A RAILROAD ENGINEER RELATES HIS EXPERIENCE.

The Wonderful Story Told by Fred C. Vose and His Mother-in-law to a Reporter of the Boston Herald. Both are Restored After Years of Agony.

(Boston, Mass., Herald)

The vast health-giving results al-ready attributed by the newspapers throughout this country and Canada to Dr. Williams' "Pink Pills for Pale Dr. Williams' "Pink Pills for Pale People" have been recently supplemented by the wonderful cures wrought in the cases of two confirmed invalids in one household in a New England town. The radical improvement in the physical condition of these two people from the use of these two people from the use of this great medicine is vouched for, not only by the eager testimony of the patients themselves, gladly given for the benefit of other sufferers, but also by the indubitable assurances of disinterested relatives and friends who had been cognizant of the years of pain and distress endured by the two invalids, and who now witness their restoration to health, vigor and capacity.

and capacity.

The names of these people, the latest to testify from their own experience to the marvellous restorative, tonic and healing qualities of Dr. Williams' Pink Pills, are Fred C. Vose and his mother-in-law, Mrs. Oliver C. Holt, of Peterboro, members of the same house-hold, which is composed of Mr. and Mrs. Holt, and Mr. and Mrs. Vose, the latter a daughter of the Holts. The home occupied by the family is a cosy and neat looking two-storied house, situated on the top of a hill and surrounded by many of the natural attractions of a residence in the country. Mr. Holt is employed in the to testify from their own experience to country. Mr. Hoit is employed in the Crowell shoe manufactory of Peterboro, and Mr. Vose has for many years run the engine on the Fitchburg railroad trains between Winchendon and Peter-

to give the exact reason for the coming together under one roof of the two families, as this fact has everything to do with the manner in which Dr. Wiltiams' Pink Pills first came to the notice of Mr. Vose and the reason of their introduction into the family as a medical remedy.

Mr. Vose's wife had been in failing health for a number of years, her iliness finally developing into a brain trouble, accompanied by intermittent paralysis of the tongue and lower limbs. Death had taken all her children in the contract of th dren, and the heavy affliction increased her bodily and mental infirmities to her bodily and mental infirmities to to such an extent that her husband, himself an invalid, was compelled to take some means toward securing for her complete rest and freedom from all household care. To this end he gave up household care. To this end he gave up housekeeping, and took his wife to her parents' home, where her mother might care for her in her aliments.

Mrs. Holt was herself suffering from Mrs. Holt was irom various complaints brought on by complete nervous prostration several years ago, but her daughter's severer and more hopeless condition was the more urgent and more appealing case of the two, and so Mrs. Holt for several years has tried to forget her own disabilities in tenderly ministering to her stricken

In February last Mr. Vose was reading the weekly paper, when his attention was attracted by the account of a case of paralysis cured by the use of Dr. Williams' Pink Pills. The similarity of the case described to that of his wife at once aroused the deep in-terest of Mr. Vose, and he called his mother-in-law's attention to the published article. After long consultation they decided to send for the pills. The The beneficial effect they had upon Mrs. Vose was marked. From being unable to stand she was so materially strengthened that she could walk with out difficulty, and in other respects her condition was very much improved. The beneficent results noticed in Mrs. Vose's condition from a trial of the pills caused both her husband and mother to consider trying them for their own complaints. They tried them on the principle that "if they don't cure they can't hurt," but before each had finished their first box they had felt such relief that they came to believe that the pills not only could not hurt, but were actually and speedily curing

To the "Herald" reporter who was sent to investigate his remarkable cure, Mr. Vose gave a detailed account of his long illness and subsequent recovery. He began his narrative by saying:

"I am not anxious to get into the papers in this or any other connection, but, as I wrote the Dr. Williams' Medicine Co. I have felt such happy results from the taking of Pink Pilis that I am willing, if my experience will help any one else, to state how they benefitted me. I am 37 years old, and 15 of this time I have spent in railroading for the Fitchburg railroad on the Winchendon and Peterboro branch. For the past like other pills I have taken, but seem three years I have been engineer of the act directly upon the stomach and liver train which connects with the Boston without any loosening of the bowels. My sleep, too has wonderfully improved the bowels. boyhood. In fact there never was a time in my remembrance when I was not more or less troubled from that

