LESSON X, FIRST QUARTER, INTER-NATIONAL SERIES, MARCH 11.

Text of the Lesson, Gen. xxviii, 10-22. Memory Verses, 12-14 - Golden Text, Sen. zzvill, 15 - Commentary by the Boy. D. M. Stearns

10. "And Jacob went out from Beer-leba and went toward Haran." Since the last lesson Isaac has been to the Philitines, and being forbidden to go to Reypt he sojourned at Gerar, where he fell into his father's sin concerning his wife.

He afterward made his home at Beersheba the extreme south, where his father ewelt when called upon to offer up his only son. Then follows the story of the deception practiced upon Isaac by Rebekah and Jacob, with Esau's consequent hatred of Jacob, resulting in Jacob's leaving home to go to his mother's people at Ha-ran in Padanaram, where Abram had sojourned on his way to Canaan till Terah died.

11. "And he lighted upon a certain

lace and tarried there all night, because he sun was set, and he took of the stones of that place and put them for his pillows and lay down in that place to sleep." der Jacob from this on apart from his nature and conduct as a sinful man, there are several things in his history sugges-tive of facts in the history of the Lord Je-The form the instory of the Lord Jesus. He goes forth to obtain a wife (verse b), for whom he labors patiently a long time (chapter xxxi, 40, 41), but it seems hort to him because of his great love to her (xxix, 20). Christ loved the church and gave Himself for it (Eph. v, 25). Elient seeking a bride for the son at home with his father is suggestive of the present work of the Spirit in gathering out the urch. As you see Jacob in his loneliness with the stones for his pillows you can't belp thinking of him who had not where

to lay His head (Luke ix, 58).

12. "And he dreamed, and behold a ladder set up on the earth, and the top of it reached to heaven. And behold the anals of God ascending and descending on gals of God ascending and descending on it." By comparing John i, 51, the ladder is suggestive of the Son of Man, who becoming man reached down to where we were, and being God reaches up to heaven, the angels being ministering spirits unto the heirs of salvation. It will be fully seen in the hereafter of the millenial kingdom.

18. "And behold the Lord stood above t and said, I am the Lord God of Abranam, thy father and the God of Isaac; the land whereon thou liest, to thee will I give it and to thy seed." Notice in this yerse and the last three beholds—behold a ladder, behold the angels, behold the Lord.

14. "And thy seed shall be as the dust

of the earth, and thou shalt spread abroad to the west and to the east and to the north and to the south, and in thee and in thy seed shall all the families of the earth be sed." Abram was promised a seed as serous as the dust of the earth and as he stars of heaven (xiii, 16; xv, 5). The latter was repeated to Isaac (xxvi, 4), and now the former is confirmed to Jacob.

15. "And behold I am with thee and will keep thee in all places whither thou coest and will bring thee again into this and, for I will not leave thee until I have one that which I have spoken to thee of." Here is a fourth behold and associated with what seems to me the most compre-hensive assurance in the Bible, "I am with thee." Compare Ex. iii, 12; Joshua i, 5; Judg. vi, 16; Jer. i, 8, 19; Isa. xli, 10; Hag. i, 13; ii, 4; Math. xxviii, 20, etc. Consider well this promise of God's presin the light of Jacob's unworthiness and crookedness and see if your soul is not nforted and strengthened by the fact that this God is your God, the same yes-

terday, today and forever. 16. "And Jacob awaked out of his sleep, and he said, Surely the Lord is in this place, and I knew it not." His partnership with his mother in the deceit practiced upon Isaac would not tend to fellowship with God, but to be alone and away from home sometimes causes deep thought, and it is possible that ere Jacob slept he had turned to God with true penitence and confession, and that this vision was the answer to his prayers.

17. "And he was afraid and said, How readful is this place! This is none other but the house of God, and this is the gate of heaven." Ever since Adam sinned and maid, "I was afraid" (Gen. iii, 10), sin has made man afraid at the presence of the Lord. And yet God is love and loved us when we were dead in sins, and Christ died for sinners. We cannot have peace in the presence of God apart from the forgiveness of sins, but this also he has provided in How to Make Paint Shine Without Varnish. Jesus Christ (Acts xiii, 88, 89; Eph. i. Paint mixed with a liquid composed 6, 7).

18. "And Jacob rose up early in the morning and took the stone that he had put for his pillows and set it up for a pil-lar and poured oil upon the top of it." A sense of the presence of the Lord is now upon him, and he is awed and subdued and grateful. It should be always so with e believer, with joy added—joy in the and and the joy of the Lord, serving the Lord with gladness. The stone that was prostrate, but now upright and anointed, may stand for Jacob himself.

19. "And he called the name of that place Bethel, but the name of that city was called Luz at the first." Near this place was one of Abram's first tenting places in Canaan (chapter xil, 8), and later God appeared to Jacob es "the God of defiled it when he here set up one of his ter, and for each quart of water add olden calves (I Kings xii, 29). Every spot n our pilgrimage may be to us a Bethel if we will not defile it by any idol.

