It is not believed, however, that the insurgents will act too rashly, as the policy of the in-surgent leaders since they landed has been one of conciliation, because the foreign warships have had a healthy restraining influence upon the move-ments and actions of the insurgents. Fort Santa Cruz must surrender before many days pass, for the garrison is short of provisions and the rebels have control of all the ways to the

Sulpho-Saline Bath Co., Lincoln, Neb.

Gentlemen—I have been a victim of rheumatism for several years past. I have suffered intensely at times, and have gone to the Hot Springs of South Dakota, and the Hot Springs of Arkansas five times, seeking relief. I have also taken much medicine under the directions of able physicians, About one month ago I suffered from one of the most violent attacks of the disease, and at once began taking hot salt water baths at your new and splendid bath house in this city. Under the care of your gentlemanly and efficient attendant, Mr. Henry Schmitte, I have, I think, entirely recovered.

From experience and my observation of the results of treatment of many patients at the Hot Springs above narked and at your bath house, I amconvinced that better and quicker results can be obtained by a course of hot salt water baths at your bath house than at any other place in the country. I do not hesitate not only to recommend, but to urge every person suffering from rheumatism to try a course of baths at your bath house under the directions of one of the physicians in charge.

I beheve your new and magnificent bath house will prove a great blessing to the many victims of rheumatism in this vidinity, and I hope it will receive the liberal patronage it merits.

You have not requested of me any testimonial, but I deem it proper that I should acknowledge the great relief I have received at your hands, and you may use what I have said in such manner as you may deem proper.

Very respectfully.
