrary history shows that persecution is more of a help than a hindrance.—The Cotton Plant.

Do you hear of many manufactories shutting down on account of the proposed free trade of the democrats? Well so; the fact is the democrats do not have any free trade policy. They told the manufacturers before the election that they did not propose to injure their business and they know they can count on their word.

The Honorable Samuel Packwood, our state senator, visited the Opinion sanctum one day last week and passed a half hour in social converse. It is to us a pleasant thing to meet one so ripe in experience, so calm and deliberate in judgment. He is a man of few words, but these are all well chosen.

Indications point to the preparation of the eighth financial conspiracy. By a concert of action upon the part of Rothschilds and their American minions, the gold of our country is being absorbed and drawn to London with the intent to force the secretary of the treasury to issue \$75,000,000 or a \$100,000,000 of interest bearing gold bonds.

The constant demand of the traveling public to the far west for a comfortable and at the same time an economical mode of traveling, has led to the establishment of what is known as Pullman Colonist Sleepers.

These cars are built on the same general plan as the regular first-class Pullman sleepers, the only difference being that they are not upholstered. They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen curtains, plenty of towels, combs, brushes, etc., which secure to the occupant of a berth as much privacy as is to be had in first-class sleepers.
