GOVERNMENT BY INJUNCTION

Labor Organizations Beginning to Comprehend Some Truths Long Taught by The Independent

At the meeting of the miners national organization last week, John Mitchell spoke of government by injunction as follows:

"Government by injunction is one of the most insidious, harrasing and dangerous methods resorted to by the enemies of the workingmen to destroy labor organizations and to circumvent the constitutional right of trial by jury. The whole system of government by injunction grows from the distrust of the ultra-capitalists for democratic institutions.

"The reasons given for the issuing of injunctions are always misleading and generally false. So far as these injunctions are issued in labor cases, they are never issued excepting in such cases as call for the exercise of the criminal law.

"Government by injunction is not only hostile to organized labor, but it is hostile to constitutional liberty. If the American people do not check this arbitrary power it will result in the annihilation of labor unions and then of all other forms of organizations disliked by capitalists."

Vice President T. L. Lewis in his annual report reviewed his year's work in settling disputes and troubles and discussed injunctions at length. In closing his discussion, he said:

"When we remember that we have nearly 500,000 voters directly engaged in mining in the United States and that they are distributed through the country in such proportions that we may determine the composition of congress, we ask in all sincerity, whose fault it is if we do not secure remedial legislation. It is our own. Let us burn that into the minds and consciences of every mine worker in this country—then we will get our rights.

"If we expect to secure relief, every laboring man must act. Not by denouncing the courts, or those who issue injunctions, but to demand of our representatives in congress to know where they stand with reference to the growing evil of 'government by injunction.'

Let the congress of the United States by law classify cases that are subjects for the jurisdiction of the federal courts when issuing injunctions affecting the rights of members of labor organizations when engaged in a strike.

"Have a law enacted that federal judges can issue injunctions in labor disputes only on the application or approval of two or more elective judges. Fix the time within a reasonable limit when the defendant shall answer to an injunction issued against him. Compel the applicant for an injunction affecting the rights of labor unions to submit reasonable proof that his allegations in support of the application for an injunction are truthful. Embody in that law a provision that those arrested for contempt of the restraining order in labor disputes shall have the same right to a trial as that accorded a person charged with a crime.

"A bill covering our demands should be drawn, and then insist that it must be enacted with every vital feature embodied and that politics will positively be thrown aside in securing the record of every candidate for congress on this question."

That is considerable of an advance. When the wage-workers get far enough along that they will not vote for the representatives of the party of injunctions, when they cannot be fooled with fake orders for goods "to be canceled if Bryan is elected," when they learn that wages is one side of an equation, the other side of which is the cost of living, and that exorbitant tariffs raise the side of the equation which represents the cost of living, leaving the other side the same and a few more things of that kind, and then have the courage to act, the condition of the toilers will be improved.

Farms for Everybody

169 acres in north part of Howard county, Nebraska. 90 acres cultivated, balance in grass and pasture. 55 acres fenced with 3 wires, new cedar posts. Good new frame house 26x26, frame barn for 8 horses, chicken house, corn crib, good cave, fine well and windmill. About 5 acres of alfalfa, nice young trees. Soil is first class and plowed land is nearly all level. Good road to market. The best farm in Howard county for the money; good reasons for selling. Price, \$3,000. Write us for particulars. If you see the place, you will buy it. Send for our general list of lands. Van Decar & Bradley, St. Paul, Neb., or Wolbach, Neb.

"Thirteen" Years

Many people look upon the number thirteen (13) as unlucky. We don't think there is anything unlucky in any number. Already some have ascertained that the four figures in the year 1903 when added amount to 13. We have looked back over the years of the nineteenth century and find there were in the hundred years five whose totals amounted to 13—1804, 1813, 1822, 1831 and 1840, the last the year of the writer's birth. For over sixty years there has been no "13" year, and yet we have had some that were most unfortunate, not to say unlucky.

During the twentieth century there will be but four years whose totals will be thirteen—1903, 1912, 1921 and 1930.

In the twenty-first century there will be no thirteen year until 2029, but it won't matter much to us, for few now living will be here then.

Don't believe that any year is "hoo-doo" time. Depend on yourself for good times. Be industrious, self-denying, temperate and honest, and you're sure to beat any unlucky years that you may live in.—Easton (Pa.) Sentinel.

Cattle Ranch at a Bargain

Here is 320 acres deeded land 8 miles south of Plattner, Colo., on the B. & M. railroad. Splendid improvements. One-half mile from good school. 65 cows all under seven years old, well bred; 32 yearling steers and heifers; 34 last spring black galloway calves. Cattle all dehorned and of a very high grade; 7 splendid horses. For a short time we are authorized to sell this property for \$6,500, and will take \$1,000 in trade if desired. To a man with small means an equally good proposition has never been offered. Weber & Farris, Lincoln, Neb.

The Vandalla railroad received a charter in Indiana in 1847, agreeing to pay to the school fund all profits over a certain percentage. It refused to do it. The supreme court has decided that it must. Thus you see that the men who run railroads will not keep an agreement, will not be bound by any charter, will steal openly where they cannot steal sneakingly. If the public owned and operated the railroads, there would be no lawsuits and bribery. The state paid the attorney's \$350,000 fees to make the railroads pay their contracts. Cheap, isn't it?—The Independent, Boone, Ia.

320 Acre Farm for Sale

All fenced, 200 acres under cultivation, balance pasture, good nine-room house, barn 40x50, windmill and good dug well 86 feet deep, tank and lead pipes all in first class condition; 5 miles from Stratton, 8 miles from Trenton, 1 mile from school, 1 1/2 miles from the Republican river. \$2,300. This is a great bargain. The improvements alone cost more than is asked for the entire farm. Write today. Address The Independent, Lincoln, Neb.

What is the Matter

Editor Independent: Wheat is about 71 cents a bushel in Chicago. This is no price when compared to trust prices of other goods and so much rag money. Here are some wheat prices in former years, the highest point in each instance:

1865	\$1.25
1866	2.03
1868	2.20
1869	1.47
1870	1.31
1871	1.61
1873	1.46
1874	1.28
1877	1.76
1878	1.14
1882	1.40
1883	1.13

This 71 cents is a starvation price for the farmer when compared with trust prices and rag money that costs the national banks nothing and no taxes to pay. That's what's the matter with Mr. Huston in January 8th number of The Independent.

It is discrimination against the farmer and wage-earner who dig all this wealth out of the ground.