"Seven years ago, however, the com-plaint became greatly aggravated from the nature of my work and other causes, and I suffered greatly from it. My stomach would not retain food. my head ached constantly, there was a dimness, or blur, before my eyes most of the time, and my head used to be-come so dizzy I could scarcely stand. On getting up in the morning my head swam so I was frequently obliged to lis down again. I had a most disagreeable heart-burn, a continuous beiching of gas from the stomach, a nasty coating of of the mouth and tongue, and my breath was most offensive. I consulted physicians in Peterboro, and took their indigestion, liver complaint, and the edicines for two years, but was helped so slightly by them that at the end of that time I gave up in discouragement, and let the disease take care of itself

the last seven years and would have lost more only for the fact that I stuck it out and would not give up until I had to.
"My appetite then failed me, and

about four years ago I began to notice a fluttering of my heart, which grew so bad after a while that I could not walk any distance without a violent palpita-tion and complete loss of breath. The pains in my stomach, from indigestion lasted two and three days at a time. I I lost considerable flesh, and before long I noticed that my kidneys were affected. This came from my work on the engine I know as many religion

long I noticed that my kidneys were affected. This came from my work on the engine, I know, as many railroad men are troubled in the same way. I had awful pains in the small of my back, and was obliged to make water many times during the day.

"I resolved to go back to the doctors again, though their treatment had done me no good before. I was told that medicine was no good for me, that what I needed was a long rest. I could not take too long a vacation, being compelled to work for my living, and so I kept along, taking what stuff the doctors prescribed, but felling no better, except for a day or two at a time.

"Finally my legs and hands began to ache and swell with rheumatic pains, and I found I couldn't sleep at night. If I lay down, my heart would go pitapat at a great rate, and many nights I did not close my eyes at all.

"I was broken down in body and discouraged in spirit, when some time in February last, I was reading in the "Montreal Family Herald and Workly

couraged in spirit, when some time in February last, I was reading in the "Montreal Family Herald and Wockly Star," which we take every week, of the great cures made by Dr. Williams' Pink Pills for Pale People. I got a couple of boxes for my wife to see if she would be helped any by them, and then I tried them myself. I did not put much stock in them at first, but before I had finished the first box I noticed that I was feeling better. The palpitation of my heart, which had bothered me so that I couldn't breathe at times, began to improve. I saw that in going to my home on the hill from the depot, which was previously an awful task, my heart did not beat so violently and I had more breath when I reached the house. After the second and third trains between Winchendon and Peterboro.

Before entering upon an account of the long illnesses of Mr. Vose and his mother-in-law, which shall be given in their own words as taken by a reporter of the "Boston Herald," it will be well the result of the "Boston Herald," it will be well the result of the coming the result of the second and third boxes I grew better in every ether respect. My stomach became stronger, the gas belching was not so bad, my appetite and digestion improved, any my sleep became nearly natural and undisturbed. I have continued taking the results three times a day over since the pills three times a day ever since last March, and today I am feeling better than at any time during the last eight

"I can confidently and conscientiously say that they have done me more good, and their good effects are more permanent, than any medicine I have ever taken. My rheumatic pains in legs and hands are all gone. The pains in the small of my back, which were so bad at times that I couldn't stand up straight, have nearly all vanished, and I find my kidneys as well regulated by them. This is an effect not claimed for the pills in the circular, but in my case they the circular, but in my case they brought it about. I can now go up any hill without the slightest distress or palpitation or loss of breath, and am feeling 100 per cent. better in every but now numbers nearly one hundred, but the worst scab on earth,—Ex.

pills, and mean to continue them until I am certain my cure is a thorough and lasting one.

After talking with Mr. Vose at the depot, where his engine was in waiting the reporter went to the house where Mrs. Holt. the other patient for whom the pills have done so much, received him and gave an extended account of her

experience with them. Mrs. Holtsaid: "I am 57 years old, and for 14 years past I have had an intermittent heart trouble. Three years ago I had nervous prostration, which left me with a num-ber of ailments, for which I have been doctoring unsuccessfully ever since. My heart trouble was increased so badly by the nervous prostration that I had to lie down most of the time. My stomach also gave out, and I had centinual and intense pain from the back of my neck to the end of my backbone. I went to physicians in Jeffrey. Newport, Alsted Action and here in Peterboro, but my health continued so miserable that I gave up doctors in dispair and lost faith in medicine altogether. I began to take Dr. Williams Pink Pills last winter more from curiosity than because I be-lieved they could help me, but the first box made me feelever so much better. I have taken the pills since February last and they have made me feel like a new woman. The terrible pain in my spinal column and in the region of my liver are gone, and I believe for good. My palpitation has only troubled me three times since I commenced using the pills and my stomach now performs its functions without giving me the great distress which formerly followed every-thing I ate. The pills have acted differently from any medicine I ever took in my life. I have tried everything-doctor's medicines, patent medicines, sarsaparillas, and homospathic doses. In 14 weeks three years ago I speat \$300 for doctors' bills and medicines, and since then have put out as much more money, but the relief I obtained, if any was only temporary.
"With these pills, however, the effects

since I began their use. For a long time before I took these pills I lost sleep night after night with my heart

