Remodeling Sale!

Extra Special Prices on SPRING AND SUMMER MERCHANDISE in Every Department

We are enlarging and remodeling our store to meet the demands of our fast growing business. Many departments will have new locations and all will be given increased space. We have arranged this Remodeling Sale to lighten our stock, which is too large to move conveniently. The unusually large assortments in our numerous lines at the Extra Special Prices made will, we feel, reduce our stock rapidly.

LADIES' AND CHILDREN'S SUITS COATS, SKIRTS, WAISTS, ETC.

During our Remodeling Sale in this department all Ready Made Garments will be marked at from 10 to 15 per cent less than actual values. We will guarantee fit of all garments.

The Mathematical Language

The new mathematics is a sort of supplement to language, affording a means of thought about form and quantity and a means of expression, more exact, compact and ready than ordinary language. The great body of

physical science, a great deal of the essential fact of financial science, and endless social and political problems are only accessible and only thinkable to those who have had a sound training in mathematical analysis, and the time may not be very remote when it will be understood that for complete

initiation as an efficient citizen of one of the new, great, complex, world-wide states that are now developing, it is as necessary, says H. G. Wells, in the March Cosmopolitan, to be able to compute, to think in average and maxima and minima, as it is now to be able to read and write.

C. H. Jeffrey, Chadron, Neb.: There is no use trying to get these republicans up here to read anything but republican literature—and the most of them don't read much of that. I am disgusted with the "whole shooting match" and hope the corporations will stick it to them clear up to the hub.
