Serious View of the Outlook.

TROUBLE PREDICTED. An American in Hawaii Takes a Most

NEW YORK, Nov. 27 .- The World publishes the following letter from

state my unbiased opinion in regard to what will be the outcome of the struggle to establish a republic. This is a hard thing to do at the present time, for we are all at sea as to what position the United States is going to assume toward us. Minister Willis has just arrived and presented his credentials to President Dole. sorts of rumors are afloat. One is thal Willis is going to assist Liliuokalani to regain her throne. What lent color to this was the landing of a number of marines from the man-of-war Philadelphia and a number of boats of that ship filled with men, all of whom were heavily armed, were kept in the water a l one night. At daybreak the boats were taken back on board the Philadelphia and no one understands this movement. It is said the queen's friends intended to make an attempt to get control of the government and the marines were to assist them and that it was discovered that their plan had been made known, that the conspirators were under surveillance, and that it was decided at the last mo-

ment to give up the attempt. Let me tell you that if any attempt is made to replace the queen on the throne there will be bloodshed. We have now a citizens' guard of 500 and they will fight. We are now enjoying freedom and comparative safety and if the United States will only annex us and, if it won't do that, keep its hands off, then, we will become prosperous. Before the provisional ernment was formed we were like a lot of slaves, afraid to open our mouths.

Minister Stevens understood the situation. He is an hones: man and his report is a truthful one. If Harrison had remained president a few months longer we would have been annexed. The feeling here against President Cleveland is very bitter and Willis is looked upon with suspicion. I think a permanent republic will be established in a few weeks and the Cholera. queen forced to leave the island.

I have just time to add a few lines. The marshal has called a meeting of the citizen's guard. What is up I don't know. I will let you know by the next mail. Every man has a rifle and is well supplied with ammunition.

STATESMEN GATHERING.

Members of Both Houses Returning Some Gossip About Future Actions.

WASHINGTON, Nov. 27. - Senators and members of congress have begun to return and are to be found around the hotels, the capitol and the departments. Many are making arrangements for the winter.

There is a great deal of interest manifested among the congressmen about the tariff, but other matters of legislation are frequently discussed. There is now a general impression that little will be done before the holidays, although the wheels of legislation will be going around all the time. There are several matters pending in both houses which can occupy the time, even if the tariff bill does not come up in the house at once. All the bills which the house passed and sent to the senate during the silver debate can be considered in that body while the tariff bill occupies the

There are a number of members of congress who would very much like to have the Hawaiian matter come up in congress early, and there are others who would prefer that it be nandled by the state department and not brought before congress. It is expected that some resolutions of inquiry upon this subject will be introduced, but they can easily be held in committee until the administration is ready to send in such communications as it deems advisable. There is the usual hope expressed among the arriving members that there may be a short session and that the important business may be transacted at once.

HELEN GOULD ENGAGED.

The New York Heiress Said to Be Affianced to Mr. Thorne of Texas.

Sr. Louis, Mo., Nov. 27.-A well known railroad man now stopping at the Southern hotel is quoted as follows: "All this newspaper sensation about Helen Gould being determined to marry Harry Woodruif, a New York actor, is silly and is known to be such by every general officer of the Missonri Pacific system and nine out of ten of the leading railroad officials of Texas. The man who is to marry Miss Helen was selected by Jay William C. Helmer, Gould during the spring of the year in which he died. He is L. S. Throne, third vice president of the Texas Pacific railroad, with headquarters at Dallas. The marriage would have occurred already but for Mr. Gould's death. Mr. Thorne's acquaintance with the Gould family began in the spring of 1892, when he was their guest in their private car at El Paso. Sure Cure for

I have a positive, tried, proved and guaranteed cure for kog and chicken cholera, which has steed the test of six years without ever making a failuee to my knowledge or that I ever heard of. It has been used successfully in hundreds of cases. My father is and has been for forty years a leading hog-raiser in this county, and has lost many hogs from cholera, but has never lost a hog or chicken from cholera since the discovery of this remedy. One dollar will buy enough of the ingredient at any drug store to cure fo to 75 head of hogs. I will send any person the recipe for only fifty cents. Send today, use the remedy and you will never lose another hog or chicken from cholera; don't wait until they begin to die.