and pains in my back.
"My improvement in health is a source of remark on the part of those who have known how sick I was. husband, who didn't know I was taking the pills, is delighted at the noticeable betterment in my health, and upon learning the cause of it urged me to continue the use of the pills. This impulse, however, is not necessary, as I have been too sick in the past not to fully appreciate the value of a remedy that has done me so much good. Dr. Williams' Pink Pills are certainly a grand medicine, and from my experience with them I can cheerfully and cordially recommend them to any one who is troubled with heart palpitation. many llis consequent upon nervous

prostrution Dr. Williams' Pink Pills are not patent medicine in the sense in which for a long time. I grew worse as time that term is usually understood, but went on. I have been obliged to give are a scientific preparation, successfully

form all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as becomotor ataxia, partial paralysis, St. Gleanings Culled From Various Industrial Vitus' dance, sciatica, neuralgia, rheu-matism, nervous headache, the after effects of la grippe, palpitation of the heart, the tired feeling resulting from nervous prostration, all diseases depend-ing upon vitiated humor in the blood,

such as scrofula, chronic erysipelas, &c.
They are also a specific for troubles
peculiar to females, such as suppressions
irregularities, and all forms of weakness They build up the blood and restore the glow of health to pale or sailow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses o mental worry, overwork or excesses of whatever nature. They are manufactured by the Dr. Williams' Medicine Company, Schenectsdy. N. Y., and Brockville, Ont., and are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. address.

The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies of medical treatment.

GEARY LAW IS CONSTITUTIONAL.

Almened Eyed Celestials Must Register-Interesting Paragraphs for the Laboring People.

Much of the responsibility for the present cruel class legislation and consequent criminal industrial slavery of this country rests upon the clergymen and other religious teachers, He who today does not "cry aloud" from the pulpit against the cruel, blightng, cursing oppression of the money power of this and other countries, is guilty before God and will, in the final judgment of his case, be found with the blood of his brother upon his skirts. The churches of today, with a tew possible exceptions, form one of the principal bulwarks behind which infamous class laws hide their deformed faces from the just wrath of an outraged people. Away, then, with such canting. unmitigated hypocrisy!-Ex.

According to the supreme court of the United States the Geary law is constitutional, and the almond eyed Chinaman must register, backed by a creditable witness. Let the law be enforced to the letter, and the sooner this country is rid of John Chinaman the better it will be for all classes of laboring people.

Will organized labor ever learn to vote together? Until it does, it will remain week as an infant in opposing corporative power. When it votes together it will exert the strength of a giant. If the labor unions believe the laws to be unjust, which the representatives whom they sent to the legislature make, let them send others with orders to repeal The labor unions of St. Louis pay about them; not take up arms to defy laws they

> Labor organizations are flaying alive by resolutions, Judges Ricks, Taft and Billings. It is little these judges or masters care for the opinions of working men so long as they simply resolve. It is their ballots they fear .- Our Own Opinion.

Organized labor hates a "scab" worse

"Lift a man, give him life, let him work eight hours a day, give him the school, levelop his taste for music, give him a garden, give him beautiful things to see and good books to read, and you will starve out those lower appetities. Give a man a chance to earn a good living. and you may save his life."-Wendell Philips.

The dominant political parties in this country are making preparations to attend their own funerals. The reform movement is irresistible, and the sleepy statesmen will awake some morning to the fact that they have lost the train. They are behind the times .- Miner's

A hungry sycophant writes his objection to our publishing articles pointing out defects in our social system, and calls them "heresy." If the creeping, bluegilled coward will send us his name and address we will publish his communicaof Garfield. He is only 31 years of tion with appropriate comments .- Midnd Mechanic.

> The Lancaster New Era gives a column of advice how to act while visiting the werld's fair at Chicago. This is timely and interesting, but how many nine-dollar printers, six-dollar cigar makes and mechanics in other trades earning equally high wages, will be able to take advantage of the opportunity of seeing the greatest fair ever held?-Lancaster Labor Leader.

One of the quiet, peaceable and bloodless victories of the country was the battle won by the bricklayers of Kansas City for an eight hour wore day. So for as this craft is concerned, the town is solidly union. All the brickingers are not empresident of France, is of Irish descent, ployed, but the granting of a shorter from the Kavanaghs, who were kings workday is a step in this direction, and those who are cut of employment philosophically accept the situation. They realize that to secure employment by working ten hours is only beating their own heads against a stone wall. They receive no benefit in the end and inflict only injury to others .- Midland Me-

> A dramatic artist named Lemahon, better known under the assumed appellative of Paul Bonjour, had great success as a singer of comic songs during the reign of Louis Philippe. In 1846 he had the courage to have all his front teeth extracted and a variety of false sets made to fit their place. One of the sets gave him the physiognomy of an ass; another made him look like a monkey; when wearing a third he resembled a goat, etc. used to give a song on the pork-butchers, with teeth that gave him the exact appearance of a pig. Many old Parisians remember this original per-former and the means he adopted to amuss them.