20, 21. "And Jacob vowed a vow, say ing, If God will be with me and will keep me in this way that I go and will give me bread to eat and raiment to pet on, so that come again to my father's house in peace, an shall the Lord be my God." In view of the most gracious and unconditional urances of verse 15, it is surely too bad to hear Jacob come in with his great big 'If," and yet how many of us leave out all the "ifs," and when God says a thing soldly declare, "I believe God, that it shall be even as it was told me," or gratefully my, "He it unto me according to thy

word" (Acts xxvii, 25; Luke i, 28)?
22. "And this stone which I have set be a pillar shall be God's house, and of all that Thou shalt give me I will surely give the tenth unto Thee." Yet there are Caristians without number who never yet gan to give God a tenth and are thereb. If we are children of God by faith a Christ Jesus, then we are Abraham's seed (Gal. iii. 29), but Abram gave Mei-chisedec tithes of all. Let us therefore abserfully give our Melchisedec tithes of all as the very least we should do, and then the bligh the free will offerings on top of that Let no one try to en pe by saying, "All I have is his." Well, the Lord grant he so, but show up the tenth anyhow little evidence that you are all his Prov. ai, 24, 25; ztil, 7.

HOW TO WASH TABLE LINEN.

Care Should Be Used In Washing White Colored, Embroidered and Damask.

Be sure that your linen goes into no vessel that is not clean and freshly rinsed. See that it is put to boil inside a bag of clean cheese cloth. If stained, wet the spots with alcohol, and wash out in clear cold water before allowing suds to touch it. Stains of milk or soft eggs must be soaked in clear cold water for 10 minutes, then washed out. Use a mild white soap, or the Brown Windsor that comes in long bars. Make a strong lather, only letting the soap touch the fabric at some obstinate grease spot. Tea cloths or others with delicate colors wash brighter if a handful of salt is added to the first suds, which should be barely lukewarm. The second may be hotter. Wash quickly through both. Fold smoothly for the wringer, then pop into your bag and set to boil in cold water for 10 minutes. Rinse first in hot, then in lukewarm water. Have your bluing water cold and free from specks of color. Dip your linen in very thin starch contain-ing a suspicion of bluing, and hang, if possible, in the sun. See that the line is clean. Take pains to hang each piece square, as if dried awry it will be very hard to make it even again.

Let everything dry thoroughly and do not dampen or fold until a little before ironing time. After a cloth is properly wet pull the diagonal corners as hard as possible and fold with a lengthwise crease through the middle. Roll smooth and tight and let it lie for 20 minutes. For rich damask or embroidered cloths put an extra blanket on the ironing table under its muslin cover. Lay the embroidered part smoothly over it, right side down and press with a heavy iron just below scorching heat. When almost dry and very smooth, turn and iron on the right side, using very light irons on the embroidery and heavy ones on the plain round. Stretch the fabric well with the hands before pressing embroidery.

When the right side is properly done, fold it lengthwise along the middle, then begin at one end and lay about six inches lightly over; do not fold it down but roll until all the length is coiled. Go over the cloth twice or thrice with a hot iron, changing irons frequently. Iron till the pattern shows plain on a glossy white surface. If not thoroughly dry when ironed, hang upon the horse for an hour or two, then fold or roll to such compass as required for the closet.

How to Wring Out Hot Wet Flannels. Put them inside a towel and hold the ends in the hand while wringing. A square bag with a stick run through each end and an opening in the middle of one side is better. Drop the dripping cloth into the bag, then use the stick to turn it by.

How to Care For a Refrigerator. Place your refrigerator in a cool spot, but one having light and air. Once a week remove everything from it, and take out all shelves or movable parts. Wash these well in hot soapsuds, rinse freely in boiling water. Put them in or before the Wash in the same way the rack on which the ice sets, but use greater care, as this is generally corrugated or grooved, and secretions of dirt may be overlooked. Wash the inside of the entire refrigerator with suds and boiling water, being careful to wipe all perfectly dry. Use a flexible wire for running down the tube where the refuse water runs off. Dissolve two tablespoonfuls of washing soda in a quart of boiling water on the stove. After it boils pour it into the ice compartment, follow it quickly with a kettle full of boiling water and wipe dry. Leave the refrigerator open for an hour and then put back your ice and food. The best day in the week for this work is when the iceman is expected. Attend to it immediately after breakfast, Never put warm food in a refrigerator, as it will absorb the flavors of other food, and also heat the refrigerator.

Paint mixed with a liquid composed of one gallon of linseed oil, two ounces each of burnt umber and black lead, and a quarter of a pound of litharge, boiled together, will dry quickly, with a hard finish and a glosslike varnish.

How the Odor of Food May Be Removed From Cooking Vessels.

Sometimes the most careful washing will not wholly remove the flavor or odor of food from the utensil in which it was cooked. This is frequently the case with fish, onions, cabbage, etc., but there is a remedy which, though a little trouble, is well worth trying. After any of these articles have been cooked, wash the utensil carefully with soap (chapter xxxi, 1s). But Jeroboam and water. Nearly fill it with cold waabout a tablespoonful of dissolved washing soda. Place on the fire and let the water get boiling bot. Now turn this water into the sink. Rinse the utensil with clean warm water, and on wiping it dry it will be found perfectly sweet.

### How to Prevent Cold Feet.

Do not wear the same stockings on two successive days, but keep two pairs going alternately, hanging each to dry and air when not in use. Every night bathe the feet in tepid water and rub hard with a coarse towel.

How to Make Virginia Eggnog. To make a gallon of eggnog take one dozen eggs; separate the whites and the yolks very carefully. Beat each until it becomes as light as practicable. Add a pound of pulverized white sugar to the yolks and mix. Then add a quart of cognac brandy and balf pint of Jamaica rum, pouring them in a small stream while stirring actively. Ald half a gallon of rich milk. Then add not less than three-fourths of the bulk of the whites. The remainder of the whites chould be put upon the surface merely as an ornament. A large portion of the white of the eggs should 2 Meet, meat. 2 Stare, stair. 4 Steal, always be mixed to render it light and steel. 5 Wade, weighed. 6 Right, write,
