#### An American Baron Speaks.

EDITOR ALLIANCE-INDEPENDENT:-The right honorable J. Sterling Morton, by grace of Grover the First, Secretary of Agriculture, addressed the World's fair commissioners in Chicago on the 18 h of October, and in the course of his remarks he spoke of the Farmers Alliance, and other educational organizations of farmers, in terms of con-

demnation and contempt. He said: "These organizations as a rule, have attended to every other thing except agriculture. They have instructed the people as to how banks ought to be organized and how railroads ought to be managed. They have even gone so far as to prescribe methods of coinage for the General Government."

In the opinion of this American Baron, the farmers should stick to the plow and let their masters run the government, and for the farmers to discuss political questions is to go outside their sphere. They should leave political economy to the subsidized college professors, banking to the bankers, and politics to the professional politicians, of which he is a fair sample.

Who and what is this pompous fellow who assumes to criticise the farmers for erganizing schools of political economy for the purpose of fitting themselves for the duties of American citizenship? He is a professional politicias, office seeker, stock gambier, etc. When, some years ago, the bonds of the District of Columbia, issued under the Boss Shepherd regime, were selling for almost nothing, J. Sterling Morton bought large blocks of tuem. He then helped lobby a bill through congress, which made the United States government responsible for those bonds, which at once brought them to par, and greatly increased J. Sterling Morton's wealth. With such dishonestly got They called him a "bimetallist," an' then h money he has lived as a luxurious snob ever since. With money get in similar schemes he bought the farms he They crossed him an' they bossed owns in Nebraska, which, if worked at all, the work is done by hired men, or tenant farmers, both of whom he holds in as much contempt, as the barons of England hold their serfs.

It is an insult to American farmers. and an outrage upon American institution that such a man should be put at the head of the department of Agricul-T. A. BLAND. Washington, D. C., Oct. 21, 1893.

#### TOO MUCH WHEAT.

[Helen Hunt Jackson in The Independent.]

Too much wheat:" So the dealers say, Millions of bushels left unsold. Of last year's crop; and now, today, Ripe and heavy and yellow as gold, This summer's crop counts full and fair: And murmurs, not thanks, are in the air. And storehouse doors are locked to wait. And men are plotting early and late. "What shall save the farmer from loss If wheat too plenty makes wheat a dross?" "Too much wheat!" Good God, what a word A blasphemy in our borders heard.

"Too much wheat!" And our hearts wer But vesterday, and our checks like flame, For vengeance the Lord his loins doth gird When a nation reads such a tale of shame. Hundreds of men lie dying, dead, Brothers of ours, though their skins are red; Men we promised to teach and feed. Ob. dastard nation! dastard deed! They starve like beasts in pen and fold A hile we hoard wheat to sell for gold. "Too much wheat!" Men's lives are dross? 'How shall the farmers be saved from loss?

What wondrous yields! Put the ledgers by! 'Too much wheat!" Oh, summer rain. And sun, and sky, and wind from West, Fail not, nor shine, nor blow again!

'Too much wheat!" Do figures lies!

Let fields be deserts, famine guest Within our gates who hoard for gold Millions of bushels of wheat unsold, With men and women and children dead And daily dying fer lack of bread! "Too much wheat!" Good God, what a word A blasphemy in our borders heard.

#### THINGS WORTH REPRINTING.

Senator Allen is wielding a strong influence in congress. His speech in favor of free silver is largely a legal argument, aiming to show that all as ti-free coinage legislation is unconstitutional and void. The speech is in great demand by the legal lights of the country. There is now a case pending before the supreme court to test the constitutional right of any one to take silver bricks to the mint and have them coined.-Cedar Rapids Republican.

The circulars sent out by the New York bankers recommending that "pressure be brought to bear upon senators opposing the conspiracy to demonetize silver, are having a good effect in opening the eyes of the people as to the real source of all this v llainy. The notice served on Kansas and North Carolina farmers that loans would be denied them, is a part of this "pressure." "Lay on, McDuff, and damned be he who first cries, "hold, enough." -Arbor State.

Hon, E. W. Peterson, one of Burt county's foremost lawyers, who has 'ecently returned from a summers stay in California has announced himself emphatically that he is a Populist in future. Attorney H. H. Bowers of this place, we understand, has also placed himself on the side of right. These are only a few of the more conspicuous deserters of the old monopolistic railroad parties Men that are independent thinkers and readers are the ones that make the changes.-Oakland Independent.

Usury is cansibalism, civilized acd Christianized It formerly captured, fattened, killed, roasted and ate the body of its enemy. Now, the same spirit inspires a man who captures his friend and fellow Christian, robs him of the only available means of getting fat, starves him in a filthy garret and in tenement cells till his last penny is gone, and then kicks him into the street, where he is arrested as a vagrant and put to work in the chain-gang, for being without money, food or shelter, owing to his inability to find work in a land where there are, on an average. no more than three jobs to divide among four or five applicants.-Arens.

The electoral battle is on. Will you help to win the victory? If so, roll up your sleeves and do all you can for reform, Get out good audiences at your school houses. Give the nominees all the aid you can, and help your committeeman all in your power. Don't be paign fund, as our party has no favored class to assess for special favors. We must all do our part in carrying the campaign to victory. Do not lose time over what might have been, but work for the present and future with all your might. Bring your neighbors that are not independents to our meetings and get them interested enough to study the question themselves for their own welfare. And by all means do not fail to do your whole duty on election day. If your work is pressing, work longer hours before election day, but let that day be sacred to yourselves, your home and your country by going to the polls early and staying all day in the work of reform. Yours for success.
